

Vendor Q&A #2 – Solicitation 140L1726Q0009

Project: BLM-CO WRFO – Kiosk Sign Panel Installation

Contracting Office: Bureau of Land Management, Colorado State Office

Point of Contact: Frost, Patrick

Q: The picture shows the kiosk posts and roofs previously installed. Are these installed to Rock Art dimensions so no additional modifications or alterations to the posts or panels be required?

A: No modifications/alterations are to be made to the existing kiosks

Q: Technical Exhibit #1 says to fabricate and/or purchase kiosk panels, #2 says install 28 government furnished kiosk panels. Is this bid to buy and install the 28 kiosk panels and an alternate price to install only 28 government furnished panels?

A: The vendor must supply the panels that are to be installed. Panels will not be provided by the Government.

Q: Our assumption is that this is a LUMP SUM bid for labor, materials and equipment to be entered on SF 1449. Is this correct?

A: Correct, please provide the price for all labor, materials, and equipment as one lump sum.

Q: Are the panels the same exact design or are they all different? Or are they different per kiosk location?

A: All 28 panels should be the same. The panels must be compatible with the existing RockArt kiosk system. Alternative brands are not acceptable unless fully compatible with the current RockArt kiosks.

Q: Please clarify the sign panel materials and the panel sizes.

A: Part 4 of the Performance Work Statement provides the required materials:

“4.2. Materials: The Contractor shall furnish 28 Single-Sided, Fully-Enclosed Kiosk Panels, Model #03 603, manufactured by Rockart Signs and Markers, **or equivalent**, as well as any framing materials, hardware, sealants, protective coverings, and fasteners necessary for installation.”

If you are not purchasing the kiosk panels from Rockart, please include panel specifications in your quote and a detailed list of the materials you plan to use in the fabrication of the kiosk panels so we can confirm they meet the equivalency requirement.

Q: Do the panels require a cover of some sort to protect the prints? If so, please let us know the material specifications.

A: Yes, they need to have a protective covering. Please include the material you plan to use in your quote.

Q: Is there a warranty period required for the panels?

A: If there are any warranties offered or provided by the vendor, please include that information in your quote.
