

Questions and Responses for DPM Local Moves Recompete – W911SF_26_Q_A0030003

1. Will the Government provide estimated annual quantities or estimated utilization percentages for each CLIN to assist offerors in developing realistic pricing assumptions? **This is a Local Moves DPM Contract, on an as needed basis requirement. CWT / Shipments may vary monthly depending on Service Members' requirements after receiving Military Orders for movement e.g. PCS, Retirement, Separation, etc.**
2. Can the Government provide an estimated breakdown of inbound versus outbound shipment activity historically associated with this requirement? **This is a Local Moves DPM Contract on an as needed basis requirement. Inbound/Outbound Shipment requirement can vastly fluctuate depending on actual need of requirement. With instances where no services are required for the month.**
3. Are there historical performance metrics or service deficiencies from prior contract performance that the Government considers particularly important for offerors to address within their Quality Control Plans? **All aspects of performance/service from initial acceptance, customer service, to final delivery of shipment are important and should be addressed in QCP.**
4. Under what circumstances would warehouse utilization or repacking activities typically be required for this requirement? **Examples in which repacking may be required but not limited to – Mold, Fire, Water, Infestation (Rodent, Insects, etc.) damage.**
5. Will pricing evaluation be based solely on total evaluated price, or will individual CLIN pricing also be evaluated independently for balance and price reasonableness? **Total evaluated price is an estimate based on previous contract. This is a Local Moves DPM Contract on an as needed requirement. Total evaluated price may fluctuate based on actual need for requirement. CLIN pricing was based on previous contract.**
