**Basis For Decision That Only One Source Is Available**

Regulatory bodies such as United States Coast Guard and ABS only recognize servicing and repairs of this shipboard general service air compressor by an authorized OEM representative (Qunicy) per the ABS approved TRANSALT. In addition, MSC is directed to only use OEM parts on this equipment aboard MSC Fleet Vessels per COMSCINST 4490.1. In addition, QUNICY retains the rights to all design drawings, tolerances, and original parts for the air compressors. Accordingly, the manufacturing, special tools, and equipment required to manufacture the parts used for the OEM compressors is not known to MSC. MSC does not have the manufacturing and technical information required to reverse engineer nor manufacture the parts, and procuring alternative replacement parts will compromise the required reliability and effectiveness

of the installed compressor on ESB vessel. Any work performed by any company other than the OEM would void warranties on this equipment.

OEM is inactive in SAM and inquiries about sales are forwarded to regional Quincy Authorized Dealers. East coast sales inquiries are directed to C.H. Reed Inc, a small business concern, (Cage Code 7G690).
