### **Call 01, ATC-DP, is hereby considered cancelled:**

Following an update to requirements, timelines, and budget priorities outlined in the Office of the Under Secretary of Defense for Research and Engineering (OUSD(R&E)) Microelectronics Modernization Roadmap, OUSD(R&E) has re-analyzed subject requirement. As a result, it has been concluded that the scope of the call no longer reflects the department's current modernization priorities/urgent needs. Therefore, the ATC-DP Call has been cancelled.

AFRL/OUSD(R&E) sincerely appreciates the efforts made by those that responded to the call and encourages offers to explore additional opportunities aligned to the Department's Microelectronics Modernization Roadmap's needs.
