

Vendor Q&A – Solicitation 140L1726Q0009

Project: BLM-CO WRFO – Kiosk Sign Panel Installation

Contracting Office: Bureau of Land Management, Colorado State Office

Point of Contact: Frost, Patrick

Q1 – Acceptable Panel / Kiosk Brand

Vendor Question:

Is the Government requiring RockArt kiosk panels, or will any brand be acceptable if it meets the same specifications and features?

Government Response:

Panels must be compatible with the existing RockArt kiosk system. Alternative brands are not acceptable unless fully compatible with the current RockArt kiosks.

Q2 – Graphics or Additional Elements

Vendor Question:

Will any graphics or other elements be installed into the RockArt panels during installation?

Government Response:

No graphics or additional elements will be installed as part of this requirement.

Q3 – Panel Dimensions

Vendor Question:

Are all panels 48" x 48" as listed in RockArt's 03-603 panel description?

Government Response:

Yes. All required panels are 48" x 48".

Q4 – Was this project previously awarded?

Vendor Question:

Is this the same project that was out to bid/awarded last year? If so, is the reason for non-completion able to be shared?

Government Response:

No. This is a new requirement for enclosed panels that need to be installed onto kiosks already built in the field.

Q5 – Responsibility for Providing Materials

Vendor Question:

Just to clarify, the contractor is to provide all materials, correct? The wording in Technical Exhibit 1 was a bit confusing.

Government Response:

Yes. The contractor is responsible for providing all materials.

Q6 – Scope of Installation

Vendor Question:

This is just to provide the information panels and attach them to the already-installed kiosk frames in the field, correct?

Government Response:

Correct, however no documents or information will be attached to the panels for this requirement.

Q7 – Period of Performance

Vendor Question:

Is it possible to extend the period of performance into mid-September?

Government Response:

The Government will evaluate period-of-performance flexibility. Any change would be issued via formal amendment if approved.

Q8 – Placement of Maps and Additional Signage

Vendor Question:

Is it the contractor's responsibility to add maps or other signage that the field office intends to place in the kiosks, or will field staff handle that later?

Government Response:

BLM staff will install the maps/signs at a later date.

Instructions for Additional Questions

- Vendors must submit all questions to the Contract Specialist listed in the solicitation.
- Questions submitted after the posted cutoff date may not be answered.
- Official responses will be issued only by amendment to ensure equal access for all offerors.
