C1.02 GENERALIZED TECHNICAL GUIDANCE (MAR 2025)

(a) Geographic Requirements

- a. Supplies delivered under this contract shall conform to all federal, state, and local environmental requirements applicable to the geographic location of the receiving activity on the date of delivery. This includes delivery of fuel and documentation in a manner consistent with existing or future Title V (Clean Air Act) Permits. In the event that a federal, state, or local environmental requirement is more stringent than a similar requirement in a fuel specification contained in this contract, the Contractor shall deliver product that complies with the more stringent requirement. Product that fails to meet the more stringent environmental requirement will be considered nonconforming supply.
- b. All supplies furnished under this contract shall fully meet the requirements of the applicable specification(s) as cited in the C QAPs included in this contract.

(b) Certificates of Analysis

- a. The term "certificate of analysis" may also be referred to as "certificate of quality", "quality report", "COA", "COQ", "test report" or any laboratory report used to confirm QAP, specification or test method conformance.
- b. Certificate(s) of analysis (COAs) submitted under this solicitation, shall not be older than 90 days from the issue date of this solicitation.
 - i. COAs older than 90 days may be requested for informational purposes.
- c. COA(s) shall contain, at a minimum, the following information:
 - i. Sample test date
 - ii. Test result(s)
 - iii. Test method(s) for each test
 - iv. Signature or stamp by a laboratory or QC manager

d. Direct Delivery Fuels Purchase program only

i. Domestic locations and US territories: "Typicals" or "specification sheets" are acceptable for the products listed below --

1. Aviation Fuel
2. Gasoline (including E85)
3. Diesel (including BDI/B20)
4. Heating oil

ii. Overseas locations: COAs are required for all overseas locations for all products.

iii. Marine Gasoil (MGO): A COA is required for all domestic and overseas MGO solicitations.

(c) ASSIST

a. Unless otherwise specified, current versions of defense or federal specifications, standards, military handbooks, commercial item descriptions, qualified product lists, and other related technical documents cited in this solicitation/contract can be accessed from the Department of Defense (DoD) Acquisition Streamlining and Standardization Information System (ASSIST) database at <https://assist.dla.mil> under or via ASSIST Quick Search at <http://quicksearch.dla.mil>. ASSIST is the official source for all Defense Standardization Program documents and contains the most current information on documents prepared by the DoD, as well as information on how to acquire referenced non-Government standards that have been adopted for DoD use.

i. Note that commercial or foreign specifications are not located on ASSIST and must be obtained from the relevant sponsoring organization (e.g. ASTM, SAE, API, ISO, etc.).

ii. Registered ASSIST account holders may establish profiles to receive automatic E-mail alerts when changes are planned or made to documents of interest by selecting criteria on the [Alert Portal Profile Maintenance] screens accessed from the [User Profile] menu. Users may also view or download a bi-monthly summary of changes to the ASSIST database under the [ASSIST Update] menu.
