

**Solicitation Number: W912HQ26QA004**

**Solicitation Name: USACE Senior Leader Forum 3rd Quarter FY26**

**Amendment 01**

The purpose of Amendment 01 to solicitation W912HQ26QA004 is to provide answers to the questions received. All other terms and conditions of the solicitation stay the same.

Question: We currently have May 22 available. Could you please clarify the details for this event for me to send a proposal?

Answer: The proposed date of May 22 is unacceptable, as it does not meet the Government's operational requirements. The Period of Performance is firmly established as a multi-day event spanning May 26 through May 29, and the schedule is locked at this stage of the acquisition. To facilitate precise proposal development and accurate cost estimation, vendors must adhere to the following baseline logistical parameters derived from the Performance Work Statement:

- Date: May 26-29; Setup May 26, event May 27-28, teardown May 29
- Guest number: 180 to 200
- Time periods: 7:30 AM-5:30 PM May 26-28, 7:30 AM-1:00 PM May 29
- Food and beverage: Lunch and light snacks needed; specific types of food were not requested

Question: Is there an incumbent contractor?

Answer: No, this is a new requirement. Therefore, there is no historical precedent or incumbent contractor performing these specific services.
