

Question	Answer
Confirm whether the Government is requiring a brand new (unused) vehicle, or if equivalent vehicles (e.g., new surplus, demonstrator units, or low-mileage alternatives) would be considered acceptable, provided all technical specifications and performance requirements are met?	It is required to be a brand new (unused) truck. SOW and RFQ were amended to reflect this requirement.
Is there a way to come see the current model box truck you are trying to mirror?	A meeting can be set up if needed.
When the SOW references a 50,000-lb. load capacity, is this a GVW of 50,000 lbs., or is this a net cargo capacity of 50,000 lbs.?	That is referring to a net cargo capacity of 50,000 lbs
The SOW mentions "up to 80-inch sleeper". Is there a preferred size? I have options including 44", 58", 72" , and 80".	44" sleeper would be fine
The SOW mentions "up to 30' Morgan cargo box". Do you have a preferred size? 26' is a very common length.	26' would be fine, up to a 30' would be great.
For the "piano-style passenger compartment door hinges", which door is meant to have this style of hinge? Peterbilt does not offer this for their cab doors. Is that for the Morgan box side door?	This is for the Peterbilt cab, or whatever the current method is used for door hinges
The SOW mentions a 5-year warranty. How many miles would you like the term to be good through? For example: 5yr/300k miles.	5yr/300k miles or factory warranty.
