Tellabs GPON equipment maintenance service**

**Q1:** For CLINs 0001, 1001, 2001, Remote technical assistance support, I would prefer NOT to include "speculative costs" in VFI's proposed price. May we quote the cost to support the "Planned ONT Installation FY26 & FY27" equipment in 'Attachment 1 and 2 SOW attachment' on page 8 of 8 as an option? We would rather not include costs that might never be incurred.

**A1:** Contractor pricing should include Remote technical assistance support for all Optical Networking Terminals identified on pages 5-8 of Attachment 2.
