Best Practices

- **Submitting Offers**
  - Real time and auto-saved
  - Review Offer Submission Package
  - Review Bid Package Report
  - Select “Submit Offer Package” to submit offer
    - You will get an error message if critical info is missing
    - Price escalators mandatory for each bid line
  - Enter password again and submit
  - Watch for a confirmation email
  - Enter OET after submission... VIEW/EDIT
    - VIEW allows you to view the offer, not make changes
    - EDIT will un-submit your offer! You will be able to make changes, but you must submit your offer
  - Do not submit a “place-holder” offer/submit best offers in the initial round
  - Do not wait until the last minute to submit
  - Keep your OET account current (log in once every 30 days)
  - Read the solicitation and familiarize yourself with the clauses and schedule
