

**Combined Synopsis/Solicitation
W911N226QA018**

Amendment 0001

The purpose of this amendment is to:

- (1) update CLIN Descriptions for CLINS 0001 and 0002,
 - (2) add CLIN 0003 for Resampling,
 - (3) add RFO FAR Clause 52.222-90 IAW a recent policy change,
 - (4) revise Addendum to 52.212-2 Evaluation-Commercial Products and Commercial Services,
 - (5) update DD Form 1423 CDRLS to align with CLIN structure,
 - (6) update the Performance Work Statement (PWS), Rev 4, to update Section 1.3, and
 - (7) extend the closing date to 21 May 2026 at 1200 Eastern Time
-

General Information

This is a combined synopsis/solicitation for commercial products or commercial services prepared in accordance with RFO FAR Part 12. This announcement constitutes the only solicitation. Offers are being requested and a separate written solicitation will not be issued.

Solicitation number W911N226QA018 is issued as a Request for Quotation (RFQ) for an Indefinite Delivery Indefinite Quantity (IDIQ) contract with a five (5) year ordering period to perform water and soil testing, on-site observations and process audit to yield complete environmental testing in accordance with the attached Performance Work Statement (PWS) at Letterkenny Munitions Center (LEMC).

This acquisition is set-aside for small business concerns. This solicitation incorporates provisions and clauses by reference. The full text of provisions and clauses may be accessed electronically at www.acquisition.gov.

The Product Service Code (PSC) assigned to this acquisition is F107 - Environmental Systems Protection- Toxic and Hazardous Substance Analysis. The North American Industry Classification System (NAICS) code for this acquisition is 541380 – Testing Laboratories and Services.

This procurement will utilize the solicitation procedures at RFO FAR 12.201-1(c)(1). This announcement combines the presolicitation notice and the RFQ according to 12.202(b). The anticipated award date of this requirement is 15 June 2026.

CLIN	Description	QTY	Unit Price
0001	Ammonium Perchlorate Rocket Motor Destruction (ARMD) Environmental Sampling Provide all personnel, equipment, tools, materials, supervision, quality control and other items and non-personal services	5	

**Combined Synopsis/Solicitation
W911N226QA018**

	necessary to perform water and soil testing, on-site observations, and process audits to yield complete environmental testing, IAW PWS paragraph 5.1 through 5.1.6.6. Estimated PoP: 15 June 2026 to 14 June 2031 Estimated Quantity: 5 Unit of Measure: LOT *Note: The estimated quantity will be typically serviced in single-unit increments on an as-needed OR ANNUAL basis over a five-year period.		
0002	Open Burn/Open Detonation (OBOD) Environmental Sampling Provide all personnel, equipment, tools, materials, supervision, quality control and other items and non-personal services necessary to perform water and soil testing, on-site observations, and process audits to yield complete environmental testing, IAW PWS paragraphs 5.2 through 5.2.9.6. Estimated PoP: 15 June 2026 to 14 June 2031 Estimated Quantity: 5 Unit of Measure: LOT *Note: The estimated quantity will be typically serviced in single-unit increments on an as-needed OR ANNUAL basis over a five-year period.	5	
0003	Resampling Provide all personnel, equipment, tools, materials, supervision, quality control and other items and non-personal services necessary to perform resampling, IAW PWS paragraph 5.2.7 Estimated PoP: 15 June 2026 to 14 June 2031 DO NOT PRICE. Pricing will be added via modification at time of request based upon the type of resampling necessary and any resampling fees provided on the spreadsheet IAW 52.212-2		
0004	CDRLS The Contractor shall prepare and deliver the data identified in DD 1423, Contract Data Requirements Lists (CDRLs) A001 - A004. Quantity: 4 Unit of Measure: LOT	4	Not Separately Priced (NSP)
TOTAL CONTRACT VALUE			\$

**Combined Synopsis/Solicitation
W911N226QA018**

See attached Performance Work Statement (PWS) and Appendices E-1 OBOD Sampling Plan and E-2 ARMDO Sampling Plan. This requirement is for an IDIQ type contract with a minimum contract value of \$5,000.00 and a maximum contract value of \$1,500,000.00.

Delivery & Acceptance Location:

W39Z LETTERKENNY MUNITIONS CENTER
ROUTE 997, VOELZ GATE
CHAMBERSBURG, PA 17201-4150
UNITED STATES
DoDAAC: W25G1R

Lead Time: The Contractor shall perform sampling within thirty (30) calendar days after receipt of order, subject to confirmation by the Technical Point of Contact (TPOC). Sampling results shall be submitted to the Government within ten (10) calendar days following the completion of testing.

F.O.B. Point: Destination

Solicitation Provisions:

52.203-11 Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions
52.204-7 System for Award Management—Registration
52.212-1 Instructions to Offerors—Commercial Products and Commercial Services
52.217-5 Evaluation of Options
52.229-11 Tax on Certain Foreign Procurements—Notice and Representation
52.240-90 Security Prohibitions and Exclusions Representations and Certifications
252.203-7005 Representation Relating to Compensation of Former DoD Officials
252.204-7019 Notice of NIST SP 800-171 DoD Assessment Requirements
252.204-7024 Notice on the Use of the Supplier Performance Risk System (DEVIATION 2026-O0043)
252.209-7021 Prohibition Relating to Conflicts of Interest in Consulting Services—Certification
252.215-7992 Only One Offer
252.215-7994 Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data
252.215-7996 Notification to Offerors—Postaward Debriefings
252.219-7000 Advancing Small Business Growth
252.225-7000 Buy American—Balance of Payments Program Certificate
252.225-7020 Trade Agreements Certificate

**Combined Synopsis/Solicitation

252.225-7035 Buy American—Free Trade Agreements—Balance of Payments Program
Certificate

252.225-7055 Representation Regarding Business Operations with the Maduro Regime

52.212-2 Evaluation—Commercial Products and Commercial Services

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Technical, Past Performance, and Price

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the base requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

Addendum to 52.212-2 Evaluation—Commercial Products and Commercial Services

(a) The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Entry Gate Criteria

The Offeror must be rated acceptable for the following criteria to proceed to full quotation evaluation:

**Combined Synopsis/Solicitation
W911N226QA018**

1. Offeror shall provide proof that the laboratory to be used in the sample analysis is Pennsylvania Accredited by the Commonwealth of Pennsylvania Laboratory Accreditation Program website.

Evaluation Factors

This evaluation will utilize comparative analysis to provide the best value to the Government. Award may be made to other than the lowest priced offer, if the Government determines that a price premium is warranted due to technical merit.

However, the closer the merits of the technical offer are to one another, the greater will be the importance of price in making the award determination. In the event that two or more technical offers are determined technically equivalent and equivalent in past performance, award may be made to the lower priced offer provided the price is reasonable. Responses to this solicitation will be evaluated against the following factors:

Factor 1: Technical

Factor 2: Past Performance

Factor 3: Price

FACTOR 1: Technical.

The Offeror shall provide technical information based on the requirements of the Performance Work Statement (PWS). The information shall provide, at a minimum, the following information:

- a. A detailed breakdown of the plan to effectively execute the requirements in the PWS.
- b. Establish in writing an understanding of the PADEP approved Environmental Plans: Subpart X, Appendix E-1 and Appendix E-2. The Appendix E-1 and E-2 will be provided for the Offeror to review and the ability to understand and fulfill the testing requirements.
- c. The Offeror must provide proof of qualifications and certifications of the technicians conducting the testing and that the laboratory to be used in the sample analysis is Pennsylvania Accredited by the Commonwealth of Pennsylvania Laboratory Accreditation Program website.
- d. Offeror must provide proof of current or past work experience of a similar size and scope in order to collect and analyze the samples according to the PADEP approved

Combined Synopsis/Solicitation
W911N226QA018

Environmental Plans: Subpart X, Appendix E-1 and Appendix E-2. The Appendix E-1 and E-2 will be provided for the Offeror to review and to establish the ability to understand and fulfill the testing requirements.

Mere re-statements of the requirements or statements from the Offeror that the offer is compliant and that do not include proof that the Offeror can demonstrate the aforementioned items, are unacceptable.

If the offer is determined unacceptable under any of the technical evaluation factors or subfactors, the offer may not be considered for award.

In addition to the information submitted by Offeror, the Contracting Officer may consider other information reasonably related to the evaluation factors, to include the personal knowledge of the competitor's commercial and Government customers and past performance databases. The Government may consider any other value added benefit offered in its best value determination.

The Contracting Officer may communicate with an offeror at any time during the evaluation without regard to the RFO FAR 15.3 rules concerning competitive range determinations and discussions. The Contracting Officer may also identify the offeror most likely to provide best value and hold negotiations solely with that Offeror to finalize the order and/or negotiate more favorable terms for the Government.

Factor 2: Past Performance

The Government will evaluate the Offeror's record of past and current performance to ascertain the probability of successfully performing the required efforts of the PWS.

- a. Offeror must provide proof of current or past work performance of a similar size and scope in order to collect and analyze the samples according to the PADEP approved Environmental Plans: Subpart X, Appendix E-1 and Appendix E-2. The Appendix E-1 and E-2 will be provided for the Offeror to review and to establish the ability to understand and fulfill the testing requirements.
- b. Establish in writing an understanding of the PADEP approved Environmental Plans: Subpart X, Appendix E-1 and Appendix E-2. The Appendix E-1 and E-2 will be provided for the Offeror to review and to establish the ability to understand and fulfill the testing requirements.

**Combined Synopsis/Solicitation
W911N226QA018**

- c. Offerors shall submit all relevant information on Government and/or commercial contracts for the prime offeror and for each major subcontractor. Offerors shall submit all relevant information for contractors and for those subcontractors expected to perform twenty (20) percent or more of the effort, in performance or awarded during the past three (3) years, from the issue date of this Request for Quote (RFQ), which are relevant to the efforts required by this RFQ. The Government may consider a wide array of information from a variety of sources but is not compelled to rely on all of the information available.
- d. Offerors shall include three (3) of the most recent and relevant efforts (within the past three (3) years) in their quote. Absent any recent and relevant past performance history or when the performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned, the Offeror will be assigned an “unknown confidence rating” and its quote will not be evaluated either favorably or unfavorably on past performance. The Government may use data provided by the Offeror in its quote and data obtained from other sources, including data in Government files or data obtained through interviews with personnel familiar with the contractor and their current and past performance under Federal, state or local Government or commercial contracts for the same or similar services as compared to the North American Industry Classification System (NAICS) 541380. Data used in conducting performance risk assessments shall not extend past three (3) years prior to the issue date of the RFQ but may include performance data generated during the past three (3) years without regard to the contract award date.

Factor 3: Price.

Offerors must propose price on all items. The total evaluated price will be computed by adding the total estimated amount for each item.

Offerors shall provide a spreadsheet detailing the pricing for each sample required by the Pennsylvania Department of Environmental Protection (PADEP) approved sampling plans.

Any fees associated with resampling shall be provided on the spreadsheet.

Offerors shall complete the pricing schedule with pricing for each Contract Line Item Number (CLIN). The Government may require continued performance under RFO FAR clause 52.217-8, Option to Extend Services. The Government will evaluate the base and

**Combined Synopsis/Solicitation
W911N226QA018**

option prices on the basis that the rates will not change if the Government opts to utilize its option via RFO FAR clause 52.217-8 at the end of the base or option period during the performance of the contract. Evaluation of the option pricing in this manner shall not obligate the Government to exercise the option.

The Government will evaluate quotes for award purposes by adding the total price for the option to the total price for the base requirement. The Government may determine that a quote is unacceptable if the option price is significantly unbalanced. Evaluation of the option shall not obligate the Government to exercise the option

(End of addendum)

Contract Clauses:

52.203-3 Gratuities

52.203-6 with Alt I Restrictions on Subcontractor Sales to the Government

52.203-19 Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements
