1001 Option 1- Liquid Oxygen	550	Tons	\$	\$
Total Amount				\$

AMENDED SCOPE OF WORK

**DESCRIPTION/SPECS/WORK STATEMENT
Wolf Creek Dam Liquid Oxygen Supply Acquisition
Wolf Creek Dam
Jamestown, KY**

1. SCOPE OF WORK. The work to be performed under this contract consists of supplying liquid oxygen, as described in paragraph 2 below, to Wolf Creek Dam located in Jamestown, KY. The anticipated period of this requirement is September 15, 2025, thru July 31, 2026.
2. LIQUID OXYGEN. The contractor shall furnish liquid oxygen as specified below.
 - a. SYSTEM REQUIREMENTS: The daily liquid oxygen requirement will not exceed a maximum of forty-five (45) tons/day, up to seven (7) days per week, during the Base period of the contract (Peak Season). During Option 1 of this contract (Non-peak Season) supply will vary between twenty (20) and fifty (50) tons, every fourteen (14) calendar days. Bulk liquid oxygen shall comply with Compressed Gas Association (CGA) guidelines and shall be at least 99.5% oxygen.

- b. **BASE REQUIREMENT.** The contractor shall furnish up to four thousand (4,000) tons of liquid oxygen from September 15, 2025, thru December 1, 2025, as described in 2.a. above.
 - c. **OPTION 1.** The contractor shall furnish up to five hundred and fifty (550) tons of liquid oxygen from December 2, 2025, and July 31, 2026, as described in 2.a. above.
3. **CONTRACT POINT OF CONTACT.** The Contractor shall only accept instruction from the Government Representative, and only do work that has been negotiated and authorized. Only the USACE Contracting Officer can modify this Contract.

Coordination of technical matters with USACE personnel shall be accomplished through the Government Representative identified below:

Gov't Rep: Anthony Watters
Position: Wolf Creek Dam Power Plant Maintenance Supervisor
Office Phone: (270) 343-0123
Email Address: Anthony.w.watters@usace.army.mil
Address: 980 Power Plant Rd
Jamestown KY 42629-6501

4. **DELIVERY SCHEDULE.** The Government Representative will advise the contractor in writing of the rate at which oxygen is being injected into the lake and of any change in this rate. It will be the contractor's responsibility to ensure that the storage tanks are kept at a sufficient level to support uninterrupted system operation and to prevent system pressure drops. It will be the contractor's responsibility to ensure that the storage tanks are filled at a rate that does not cause shutdown of the system due to high pressure. It will be the contractor's responsibility to ensure proper operation of the valves when filling storage tanks. Storage facilities consist of four (4) fifteen thousand (15,000) gallon storage tanks. The contractor shall be responsible for all hoses and adapters necessary to transfer the oxygen from the tanker truck to the liquid storage tanks. The contractor shall continue delivery of liquid oxygen until directed by the Government Representative.
4. **PLACE OF DELIVERY.** Oxygen will be delivered to the Government storage facility at the Wolf Creek Dam, Jamestown, Kentucky. The facility can accommodate full size twenty (20) ton tankers. The storage facilities are located near the Wolf Creek Dam Powerplant located at 980 Power Plant Rd, Jamestown, Kentucky 42629 (See Vicinity and Site Maps). Delivers will go to the location on the provided map but may use this address to facilitate navigating to the site.
5. **COORDINATION OF DELIVERIES.** The contractor will be responsible for coordinating all deliveries with the Wolf Creek Dam Power Plant Shift Operator. Telephone Number (270) 343-0101. The driver will notify the Wolf Creek Dam Power

Plant Shift Operator upon arrival at the Liquid Oxygen (LOx) storage tank site before offloading of LOx and notify Wolf Creek Dam Power Plant Shift Operator when leaving the storage facility. The driver must provide the Wolf Creek Dam Power Plant Shift Operator his or her name and present a valid photo ID to the security system at the gate.

6. COORDINATION MEETINGS. The Contractor shall host weekly virtual coordination meetings to discuss updated liquid oxygen usage, upcoming liquid oxygen deliveries, conflicts, or any other issues related to the delivery and offloading of liquid oxygen. The reoccurrence of these coordination meetings may be adjusted depending on the season demand and the rate of system diffusing oxygen in the reservoir. All coordination meetings shall be coordinated with the Wolf Creek Dam Power Plant Maintenance Supervisor.
7. GENERAL SAFETY REQUIREMENTS. Deliveries and liquid tank truck transfers will be in accordance with the Compressed Gas Association (CGA) P-12-2009. Safe Handling of Cryogenic Liquids.
 - a. The requirements stated herein are applicable to the contractor's employees and to any contract carrier and its employees used by the Contractor.
 - b. Contractor should routinely inspect the roads to the USACE Wolf Creek Dam bulk LOx storage tank site.
 - c. Contractor truck drivers shall be aware that USACE oxygen sites are operated remotely and automatically. Truck drivers shall remain alert for system operating changes that can affect LOx tank pressure and the tank filling operation.
 - d. USACE LOx tank pressures and levels are continuously monitored, and the data is recorded. The data can be watched live or retrieved at any time to monitor what occurs during LOx tank filling.
 - e. USACE LOx tank fill pipes have a design pressure of 250 psig. Truck drivers shall monitor the off-loading pressure and ensure that it does not exceed 250 psig.
 - f. Unless noted otherwise, USACE LOx tanks shall be maintained at a pressure between 170 and 180 psig as shown on the tank's electronic pressure transmitter digital readout during tank filling. Truck drivers shall not leave the site if the tank pressure is below 170 psig.
 - g. USACE LOx tanks shall never be filled above 80 inches as indicated on the analog tank level gauge.
 - h. Truck drivers shall not depart with the LOx tank at a pressure over 190 psig.
 - i. Truck drivers shall not depart until the fill pipe has returned to ambient temperature and is no longer venting.

- j. Truck drivers shall not depart with any LOx tank hose drain valve(s) open. LOx remaining in the fill pipe at the completion of off-loading shall be allowed to warm to gas that is vented. Afterwards, the valve(s) is closed.
- k. Truck drivers shall not depart prior to properly closing valves on the LOx tank that were used for tank filling.
- l. Contractor or truck drivers shall be responsible for coordinating with the Government Representative and documenting which LOx tank(s) that will be filled. Document the tank(s) LOx level prior to filling and after filling is completed.
- m. Contractor shall be responsible for checking and opening tank isolation valves prior to departure so that LOx tanks are no longer isolated from the system.
- n. Truck drivers who unlock and open a gate(s) to access the LOx tank(s) shall close and lock the gate immediately after passing through it. This applies to traveling both to and from the tank(s). Contractors may be required to use a remote keypad and camera system to gain access to the site. Drivers must be able to present a valid driver's license to the camera upon arrival and an accurate roster of cleared drivers must be submitted to the Government Representative during the weekly coordination meeting.
- o. In the event the truck driver observes a problem at the oxygen site, the driver shall call the Wolf Creek Dam Power Plant Shift Operator and advise them of the problem.
- p. Truck drivers shall use all appropriate personal protective equipment while working on USACE property.
- q. Contractor shall provide a spill kit at the site large enough to contain or absorb any volume of petroleum liquid associated with or contained on the delivery vehicle.

8. SECURITY REQUIREMENTS.

- a. **General security requirements and guidance:** The security requirements described below apply to all contract personnel (including employees of the prime Contractor ("Contractor") and all subcontractor employees) supporting the performance requirements of this contract. The Contractor is responsible for compliance with these security requirements. Questions regarding security matters shall be addressed to the designated Government representative (e.g., Contracting Officer Representative (COR), Requiring Activity (RA) representative, or Contracting Officer (if a COR or other RA representative is not appointed)). Contract personnel are critical to the overall security and safety of US Army Corps of Engineers (USACE) installations, facilities and activities, and security awareness training contributes to those efforts.

The Department of Defense (DoD) and Army security training requirements specified below, if applicable, are performance requirements; all applicable contract personnel shall complete initial training within 30 days of contract award or the date new contract personnel begin performance on the contract. Within five business days from the completion of training, the Contractor shall provide written documentation (e.g., email or memorandum) to the Government representative. The documentation shall include the names of contract personnel trained and which training they completed; the Contractor shall maintain training records as part of their contract files and be prepared to provide copies of training certificates to the Government representative. Contractor personnel and vehicles are subject to search when entering federal installations. Additionally, all contract personnel shall comply with Force Protection Condition (FPCON) measures, Random Antiterrorism Measures (commonly referred to as "RAMs"), and Health Protection Condition (HPCON) measures. The Contractor is responsible for meeting performance requirements during elevated FPCON and/or HPCON levels in accordance with applicable RA plans and procedures --this includes identifying mission essential and non-mission essential personnel. In addition to the changes otherwise authorized by the changes clause of this contract, should the FPCON or HPCON levels at any individual facility or installation change, the Government may implement security changes that affect contract personnel. The Contractor shall ensure all contract personnel are aware of their security responsibilities, including any site-specific requirements identified in local policies or procedures.

- b. **Antiterrorism (AT) Level I training:** Please use the revised wording below instead of the Proposed Language because it provides more detailed guidance to access the training: Please use the revised wording below instead of the Proposed Language because it provides more detailed guidance to access the training: All contractor and subcontractor employees, requiring access to Army installations, facilities, controlled access areas, or require network access, shall complete AT Level I Awareness Training within 30 calendar days after contract start date. The contractor shall submit certificates of completion for each applicable contract employee and subcontractor employee, to the Contracting Officer (COR), within 5 calendar days after completion of training. AT Level I Awareness Training is available at the following website: <https://jko.jten.mil/courses/AT-level1/launch.html>
- c. **Physical security and access control requirements:** All contract personnel requiring physical access to a federal installation or facility shall comply with the access control procedures of that location. "All contractors and all associated sub-contractors shall comply with applicable District and local security policies and procedures (provided by the Government representative). The contractor shall provide the District Security Office with any/all requested information which may be required for background screenings, checks and/or investigations to meet installation/facility access requirements. Contractor workforce must comply with all personal identity verification requirements as directed by DOD, HQDA and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any installation or facility change, the

Government may require changes in contractor security matters or processes. Since this is a delivery and/or supply only, there are no investigation requirements. However, the Contractor(s) will be escorted at all times inside the restricted area.”

- d. **Suspicious Activity Reporting training (e.g. iWATCH, CorpsWatch, or See Something, Say Something):** All contract personnel shall receive initial and annual refresher training from the RA representative on the local suspicious activity reporting program. This locally developed training provides contract personnel with general information on suspicious behavior, and guidance on reporting suspicious activity to the project manager, security representative or law enforcement entity. The contractor and all associated sub-contractors shall receive training on the local Suspicious Activity Reporting Program. This training identifies behavioral indicators and provides guidance reporting suspicious activity. This training shall be completed within 30 calendar days of contract award and within 30 calendar days of new employees commencing performance with the results reported to the COR NLT 5 calendar days after the completion of the training. The iWatch training for contractors is available at: <https://www.dvidshub.net/video/871898/iwatch-army-2023-public-service-announcement>
- e. Additional Optional Information Regarding Suspicious Activity Reporting is below:

Eye On Kentucky program (report anonymously suspicious criminal or terrorist activity) <https://homelandsecurity.ky.gov/Pages/Report-Suspicious-Activity.aspx> ; Tennessee Suspicious Activity Report <https://www.tn.gov/safety/homeland-security/report-suspicious-activity.html> ; and Homeland Security “See Something Say Something” <https://www.dhs.gov/see-something-say-something>.
- f. **Pre-screen candidates using E-Verify Program:** Contractors shall comply with the requirements set forth in FAR clause 52.222-54 Employment Eligibility Verification and FAR Subpart 22.18 in using the E-Verify Program at (<https://www.e-verify.gov/>) (website subject to change) to meet the contract employment eligibility requirements. Contractors are encouraged to cooperate with Federal and State agencies responsible for enforcing labor requirements to include eligibility for employment under United States immigration laws in accordance with FAR 22.102-1(i). An initial list of verified/eligible candidates shall be provided to the COR no later than three business days after the initial contract award. When contracts are with individuals, the individuals will be required to complete a Form I-9, Employment Eligibility Verification, and submit it to the Contracting Officer to become part of the official contract file.
- g. Reports of Crime: Please ensure ALL reports of theft, suspected theft, vandalism, or ANY crime of Government OR Contractor property, OR crime against/by Contractor personnel is forwarded to the District Security Office. This information is critical for threat and risk assessments and may assist in obtaining funds for additional security measures.

- h. Site Visit Disqualifier: Because the site being accessed is a restricted area, there are restrictions on persons either imprisoned or previously convicted of a felony. The Contractor shall not employ in the performance of this contract any person undergoing a sentence of imprisonment imposed by any court of a State, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, or the U.S. Virgin Islands, or the US Federal Government. The Contractor shall not employ in the performance of this contract any person who has been convicted of a felony imposed by any court of a State, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, or the US Federal Government.

The following have been modified:

INSTRUCTIONS TO OFFERORS

QUOTE INSTRUCTIONS

1. DESCRIPTION OF WORK: The U.S. Army Corps of Engineers (USACE) Nashville District (LRN) is looking to secure the supply of Liquid Oxygen in accordance with the Scope of Work.

2. TYPE OF CONTRACT: The Government intends to award a Firm-Fixed Price Supply contract.

3. TYPE OF SET ASIDE: This is an unrestricted full and open acquisition under NAICS code 325120.

4. BASIS FOR SELECTION OF AWARD: Award shall be made to the lowest priced offeror who is determined to be responsive and responsible.

In accordance with FAR Clause 52.217-5, Evaluation of Options, the Government will evaluate quotes for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of Options will not obligate the Government to exercise the option(s).

5. PLACE OF DELIVERY: Wolf Creek Dam 980 Power Plant Road Jamestown, KY 42629

6. DELIVERY: The contractor will be responsible for coordinating all deliveries with the Wolf Creek Dam Power Plant Shift Operator. Telephone Number (270) 343-0101. The driver will notify the Wolf Creek Dam Power Plant Shift Operator upon arrival at the Liquid Oxygen (LOx) storage tank site before offloading of LOx and notify Wolf Creek Dam Power Plant Shift Operator when leaving the storage facility. The driver must provide the Wolf Creek Dam Power Plant Shift Operator his or her name.

For additional information or clarification on specifications herein please contact Anthony Watters at Anthony.W.Watters@usace.army.mil or (270) 343-0121 Monday through Friday 8:00 am to 4:30 pm.

Cost should include all delivery charges. Invoices should be emailed to:

NAME: Anthony Watters

EMAIL: Anthony.W.Watters@usace.army.mil

7. POC FOR COMMUNICATIONS: Any communications regarding this procurement before award must be made via email to the Contracting Branch to Jamie Lynn Barnes via email at Jamie.L.Barnes@usace.army.mil and Bridget Passatore via email at Bridget.L.Passatore@usace.army.mil.

Inquiries must identify the solicitation number, the requestor's company name, address, email address, and telephone number to include area code.

8. QUESTIONS: Questions regarding the solicitation must be submitted to Jamie Lynn Barnes via email at Jamie.L.Barnes@usace.army.mil and Bridget Passatore via email at Bridget.L.Passatore@usace.army.mil. The deadline to submit questions is **25 July 2025 at 11:00 AM Central Time**. Any questions submitted will be addressed via solicitation amendment.

Phone calls or requests to arrange meetings at the Nashville District during the solicitation period to discuss project requirements or company's capabilities are highly discouraged and will not be allowed.

9. QUOTE SUBMISSION:

- a. Quotes shall be submitted electronically through the Procurement Integrated Enterprise Environment

(PIEE) site in the Solicitation Module. (See paragraph 8 below).

b. The quote shall include the following elements to be considered for award:

(1) SF 1449: Filled out by the vendor for: Block 17a, Block 17b (if applicable), Block 30a, Block 30b, and Block 30c

(2) Acknowledge all SF 30s, Amendment of Solicitation (if applicable).

(3) CLINS: To include the Total Price for Contract Line Item Number 0001, 1001 and 2001.

(4) In accordance with FAR 52.204-7, System for Award Management, registration is required in the System for Award Management (SAM) database located at www.sam.gov. More specifically, "An Offeror is required to be registered in SAM when submitting an offer or quotation, and shall continue to be registered until time of award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation." (See FAR 52.204-7(b)(1)).

For SAM Customer Service, contact:

Federal Service Desk

URL: www.fsd.gov

Hours: 8am – 8pm (Eastern Time)

US Calls: 866-606-8220

International Calls: 334-206-7828

DSN: 866-606-8220

IMPORTANT NOTICE: Effective June 29, 2018 vendors creating or updating their registration can have their registration activated prior to the approval of the required notarized letter. However, the signed copy of the notarized letter must be sent to the GSA Federal Service Desk (FSD) within 30 days of activation or the vendor risks no longer being active in SAM.

Vendors can check whether an account is active by performing a query by their CAGE or Unique Entity Identifier.

The new registration process may now take several weeks, so vendors are highly encouraged to begin registering as soon as possible to avoid any possible delays in future contract awards. Remember, there is no cost to use SAM. To find out additional information about the changes of the SAM registration process, contractors should visit the Frequently Asked Questions (FAQ) link located at the top of the SAM homepage (www.sam.gov).

(5) Provide business Unique Entity Identifier Number: _____

(6) Provide business CAGE code: _____

(7) Tax Identification Number: _____

10. INSTRUCTIONS FOR SUBMITTING ELECTRONIC QUOTES: All quotes shall be submitted electronically through the PIEE site. Procurement Integrated Enterprise Environment (PIEE) <https://piee.eb.mil>. Submission shall be in Adobe PDF format. The Offeror's quote shall not contain classified data. The use of hyperlinks in offers is prohibited.

NOTE: The only authorized transmission method to this solicitation is electronically via PIEE Solicitation Module online submission. NO OTHER TRANSMISSION METHODS (EMAIL, FACSIMILIE, REGULAR MAIL, HAND CARRIED, ETC.,) WILL BE ACCEPTED.

In an effort to reduce paperwork and cost, all quotes shall be submitted electronically via the Solicitation Module of Procurement Integrated Enterprise Environment (PIEE) suite, as described below. Submissions shall be in Adobe PDF format. Electronic Bid Submissions is required through the Army's Electronic File Sharing Service in PIEE (<https://piee.eb.mil/>). The PIEE Application is used to send large files to individuals that would normally be too large to send via email. Information regarding how to set up a vendor registration is included in this link: <https://pieetraining.eb.mil/wbt/xhtml/wbt/portal/overview/vendorRegister.xhtml>. On this page, click on the "Vendor User Registration" Doc and it will take you through the process of registering as a vendor.

If you plan on submitting a proposal, be sure to select “SOL-Solicitation” in the drop-down list and choose the “Proposal Manager” role to be given the proper permissions.

Further training is available at the following links:

<https://piectraining.eb.mil/wbt/xhtml/wbt/sol/index.xhtml> - This link shows information regarding the Solicitation application in PIEE and the different roles available.

<https://piectraining.eb.mil/wbt/xhtml/wbt/sol/solicitation/proposals.xhtml> - This link is for Offerors regarding the Proposal Manager function and instruction on submitting an offer.

a. File Size Limitations: Offerors are advised to follow the PIEE instructions for uploading files. PIEE supports delivery of up to 1.9GB per file, with no limit on the number of files, as well as multiple file formats. If needed, Offerors are advised to break the files down into smaller sections in order to upload them into the system. In such cases, please divide the sections as logically as possible and be sure to clearly name the files as specified below.

b. File Description: To ensure your submission is received and processed appropriately, it is important that interested parties CAREFULLY ensure their electronic files adhere to the following naming convention. Each file name shall begin with the firm’s name, and a brief file description. NOTE: Do NOT enter Privacy Act Data (Personal Identification Information (PII)) in the file description. Submission shall be in Adobe PDF format.

c. Upload Completion & Deadline: Interested parties shall submit responses no later than the date specified on the Solicitation document. The time and date of quote receipt will be the upload completion/delivery time and date recorded within the PIEE site. Do not assume that electronic submission will occur instantaneously. Large files (e.g. 10MB or more) will take some time to upload. Offerors should time their upload effort with prudence by not waiting until the last few minutes—this will allow for unexpected delays in the transmittal process. Offerors are encouraged to keep a copy of the upload confirmation for their record. Submissions after the deadline will be considered late and will be processed in accordance with FAR 14.304.

d. Electronic Files: Files shall be in their native format (i.e. doc, xls, ppt, etc.), or if in pdf format, shall be in searchable text. Text and graphics portfolios of the electronic copies shall be in a format readable by Microsoft Office Suite 2016 or Adobe Acrobat Reader 11. Data submitted in a spreadsheet format shall be readable by MS Excel (all cells and formulas should be unlocked).

10. RECEIPT OF SUBMISSIONS: For the purpose of establishing whether a quote submission is considered timely, the Government will consider the date and time the submission is completely uploaded into the PIEE Website. Do not assume that electronic communication is instantaneous. It can take several minutes or even hours in some cases. The Government will not be responsible for submissions delivered to any location other than those designated to receive quotes. Offerors are responsible for ensuring that quotes are submitted so as to reach the designated recipient. Bidders are responsible for allowing sufficient time for the bid to be received in accordance with the instructions provided.

It is the Offeror’s responsibility to obtain written confirmation of receipt of all electronic files of the full quote by the Contracting office. In the event that the Solicitation Module is down, the alternate method for quote submission is via email to: Jamie.L.Barnes@usace.army.mil ONLY. The Offeror must obtain prior approval from the Contracting Officer, Bridget Passatore at Bridget.L.Passatore@usace.army.mil, to use the alternate submission method. Offerors are responsible for ensuring electronic copies are virus-free and shall run an anti-virus scan before submission.
