

Solicitation No. 693JF726R000015
A Study on the Economic Impact of the International
Maritime Organization Net Zero Framework
Amendment No. 1

The purpose of this amendment is to respond to the following questions.

Question-1.

Cooperative agreements do not allow for profits. Is it the government's intent to compete this competitively to for-profit organizations and award a contract or is the intent to collaborate with an entity, such as an academic institution, in a cooperative agreement that does not allow for a profit?

Response-1a.

Just to clarify, this is a cooperative agreement consistent with 2 CFR 200 and related restrictions on profit contained in 2 CFR 200.400(g).

Response-1b.

The RFP is open to all domestic applicants other than individuals. Applicants must comply with UEI and SAM.gov requirements as described in section E.3 of the RFP.
