

Procurement Type: Request for Information (RFI)

Title: Aberdeen Test Center Security and Safety Support Services

Response Date: 12 May 2026 at 10:00 AM Eastern

Primary Point of Contact: Noah Lane noah.r.lane.civ@army.mil.

Primary Contracting Officer: Todd M. Strasavich todd.m.strasavich.civ@army.mil

Description:

Summary: The U.S. Army Aberdeen Test Center (ATC), Aberdeen Proving Ground, MD 21005, is posting this RFI for Security and Safety Support Services as a means of conducting market research to identify Small Business 8(a) vendors having an interest and capabilities that can support the ATC Security and Safety Office with the requirements below.

Background: The U.S. Army Aberdeen Test Center (ATC), a subordinate command to the U.S. Army Test and Evaluation Command (ATEC), is the WAR Department's lead agency for land-combat testing. ATC requires contractor support for the Safety and Security Office and shall be responsible for acquiring, managing and retaining personnel with the capability and experience to perform security administration, provide technical security, expertise and services in support of ATC and ATEC Headquarters (HQ), located at the Aberdeen Area of Aberdeen Proving Ground (APG), Maryland. Because of the division of APG into north and south areas, the contractor may have occasional duty in the Edgewood Area. The contractor will perform work that involves both classified and unclassified security actions. Services shall be performed In Accordance With (IAW), Army regulations 190-13 and ATC regulations and policies found on ATC Sharepoint <https://armyeitaas.sharepoint-mil.us/sites/ATEC-ATC> and policies provided by the government via the Contracting Officer's Representative (COR).

Acquisition Strategy: Based on the market research gathered from this RFI, the Government anticipates directly awarding to a Small Business 8(a) vendor willing to participate in an Alpha Contracting process. Under this approach, the Government and the selected contractor will work together to finalize the requirements and proposal simultaneously. Respondents should clearly highlight their capability to support a rapid, collaborative acquisition timeline.

Information Requested: The Government will evaluate market information to ascertain potential market capacity to support the Aberdeen Test Center Security and Safety Office. Please reply with information addressing the requirements defined within the Performance Work Statement (PWS) and respond to the attachment labeled **Technical Questions Sheet**. Response must also address at a minimum the following items:

Request for Information: Please respond to the following in Arial font size 12

1. Point of Contact Information:

- a. Company:
- b. Address:
- c. Point of Contact:
- d. Phone Number:
- e. Fax Number:
- f. Email Address:
- g. CAGE Code:

2. Please identify your company's size standard per the primary NAICS code of 561210 Facilities Support Services. The Small Business Size Standard for this NAICS code is \$47,000,000.00 in average annual receipts.

For more information on small business, refer to:

[https://www.sba.gov/document/support--table-size-standards.](https://www.sba.gov/document/support--table-size-standards)

If your company is a small business, indicate whether any of the small business categories below apply:

8(a):

Small Disadvantaged Business (DB):

Woman-Owned Small Business:
