To be considered acceptable:

- i. The quoter will be evaluated on their past performance record and any other relevant information obtained from available sources which may include CPARS, eSRS, Responsibility/Qualification reports in SAM, other databases, as well as interviews with POC references, Program Managers/Customers, Contracting Officers, or Contracting Officer Representatives (CORs), data submitted by the Quoter as part of the Past Performance file, and any other information available to determine the quality and relevance of the quoter's past performance.
- ii. The Government shall determine how well the quoter performed on the recent (within 3 years of solicitation issuance) and relevant (similar in scope, magnitude, complexity) contracts. The Government will assign an acceptable/unacceptable rating as to the quoter's ability to perform on the required effort based upon the recent and relevant past performance record considering the information available regarding quality of performance.
- iii. In the case of a quoter without a record or references of recent and relevant past performance, or for whom information on past performance is not available, or so sparse that no meaningful past performance rating can be reasonably assigned, the quoter may not be evaluated favorably or unfavorably on past performance (see FAR 15.202(c), Past Performance Evaluation). Therefore, the quoter shall be determined to have unknown past performance. In the context of acceptability/unacceptability, "unknown" shall be considered "acceptable."
- iv. Should the Government discover adverse past performance information to which the quoter had not had a prior opportunity to respond, the Contracting Officer will conduct communications if deemed appropriate.

PRICE AND ADMINISTRATIVE

- i. If a quote has been determined acceptable under each of the non-price factors listed above, the Government will then evaluate the quote for the lowest price. The quoted total price between quoters determined to be technically acceptable will be the determining factor in the selection of a quote for award. Price analysis shall not be conducted on quoters determined to be unacceptable for award, since the quoter will not be in line for award as the lowest priced technically acceptable quoter. All CLINs must be priced.
- ii. The Government will perform a price analysis to determine the reasonableness of proposed price in accordance with FAR 15.404-1(b)(1), comparison of proposed prices received in response to the solicitation.

(b) Options. The Government will evaluate quoted for award purposes by adding the total price for all options to the total for the basic requirement. The Government may determine a quote is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of Award. A written notice of award or acceptance of a quote furnished to the successful quoter within the time for acceptance specified in the quote, shall result in a binding contract without further action by either party. Before the quoter's specified expiration time, the Government may accept a quote (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
