The Government does not assume the duty to search for data to cure the problems it finds in the information provided by the Contractor. The burden of providing thorough and complete responses remains with the Contractor.

As part of the evaluation of technical capability, once quotes are received and comparatively evaluated for overall acceptability based on price, past performance, and documented technical capability, a pre-award on-site inspection of acceptable quoter’s maintenance facilities may be conducted by a USDA APHIS contract inspection team. This team is made up of the Contracting Officer, Airworthiness Inspector, and other technical representative from the state or designated by the National Aviation Coordinator. On-site inspection will be conducted in accordance with the Pre-Award Inspection Checklist included with this RFQ. The Government will assess its level of confidence that the quoter possesses the technical capability necessary to successfully perform the contract based on compliance with the Pre-Award Checklist.
