

Solicitation RFQ-26-04855

Questions and Answers

1. **Question:** Can you advise – how often is this likely to be ordered? E.g. Total / year?
1. **Answer:** We would order/expect the Base Quantity (800 bundles) up front, even if fulfillment requires multiple deliveries, with delivery beginning no later than 30 days ARO. The Option Quantity would be requested/ordered after the 800 bundles are depleted and will reasonably be expected to be ordered with 12 (calendar) months of the original award.

2. **Question:** Are the sizes and filter positions a must have?
2. **Answer:** The solicitation stated box dimensions and filter positions are a requirement/"must-have".

3. **Question:** Can our alternative – and longer lasting, re-usable Autoclavable boxes offer a benefit to the users?
3. **Answer:** No. Please propose a product that meets solicitation requirements.

4. **Question:** [ShipSafe – detail here](#). Dimensions: 17" L x 11" W x 7.3" H
4. **Answer:** Not Technically Acceptable.

5. **Question:** [MiniShip – detail here](#). Dimensions: 16" L x 9.8" W x 6" H
5. **Answer:** Not Technically Acceptable.

6. **Question:** Could you please confirm the units for these figures (e.g., mm or inches)?
6. **Answer:** The required filter frame size is referenced in millimeters, and should be interpreted as 734mm x 415mm x 3125mm.

7. **Question:** Specifically, regarding the value "3125," we believe this may be a typo for .3125 or a similar decimal, as 3125 would be inconsistent with a frame of 0.030 thickness.
7. **Answer:** 3125mm is the filter frame dimension that we require.

8. **Question:** Could you please provide the specific measurements or a corrected dimension for the filter frame?
8. **Answer:** 734mm x 415mm x 3125mm
