The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

(1) Price: The quotations will be ranked according to their total evaluated price (TEP) as identified by contract line-item total pricing. The Government will evaluate offers for award purposes by adding the total price for all CLINs for the required period of performance.

The offeror's price quotation will be evaluated using the procedures in RFO 12.204 in order to determine price reasonableness. For a price to be reasonable, it must represent a price that a prudent person would pay in the conduct of competitive business. Normally, price reasonableness is established through competitive quotations as described in RFO 12.204(a).

(2) Technical Capability: The Vendor shall submit a plan describing how they will meet the requirements outlined in the Statement of Need. The Vendor shall demonstrate that they can provide all content within the SoN.

Quotes will be evaluated to be technically acceptable or not technically acceptable based on the evaluation factors listed above.

(a) *Notice of award.* A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(b) *Basis for Award.* If the lowest total evaluated priced offeror receives an "Acceptable" technical rating, evaluation of that quote is complete, award will be made to that offeror, and the evaluation process will stop. If the lowest total evaluated priced offeror receives an "Unacceptable" technical rating, evaluation of that quote will stop. In that instance, the second lowest total evaluated priced offeror will be evaluated using the methodology above and the process will continue (in order by price) until an offeror is evaluated to have an "Acceptable" technical rating, or until all offerors are evaluated.

Clarifications conducted to resolve minor or clerical errors will not constitute discussions and the Contracting Officer reserves the right to award a contract without the opportunity for a quote revision. The Government intends to award a contract without discussions (while keeping with FAR Part 12).
