Section 00 21 00 - Instructions

Miscellaneous text in this section has been modified to:

1. DESCRIPTION OF PROJECT:

The 128th Air Refueling Wing requires an adequately sized, appropriately configured, and correctly sited modular small arms range to train and certify security forces, battlefield airmen, and mobility personnel in accordance with AFI 36-2226. This requirement is for services, non-personal, to provide all plant, labor, transportation, materials, tools, equipment, appliances and supervision necessary to demolish the existing partially contained outdoor range and construct an indoor range as shown on the drawings and specified herein. The existing outdoor range is located on the south side of Building 723 on the south end of the 128th Air Refueling Wing, located at Milwaukee Mitchell International Airport, Milwaukee, Wisconsin. The facility includes a new indoor 10-lane range with all associated mechanical, electrical, plumbing requirements for a fully functional ANG ETL compliant weapons qualification facility. This project scope includes associated civil improvements and contaminated soil handling to support the building site following demolition of the outdoor range. This project also includes a fully automated range control system, capable of supporting range instruction for 10 students from a range control room. All work will be in accordance with design requirements, specifications, and drawings provided within the master specifications.

2. INSTRUCTIONS TO BIDDERS:

2.1. You are invited to submit a bid in response to our Invitation for Bids (IFB) entitled W50S9G-25-B-A010 Indoor Small Arms Range, Project Number HTUV189001, at Gen. Mitchell Air National Guard Base, Milwaukee, Wisconsin.

2.2 As a result of this solicitation, the Government intends to award a Firm Fixed Price (FFP) contract resulting from this solicitation to the responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the Government, considering only price.

2.3 This solicitation is set-aside 100% for small businesses and utilizes the NAICS code 236220.

3. EVALUATION FOR AWARD:

Reference DFARS Provision 252.236-7007 Additive or Deductive Items.

Before opening the bids, the amounts of funds available for the project will be recorded for the contract file when the Independent Government Estimate (IGE) is read aloud. The bids will then be opened and evaluated. If the base amount for any one bid (which includes Contract Line Item Number (CLINs) 0001 and 0002) is lower than the IGE base amount (also CLINs 0001 and 0002), then the deductive bid items will NOT be considered in the calculation of the apparent low bidder. However, if the base bid for all bidders is over the IGE base amount, then the deductive bid item (CLIN 0003) will be evaluated for the purposes of determining the apparent low bidder.

4. NOTICE OF PRE-BID CONFERENCE AND SITE VISIT:

4.1. A pre-bid conference will be conducted on **20 May 2025 at 1:00 p.m.** Central Standard Time (CST) for the purposes of briefing on the IFB requirements and answering questions regarding this Invitation for Bids. Even if you have access to the base you must register to ensure adequate seating. The furnishing of the above information is voluntary; however, your failure to furnish all or part of the requested information may result in the Government's denial of your access to the pre-bid conference. This information will be provided to the Base Security Forces who will authorize your entrance to the site.

4.4. Visitors must pick up their passes at the Installation's Main Entry Gate prior to arrival. You will be required to present the following information upon arrival: (1) Vehicle Registration, (2) Valid Driver's License, (3) Proof of Insurance for Vehicle, and/or (4) Safety Inspection and Car Rental agreement if applicable. Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to

contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(1).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022: least \$17.75 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025.	
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022: \$13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2025.	

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$17.75) or 13658 (\$13.30). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year.

Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number

used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:
