

**PERFORMANCE WORK STATEMENT FOR
NSA SOUDA BAY FIRE & EMERGENCY SERVICES (F&ES)
STATION WORK UNIFORMS**

March 2026

**Performance Work Statement: NSA SOUDA BAY Fire and Emergency Services
Station Work Uniforms FY26**

1. Scope of Contract:

- 1.1 This contract shall provide NSA SOUDA BAY F&ES with work uniforms. The Installation Fire Chief (IFC) is the lead customer for the PWS, and the contractor shall provide the uniforms to the installation listed above. All local procedures referenced in this PWS are subject to change at any time.
- 1.2 The contractor shall provide the specified clothing items as a single, complete delivery. The total quantities for each item are fixed as outlined in the schedule of supplies.
- 1.3 All shipping costs for the one-time delivery shall be included in the contract price. The contractor shall provide a tracking number for the shipment. Defective clothing articles received by the customer shall be returned at the contractor's expense and replaced with the correct items in a timely manner.
- 1.4 The contractor shall provide a set of uniforms categorized by position, rank, and name for each employee. The total number of items and sizes for the entire department are specified in the schedule of supplies.
- 1.5 Should it be necessary to change a requested item, the contractor will provide alternative options. The customer will then determine whether to proceed with the acquisition of the specified item or to substitute the request with one of the alternative options presented.
- 1.6 All polo shirts, job shirts, jackets (both outer shell and inner liner if removable) are required to have a full-color logo embroidered on the left chest (see example 17). The employee's name (with title listed below for Captains and Chief Officers) will be embroidered on the right chest of polo and job shirts only. The lettering for Firefighters and Captains polo shirts must be in white. The lettering for Assistant Chiefs and above must be in yellow or gold. Hats and beanies are to have department logo embroidered on them (see example 17). T-shirts and Hoodies will possess silkscreen printing on both the left chest and the back (see example 17). It is imperative that the font color, size, and style for all embroidered items remain consistent throughout. All required artwork must receive approval from a department representative prior to any printing activities. All embroidery, silkscreen printing, and patchwork must be of superior quality, devoid of defects, and completed before the shipment of uniform items.
- 1.7 The contractor guarantees that all products comply with the NFPA 1975 standard pertaining to Emergency Services Work Apparel for station work uniforms. If necessary, the contractor will offer alternative options. The customer will then make the determination on whether to proceed with the acquisition of the specified item or to substitute it with one of the alternatives provided.

PWS: NSA SOUDA BAY F&ES UNIFORMS FY26

1.8 The complete and final delivery of all items must occur within 90 days after contract award. The department will provide all necessary information for embroidery, silkscreen, and patches at the time of award.

1.9 Contract shall provide uniforms for both male and female firefighters.
