Justification and Approval (J&A) for Other Than Full and Open Competition

I. Agency and Contracting Activity.

United States Air Force
354 Contracting Squadron
Eielson AFB, Alaska 99702

II. Nature and/or description of the action being approved.

This action is for a new contract. In accordance with (IAW) FAR 6.302-5(b)(5) the proposed contract action has resulted from market research that has determined there is no reasonable expectation that offers would be received from two or more HUBZone Vendors capable of performing this project. It is planned that the resulting contract will be awarded as a firm-fixed-price contract.

III. Description of supplies/services required to meet agency needs.

Tear down, inspect, clean and repair turbine-generator #4 and associated auxiliary equipment at Eielson AFB's Central Heat and Power Plant (CH&PP). Turbine-Generator #4 is a 5 MW Worthington extracting steam turbine - Electric Machinery generator set, installed new in 1969 (Turbine Model: Form TBVXV, SN: 27127, Generator SN: 167171411, 5MW, 6250 kVA, 7200V synchronous generator). Prepare technical notes and tear-down/repair reports.

IV. Demonstration that the contractor's unique qualifications or the nature of the acquisition requires use of the authority cited above.

Four of the past five Turbine contracts have been awarded to Tetrad which includes, the previous repair of Turbine #4 in 2020 (Contract# FA500420C0014). Recently, Tetrad was also awarded the Turbine 5 repair contract in 2025 (Contract# FA500425C0014). Tetrad has shown they can perform professional work on past Turbine contracts for the CH&PP. Tetrad has a solid understanding of Turbine repair and the challenges of the requirement including: tight spaces, lead times, and logistics repairs at the Eielson AFB CH&PP facility. Tetrad Services Inc., a HUBZone Certified Vendor, indicated they were interested in the requirement. Tetrad was the only HUBZone Certified Vendor that confirmed they are interested and can perform the work required by the contract. IAW FAR 19.1306(a), A contracting officer shall consider a contract award to a HUBZone certified Vendor on a sole-source basis before considering small business set-asides.

V. Description of efforts made to ensure that offers are solicited from as many potential sources as practicable, including whether a notice was or will be publicized as required by subpart 5.2 and, if not, which exception under FAR 5.202 applies.

This award action will be publicized as it does not meet any exceptions.

VI. Determination by the Contracting Officer that the anticipated cost to the Government will be fair and reasonable.

The government plans on requesting a proposal from Tetrad Services Inc. and then opening discussions with Tetrad to discuss the proposal and enter negotiations of the proposed price. A comprehensive IGE with clearly broken down project elements and historical pricing data will be utilized to generate a pre-negotiation memorandum. Upon reaching a Fair and Reasonable Price, a Price Negotiation Memorandum document will be added to the file.

VII. Description of the market research conducted and the results, or a statement of the reasons market research was not conducted.

Market research was conducted and it was identified this requirement could be awarded as Sole-Source HUBZone contract. Through the market research, only one Certified HUBZone vendor was available to perform the work outlined for this requirement.

Justification and Approval (J&A) *for Other Than Full and Open Competition*

VIII. Any other facts supporting the use of Other Than Full and Open Competition.

This requirement meets the criteria outlined in FAR 19.1306(a) and is authorized by FAR 6.302-5(b)(5).

IX. List of any sources that expressed, in writing, an interest in the acquisition.

Tetrad Services Inc. was the only HUBZone that expressed in writing, an interest in this acquisition.

X. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisitions for the supplies or services required.

354 CONS put forth a good faith effort of market research and discovered this requirement could be awarded as a sole-source due to only one source verifying the willingness, capability, and experience to perform the work. IAW FAR 19.1306(a), 354 CONS can proceed on the sole-source HUBZone award path.

XI. Certification by the Contracting Officer.

As evidenced by my signature above, I certify that this justification is accurate and complete to the best of my knowledge and belief.

XII. Certification by the technical/requirements personnel.

As evidenced by my (our) signature(s) above, I (we) certify that any supporting data contained herein, which is my (our) responsibility, is both accurate and complete.
