SUMMARY OF CHANGES

Section 00 00 00 - Procurement and Contracting Requirements

The following changes have been made:

Miscellaneous text in this section has been added to:

The purpose of this Amendment 0002 is to include the NYSDEC Water Quality Certificate (WQC) in the contract solicitation along with additional sampling/testing data. The awarded Contractor shall review and comply with all conditions contained therein the WQC, including but not limited to the following: seasonal dredging restrictions prohibiting work within sheets 6 through 10 (stated as sheets 5-9 in WQC) from 01 OCTOBER to 30 NOVEMBER, and the requirement to utilize the Protected Species Observers (PSO) during the dredging operations from 01 SEPTEMBER through 31 OCTOBER for work shown on Sheets 3 to 5 (stated as sheets 2-4 in WQC). Please note that the PSO must have the same qualifications/credentials by NOAA NMFS standards as the Environmental Species Observer (ESO) to perform work.

No Change to Plan Sheets or Bid Schedule

Specifications:

A1: Specifications, Section 00 90 01: Included in 'Attachment K' the ASI Testing results which can be found right underneath the EPA Super-Memo as a response to an RFI.

A2: Specifications, Section 00 90 02, subpart 3.1.1: Added language of incorporation of the NYSDEC WQC and detail about the WQC. The WQC can be found in section 00 90 02 underneath the already attached NJDEP FCD/WQC.

A3: Specifications, Section 01 11 00, subpart 1.2.1: Added language referencing the incorporation of the NYSDEC WQC. Explicitly mentioned in specifications Condition No.8 and Condition No.9 for potential bidders to be aware of in the NYSDEC WQC.

RFI Disclaimer

Questions that may be of general interest to all Offerors and/or the Government and that are not readily answered by the proceeding changes will appear below. These questions may have been

paraphrased or altered to represent several questions regarding the same subject and/or simply revised to clarify and simplify the question(s). Questions and answers are issued to the Offerors "for information only" and do not revise the solicitation, plans or specifications.

Q1. Section 35 20 23, Paragraph 2.1, Character of Material, states: "Based on sampling and testing of the proposed dredged material in 2025, the material to be removed consists primarily of silt, sand, and clay." Please provide the sampling and laboratory testing documentation supporting the referenced 2025 material characterization including but not limited to sampling locations, boring logs, vibracore logs, and/or grab sample logs, and laboratory test results supporting grain size percentages.

A1. The ASI Testing Results can be found in the revised specifications under amendment 0002. The testing results can be found in Attachment K underneath the EPA Super-Memo (page 203).

Q2. Section 00 22 13 - Supplementary Instructions to Bidders references both AT/OPSEC training requirements and physical security and access control requirements. Please confirm the applicability of each requirement to contractor personnel who access the contract area exclusively by waterside and do not enter any landside federal installation or facility. Specifically, confirmation is requested on the following:

- AT/OPSEC Training: Section 00 22 13 states that all applicable contract personnel shall complete initial AT/OPSEC training within 30 days of contract award or the date new contract personnel begin performance on the contract. Please confirm whether this training requirement applies to contractor personnel who access the contract area exclusively by waterside.

- Physical Security and Access Control: Section 00 22 13 further states that all contract personnel requiring physical access to a federal installation or facility shall comply with applicable access control procedures, including NCIC-III and TSDB vetting for unescorted access to DoD installations. Please confirm whether these vetting and access control requirements apply to contractor personnel who access the contract area exclusively by waterside and do not enter any landside installation or facility.

A2. The General security requirements and guidance as well as the Physical security and access control requirements have been removed and replaced with the Pre-screen candidates using E-Verify Program.

Q3. Project Specs Section 35 20 23 Part 2.1 gives a percentile breakdown of materials in the area based on sampling in 2025, but there is no additional information regarding collection method, testing method, or locations of the individual samples. Could you provide any additional information about the sampling campaign? The material breakdowns vary significantly between reaches which could have significant operational impact.

A3. *The ASI Testing Results can be found in the revised specifications under amendment 0002. The testing results can be found in Attachment K underneath the EPA Super-Memo (page 203).*

Section 00 01 15 - List of Drawing Sheets

The attachments table has changed from:

Identifier	Document Name	Document Description	Reference Identifier	Date	Line Item	Page Numbers	Document Type	Provided Under Separate Cover
0001	Specs	Drawings		31 Mar 2026			Attachment	No

To:

Identifier	Document Name	Document Description	Reference Identifier	Date	Line Item	Page Numbers	Document Type	Provided Under Separate Cover
0001	Specs	Drawings		31 Mar 2026			Attachment	No
0002	Revised Specs 042726	Drawings		01 May 2026			Attachment	No

The following contract documents were added:

Revised Specs 042726

Section 00 22 13 - Supplementary Instructions to Bidders

Miscellaneous text in this section has been modified to:

CPARS

The Federal Acquisition Regulation (FAR) requires that Past Performance Information (PPI) be collected on DoD contracts. The Contractor Performance Assessment Reporting System (CPARS)

is a web-enabled application that supports the completion, distribution, and retrieval of all contract performance evaluations. Contractor Representatives are responsible for reviewing and commenting on evaluations submitted on the Contractor Performance Assessment Reporting System (CPARS) website at <https://www.cpars.gov/>.

AT/OPSEC

Pre-screen candidates using E-Verify Program: Contractors shall comply with the requirements set forth in FAR clause 52.222-54 Employment Eligibility Verification and FAR Subpart 22.18 in using the E-Verify Program at (<https://www.e-verify.gov/>) (website to change) to meet the contract employment eligibility requirements. Contractors are encouraged to cooperate with Federal and State agencies responsible for enforcing labor requirements to include eligibility for employment under United States immigration laws in accordance with FAR 22.102-1(i). An initial list of verified /eligible candidates shall be provided to the COR no later than three business days after the initial contract award. When contracts are with individuals, the individuals will be required to complete a Form I-9, Employment Eligibility Verification, and submit it to the Contracting Officer to become part of the official contract file.
