**16. REMARKS**

The Measurement and Inspection Equipment System Design documentation for Acceptance of Product describes the Acceptance Inspection Equipment (AIE), Automated AIE (AAIE), and various measurement systems, used to meet the inspection and test requirements to deliver units and other end products that conform to contract, specification, QAP and drawing requirements. This documentation is used to evaluate the acceptability of these designs to meet contract requirements.

Block 12:
AIE Package: The Contractor shall submit a complete, comprehensive AIE package no later than 120 calendar days after contract award. The Government will furnish disposition within 45 calendar days of final comprehensive AIE package receipt.

Note: Incomplete submission is considered delinquent.

AAIE Test Analysis Report: The Contractor shall submit the test analysis report 45 calendar days prior to First Article (if First Article is required) or AAIE equipment use on contract. The Government will respond within 30 calendar days of receipt.

Revisions, when applicable, are to be submitted within fifteen (15) calendar days of receipt of USG response. If documentation was approved on a prior contract with this contract activity and no changes were made, submit revised design for approval.

Final approval: Final approval, through verification, will be performed on-site at the contractor location NLT 30 days prior to First Article Test (FAT) or start of production if FAT is waived.

Block 13: For AIE Package & AAIE Test Analysis Report: The Contractor shall have 30 calendar days to provide revisions and the Government will provide response within 30 calender days.

Remarks:
The approved AIE shall be available for First Article (if First Article is required), production, and/or all acceptance of product under the contract. Government approval must be granted before AIE is used for acceptance of product.

## FOR THE CONTRACTOR

**Item 17.** Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

a. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

**Item 18.** For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirement to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.
