PORTSMOUTH NAVAL SHIPYARD
PORTSMOUTH NH 03804-5000

IN REPLY REFER TO:

4200
Ser 410/042

J&A Number: PL-3337
P.R. Number: N39040-PSE-2939

JUSTIFICATION AND APPROVAL
FOR USE OF OTHER THAN FULL AND OPEN COMPETITION

JUSTIFICATION

1. Contracting Activity

The Naval Sea Systems Command Portsmouth Naval Shipyard (PNS) Contracting Division (Code 410), Kittery, ME. The requiring activity is Portsmouth Naval Shipyard, Kittery ME.

2. Description of the Action Being Approved

Award of a firm fixed price contract on a sole source basis to Northrop Grumman Marine Systems for the disassembly, inspection, and repair of the #1 and #2 Ships Service Turbine Generators (SSTGs) on [REDACTED] at Portsmouth Naval Shipyard (PNS). [REDACTED]
[REDACTED]

3. Description of Supplies/Services

This proposed contract provides for the Original Equipment Manufacturer (OEM) to provide replacement of SSTG inboard and outboard Thrust Bearing Stators and onsite oversight of Catcher Bearing replacement work during New Mexico's Depot Modernization Period at Portsmouth Naval Shipyard.

The Independent Government Estimate (IGE) was prepared by reviewing historical contracts for similar work. [REDACTED] will be funded by FY 25 Operations and Maintenance, Navy Funding. The Government's minimum needs have been verified by the certifying technical and requirements personnel.

4. Statutory Authority Permitting Other Than Full and Open Competition

The statutory authority permitting other than full and open competition is 10 U.S.C. 2304(c)(1) or 41 U.S.C. 3304(a)(1), as implemented by Federal Acquisition Regulation (FAR) 6.302-1(a)(2). (Only one responsible source and no other supplies or services will satisfy agency requirements).

5. Rationale Justifying Use of Cited Statutory Authority

In accordance with FAR 6.302-1, only one source is capable of meeting the requirement. This authority permits limiting the number of sources solicited and to not use full and open competition for this requirement. Northrop Grumman Marine Systems is the OEM and owns the proprietary

equipment, proprietary drawings, and is the only known vendor who can complete the repair/modifications and satisfy the appropriate procedures.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable

The OEM has provided virtually identical services for SSTG repair under PNS sole source contracts

[REDACTED]

[REDACTED] Pearl Harbor Naval Shipyard (PHNSY) conducted initial market research, via internet, in August 2015, seeking vendors with the capability of repairing both the SSTG #1 Turbine High Pressure Bearing and the Thrust Bearing Housing onboard a Virginia Class Submarine. Northrop Grumman Marine Systems responded to this notice, posted by PHNSY, stating that they own the proprietary drawings and equipment required to complete the repairs. Thereafter, PNS conducted similar market research seeking vendors capable of performing SSTG repairs and providing parts. Said research was conducted in September 2016 for NEW HAMPSHIRE, in November 2016 for NEW MEXICO, in September 2017 for VIRGINIA, February 2018 for CALIFORNIA, February 2020 for TEXAS, and September 2023 for NORTH DAKOTA. On March 10, 2025, the Contract Specialist conducted market research for the current requirement by posting a sources sought notice to <https://sam.gov>. The notice sought vendors with the capability of providing the materials required to repair the SSTG #1 and SSTG #2 onboard a Virginia Class Submarine. No responses were received.

Notice of this justification will be provided on <https://sam.gov> in accordance with FAR 6.305.

7. Determination of Fair and Reasonable Costs

The Contracting Officer has determined the anticipated cost to the Government of the supplies/services covered by this J&A will be fair and reasonable.

8. Actions to Remove Barriers to Competition

For the reasons set forth in Paragraph 5, PNSY has no plans at this time to compete future contracts for the types of supplies/services covered by this document. If another potential source emerges, PNSY will assess whether competition for future requirements is feasible.

Contracting Point of Contact

Rene Sharon Hall, Contract Officer
Email: sharon.e.hall19.civ@us.navy.mil
Phone: 207-994-0374

Gordon Roberts, Contract Specialist

Phone: 207-451-7119

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION (FAR 6.303-2(c))

I certify that the facts and representations under my cognizance, which are included in this justification and its supporting acquisition planning data, including Acquisition Plan No. PL-2007.1, except as noted herein, are complete and accurate to the best of my knowledge and belief.
