Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

[Insert evaluation factors in the relative order of importance. For requests for proposals, state: Evaluation factors other than price when combined are [significantly more important than price /approximately equal to price/significantly less important] than price. For invitations for bids, list only price and price-related factors.]

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

Addendum to Evaluation - Commercial Product and Commercial Services

The following factors shall be used to evaluate Offeror(s)

1. Technical Approach

2. Price

The award decision will be based on Price and Other Factors IAW FAR 13. The ultimate decision will be based on a combination of these factors to ensure the US Government receives the best value. EVALUATION FACTORS: o Technical Approach Vendors will submit a narrative of their technical capabilities and approach to the procurement that will not exceed one page in length. This narrative shall detail the specifics of how the vendor will meet or exceed the US Government's requirements and display that the offeror understands the requirements of the services. Any narrative that exceeds one page in length will not be considered. o

Price: Price is not formally scored. The Government expects competitive quotes to be submitted for this procurement and will use these competitive quotes to determine price reasonableness. Price will be evaluated based on the combined total of all line items. If competitive quotes are not received, the Government reserves the right to utilize other methods identified in the FAR to determine price reasonableness. The Government intends to evaluate quotes and award without discussions; therefore quotes should be the contractor's best pricing. A. Completeness. Each offeror is required to provide complete pricing for each contract line identified. The price quote shall include a unit price for each item and total firm-fixed-price for all line items B. Price Reasonableness. The offeror shall ensure prices reflect fair market value and be reasonable when compared to the independent Government estimate, if applicable, and current market prices for same or similar services.
