Electronic Drawing Development and Management System

Veterans Integrated Service Network - 5

I. Background

VISN 5 has a need for continual as-built drawing update service through a Blanket Purchase Agreement (BPA). VISN 5 is a fully integrated network of eight (8) VA medical campuses and multiple VA Community Clinics.

II. Requiring Facilities

VA Medical Center (VAMC)	Address	Station Number
Baltimore VA Medical Center	10 North Greene Street Baltimore, MD 21201	512
Loch Raven VA Medical Center	3901 The Alameda Baltimore, MD 21218	512GD
Perry Point VA Medical Center	361 Boiler House Road Perry Point, MD 21902	512A5
Beckley VA Medical Center	200 Veterans Avenue Beckley, WV 25801	517
Louis A. Johnson VA Medical Center	1 Medical Drive Clarksburg, WV 26301	540
Hershel "Woody" Williams VA Medical Center	1540 Spring Valley Drive Huntington, WV 25704	581

Washington VA Medical Center	50 Irving Street, Northwest	688

	Washington, DC 20422	
--	----------------------	--

III. Scope of Work

VISN 5 has a requirement for a web based Electronic Drawings Management System with graphical tools to store and share engineering drawings, assign space, and report usage among organizational groups. It must be a multi-user, multi-tasking system supporting multiple users in organization, spanning many buildings and sites within its eight (8) VA Medical Centers (VAMC). The Contractor must provide all supervision, coordination, staffing, software, licenses, website access, training, backup and other related services as necessary to provide and maintain VISN 5 building records and files and make them readily accessible to VA staff through the Contractor's website. The Contractor must perform all these services as defined by this SOW and the services must be provided to support all VISN 5 VA campuses and associated Community Clinics.

A. Build and Maintain an Electronic Library of Current Drawings

The Contractor must meet with VA Contracting Officer's Representative (COR) to develop a file naming system and capture existing paper and electronic drawings so that they can be easily organized, retrieved, and shared among all internal and external stakeholders. Title Block information must be captured and linked to each drawing to facilitate ease of use. Scanning of hardcopy paper drawings will be required. All drawings must be scanned as a PDF output format.

After scanning the Contractor must collect metadata that uniquely defines each drawing. Typical information includes:

1. Building
2. Floor
3. Discipline
4. Project Year
5. Project Number
6. Drawings Number
7. Sheet Number

The Contractor must upload existing electronic drawings and collect metadata from these drawings. Once the upload is completed, the Facility COR will review to verify the accuracy and request any necessary changes. See Attachment A, *Facility Buildings and Square Footages*, for facility specific square footages.

B. Build a Capital Asset Inventory (CAI) Database and Reporting System

The medical centers require a space management system that can track the assignment of all spaces and can generate reports including Capital Asset Inventory (CAI) reports. The medical centers must provide to the Contractor what available information is on hand. However, if necessary, the Contractor must conduct a walkthrough through of the buildings to capture the required information for every room. In planning for this survey, the Contractor must be aware that some areas, such as pharmacies, ORs, and certain patient areas, may not be readily available to be surveyed and they must plan in consultation with the occupying service line and VA Contracting Officer's Representative (COR) and only when it is convenient for the service line.

C. Host Database and Provide Login Access

The associated drawings and data must be hosted on a secured server operated by the Contractor. The server and web portal must have all Federal and VA required security and encryption measures implemented such as but not limited to FedRAMP (refer to Section IX for additional information). The Contractor must make it possible for VA users to access this application through the internet. The database must be developed within six months of contract award. The Contractor must work with the VA to develop the layout and appearance of the web portal. The Contractor must maintain the system without interruption on a 24/7 basis and provide unlimited technical support. Technical support may be limited to normal operating hours and must include telephone and email mode of communication.

The system will consist of numerous modules each with a specific purpose. Each facility's needs must vary and will be implemented through

an individual task order (refer to section VII for additional information). The following modules must be provided under the system:

1. **Space Management Module:** This database must ensure that all space within the Medical Center is accounted for, based on specific categories identified by the users and must include dynamic expansion of space data to include new data fields and space categories. The module must allow users to easily edit or reconfigure space data without database expertise. The module must be combined with as-built module to provide a holistic view of the building space including enabling users to visualize, analyze, search, and aggregate the data. Capability to generate and export reports to a variety of external file formats. The implementation of this module must be based on cost per square foot. The space database must, at a *minimum*, contain the following data:
 - a) Room numbers
 - b) Space functions
 - c) Service line assignments
 - d) CAI space driver assignments
 - e) Net and gross square footages
2. **As-Builts Module:** This module must be an online secure repository of electronic drawings, organized by site, building, floor, and discipline. The database must allow for a graphic engine and associated tools to enable viewing of drawings in AutoCAD and Revit Model formats without the use of AutoCAD or Revit Software. The users must be able to comment and markup the as-built drawings and save them to the repository. Also, the module must enable the users to view revision history, keeping track of all the changes that occur, and maintain an archive of all past versions. Options to save/export/print the drawings to different formats like .dwf, PDF, .bmp, jpeg, etc. and to share the exported files to various stakeholders without the need of AutoCAD must be included. The Contractor must comply with VA AutoCAD and BIM standards, found on VA's Technical Information Library, <https://vatilms.va.gov/vatilms/reports/PG-18-13>. The drawings must be organized in the form of one drawing per contiguous floor per building wherever it is possible. The implementation of this module must be based on cost per square foot.

3. **Drawing Development:** The BPA must include a service to develop AutoCAD drawings in the following disciplines: Architectural, Electrical, Mechanical, Plumbing, Medical Gas, Fire and Life Systems, and Low Voltage. Drawing development must be based on a cost per square foot.
4. **Building Information Modeling:** The BPA must include a service to create a 3D representation of the buildings and/or campus models per VA's BIM Standards found on Technical Information Library. BIM development must be based on cost per square foot.
5. **Digitization Services:** The BPA must include a service to convert paper, PDF, or other drawing formats into AutoCAD format. Implementation of this service must be based on cost per individual sheet.
6. **Fire Life Safety Module:** This module must include an integration and maintenance of the Fire Life Safety system features. Refer to Section E for additional Life Safety field verification requirements. The implementation of this module must be based on cost per square foot. At minimum the following features of Fire Life Safety must be incorporated:
 - a) Sprinklers/stand pipe/fire department connection (FDC)
 - b) Sprinkler data such as type, manufacture, zone and installation date (NEW information provided from 3rd party survey)
 - c) Fire/smoke damper (to include ID name and other data pertaining to inspections)
 - d) Fire alarm panel architecture (one line drawing showing panel locations and areas served)
 - e) Fire barrier locations and hazardous storage locations
 - f) Fire smoke doors (to include ID name and other data pertaining to inspections).
 - g) Statement of conditions drawings showing type of space as defined by NFPA provided by others (as-built plans)
 - h) Emergency management quick reference drawings
 - (1) Single page diagram of site of fire fighter features (showing doors, hydrants, FDC, fire pumps, roadways, etc.)

- (2) Single page diagram of site showing door with naming/symbol convention
 - (3) Single page drawing for emergency response showing the facility in an isometric view allowing to view fire/rescue features to include corridors, elevators, stairs, patient floors and hazardous storage locations.
7. **Employee Module:** Module to plan, manage, and track employee facility use information to enable visualization of employee location and space utilization. The implementation of this module must be based on cost per square foot.
8. **Occupancy Tracking Module:** The BPA must include a service to give users to see available spaces on floor plans or room lists in real time. Immediate access to live occupancy data from sensor (Contractor furnished and installed) in spaces. Ability to export occupancy lists into Excel. The implementation of this module must be bases on each individual requirement (i.e., per job).

D. Update and Maintain the Database

Ongoing additions or renovations require changes to drawings to maintain the integrity of the drawing database. Each facility will require that these changes be incorporated in the existing drawings so that the drawings in the system will be current. The frequency and extent of such changes will depend on completion of projects and may be unpredictable. Periodically, facilities will send drawings and other documentation to the Contractor that indicate the alterations in certain areas. The Contractor must, upon receipt of such documents, consult with facility staff and clarify the changes as necessary. The Contractor must incorporate the changes in the drawings and update the respected modules.

A facility may decide to add additional data to the existing CAD drawings. Such additional data may include life safety components, electrical panels, piping, and shut-off valves. The facility may decide to add additional buildings or suites to the system. The size and locations of these are not known now. Individual task orders (reference section VII) must include making field measurements and

sketching out the drawings, drawing them in CAD or Revit, and loading them into the drawing repository for use.

E. General Field Verification Surveys

The medical center cannot guarantee the accuracy of existing drawings and therefore the Contractor may need to conduct an onsite verification field survey to capture current conditions of as-builts.

1. Site visits are to be used for instances where an as-built drawing is not matching the previously developed data, the new designs, or current conditions, or clear up a currently unknown issue on site. Site visits will be coordinated through separate task orders.
2. The Contractor must send a team to survey and field verify the accuracy of the architectural drawings in a manner that verifies that general conditions noted on the drawings appear to be accurate and complete.
3. The surveys may also include verification of the accuracy of HVAC/mechanical, plumbing, medical gas, electrical, and telecom (MEP) systems as necessary through separate task orders.
4. Life Safety survey. This portion consists of revising existing Life Safety drawings, which must comply with the Joint Commission (TJC) requirements and the latest edition of NFPA 101, *Life Safety Code*. The Contractor must inspect the buildings (construction type) and related systems (fire sprinkler, fire detection, smoke, etc.) and confirm the accuracy of the existing Life Safety drawings and update them as necessary. Base drawings will be provided by the facility. If the existing drawings are not in compliance with NFPA 101 and TJC requirements, the Contractor must update them accordingly.
 - a) Each Life Safety task order must require a licensed Fire Protection Engineer (FPE). The FPE retained to provide these services must be licensed to practice in the States where the

VAMCs are located and must specifically demonstrate a minimum of three years of verifiable experience within healthcare occupancy and development of Statement of Conditions per TJC requirements. This experience must be submitted to the Contracting Officer for review and approval prior to providing Life Safety drawing support. The submission must include a fully complete Standard Form (SF) 330, Architect/Engineer Qualifications. For additional FPE qualifications, refer to VA Technical Information Library, <https://www.cfm.va.gov/til/>.

5. In planning for the survey, the Contractor must be aware that some areas may not be readily available to be surveyed and must plan in consultation with the occupying service line and VA Contracting Officer's Representative (COR) and conduct the surveys when it is convenient for the service line.
6. Some buildings have interstitial spaces, and the above list may not include such spaces. The contractor must include those spaces as well in the system to be developed under individual task orders. However, the interstitial spaces must be specified in the system in such a way that they can be separately treated for analysis and reporting.
7. The Contractor must update all CAD drawings for any changes needed, based off the surveys. In updating the CAD drawings, the Contractor must comply with VA CAD standards available on VA Technical Information Library, <https://www.cfm.va.gov/til/>.

F. Provide Training for Use of The System

Provide one (1) annual on-site training session per VISN 5 facility. This training must be a hands-on/on-site session. The session must cover features required by end users and administrators. Training for end users will demonstrate the use of the online system and focus on the system modules in use by the respective VA facility. Specialized training for administrative users, that are designated by respective VA facility, must be more in-depth to cover any additional functions used by these users.

In addition, the Contractor will provide on-line training sessions as needed or when VISN 5 facilities require such training when specific situations warrant it. Examples are when new employees join a VISN 5 facility or when the Contractor significantly modifies the system. This on-line training will be done at no additional cost.

G. Software User Management

Provide the COR with administration rights for local facility user management. At the end of each contract year, the vendor must provide the VISN COR a system use report broken down by each facility and each user.

IV. Period of Performance

VISN 5 requests a 5-Year Blanket Purchase Agreement (BPA) beginning immediately upon award.

V. Work Requirements

- A. The VA will not provide servers, equipment, or other items needed to perform the required service. No contractor software to be installed on VA computers.

- B. Work done on-site at the ordering VA must be coordinated with the Contracting Officer Representative (COR) appointed by the CO. Generally, work will be done during normal business hours (M-F 8-4:30), excluding federal holidays. If work needs to be performed after hours for convenience to the government, all hours will be coordinated with the COR. The following federal holidays are observed:

New Year's Day	Labor Day
Martin Luther King Jr. Day	Columbus Day
Washington's Birthday	Veteran's Day
Memorial Day	Thanksgiving Day
Juneteenth National Independence Day	Christmas Day

Independence Day	
------------------	--

- C. The data files will remain Government property while Contractor is in possession of the files. When the contract is rendered complete, all information will be returned to the respected VA Facilities, to include all updated drawings and module reports.

VI. Government Roles and Responsibilities

B. Responsibilities.

- Contracting Officer (CO) / Contract Specialist (CS) - The CO and CS will ensure performance of all necessary actions for effective contracting, ensure compliance with the contract terms, and will safeguard the interests of the United States in the contractual relationship. The CO will also assure the Contractor receives impartial, fair, and equitable treatment under this contract. The CO is ultimately responsible for the final determination of the

adequacy of the Contractor's performance. Refer to section VII for additional information regarding individual Task Orders.

2. VISN COR - The VISN wide COR has authority to provide direction to the Contractor if within scope of the contract, that does not constitute and change to the contract, and has no funding implications. This individual does not have authority to change the terms and conditions of the contract.
3. Facility COR - The Facility COR is responsible for technical administration of the contract at the facility level. The Facility COR is not empowered to make any contractual commitments or to authorize any contractual changes on the Government's behalf. The Contractor must refer any changes they deem may affect contract price, terms, or conditions to the CO for action. The Facility COR will be assigned via individual Task Orders.

VII. Task Order – Ordering Procedures

Once a need is identified, VISN or Facility COR must develop a specific set of requirements and forward them to the Contracting Officer. The Contracting Officer must request a quote from the Contractor based on COR requirements and established BPA cost schedules. The Contractor may submit a quote less than the scheduled prices, or offer discount pricing, but the Contractor must not quote prices that exceed the price/cost schedule applicable to pricing period dates that apply to the task order period of performance. Task orders must be completed only by the Warranted Contracting Officer; neither the VISN nor the Facility COR have the authority to commit the government to any services under this contract without an explicit task order that is signed by the warranted Contracting Officer.

VIII. Quality Assurance Plan

Performance will be measured by vendor timeliness in responding to service requests, and the quality of the maintained drawings and database. The facilities drawings created by the vendor must be compliant with VA standards and be compatible with generally accepted industry practices. When the vendor creates new facility drawings the vendor must submit a preliminary set of drawings for review by the medial center staff. The vendor must hold in person or on-line discussions to discuss the review findings and make agreed-upon modifications.

The facilities related data such as occupancy by service lines collected or validated by the vendor must be reviewed by medical center staff and the vendor must make all agreed-upon changes. When the medical centers send out existing drawings for updating to the vendor, vendor must acknowledge the receipt within seven days of receiving them. Within the next seven days the vendor must hold discussions with the VA staff - if the vendor has questions or requires clarifications. Once the clarifications are done, the vendor must update the drawings and load them on to the platform within a further period of 15 days. The quality of the images maintained in the vendor's database must be legible and high quality. The vendor must make all appointments scheduled with the COR on time and without delay.

IX. Information Security

- A. The information system solution provided by the Contractor must comply with the Federal Information Security Management Act (FISMA).
- B. The Contractor must comply with Federal Risk and Authorization Management Program (FedRAMP) requirements as mandated by Federal laws and policies, including making available any documentation, physical access, and logical access needed to support this requirement.
- C. The Contractor must have an active Program Management Office FedRAMP Department of Veterans Affairs Authority to Operate (ATO) or obtain one prior to contract award for cloud-based services required in this contract.
- D. The Contractor must complete a FedRAMP System Security Plan (SSP) and supporting documentation prior to contract award.
- E. The Contractor must complete a Third Party Assessment Organization (3PAO) Security Assessment Plan (SAP) prior to contract award.

- H. If new or unanticipated threats or hazards are discovered by either VA or the Contractor, or if existing safeguards have ceased to function, the discoverer must immediately bring the situation to the attention of the other party in accordance with the security addendum B.
- I. The Contractor must not release any data without the consent of VA in writing. All requests for release must be submitted in writing to the Contracting Officer's Representative (COR)/Contracting Officer (CO).
- J. In order for live VA data to be used in this system, a FedRAMP Authorization and Agency ATO will be required.
- K. Deliverables:

1. FedRAMP System Security Plan (SSP) and supporting documentation
2. VA Implementation Diagram: This is a VA specific architecture diagram demonstrating the proposed implementation of this system at VA (VAID)
3. 3PAO Security Assessment Plan (SAP)
4. 3PAO Security Assessment Report (SAR)

VA Information Security policies apply.

This contract will not involve connection of one or more contractor-owned IT devices (such as laptop computer or remote connection from a contractor system) to a VA internal trusted (i.e., non-public) network; therefore, C&A requirements do not apply, and a Security Accreditation Package is not required.

The Contractor, their personnel, and their subcontractors must be subject to the Federal laws,

regulations, standards, and VA Directives and Handbooks regarding information and information system security as delineated in this contract.

C.1 52.212-4 CONTRACT TERMS AND CONDITIONS—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2023)

(a) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights—

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) *Assignment.* The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) *Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) *Disputes.* This contract is subject to 41 U.S.C. chapter 71, Contract Disputes. Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at Federal Acquisition Regulation (FAR) 52.233-1, Disputes, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) *Definitions.* The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) Invoice.

(4) *Discount.* In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(b) General Liability: \$500,000.00 per occurrences.

The inquiry will look at any information in the entity's possession but does not need to include an internal or third-party audit.

(3) The Contractor shall submit a report to the contracting office identified in paragraph (h)(2) of this clause if the Contractor identifies, including through any notification by a subcontractor at any tier, that a covered article or product or service produced or provided by a source was provided to the Government or used during contract performance and is subject to a FASCSA order(s). SECTION D - CONTRACT DOCUMENTS, EXHIBITS, OR ATTACHMENTS

D.1 BUSINESS ASSOCIATE AGREEMENT

SECTION E - SOLICITATION PROVISIONS

E.1 52.212-1 INSTRUCTIONS TO OFFERORS—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (SEP 2023)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

- (1) Is set aside for small business and has a value above the simplified acquisition threshold;
- (2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
- (3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) "Remit to" address, if different than mailing address;
- (8) A completed copy of the representations and certifications at Federal Acquisition Regulation (FAR) 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;

(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR subpart 4.10), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(1)(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and product descriptions can be downloaded from the ASSIST website at <https://assist.dla.mil>.

(ii) If the General Services Administration, Department of Agriculture, or Department of Veterans Affairs issued this solicitation, a copy of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained from the address in paragraph (i)(1)(i) of this provision.

(2) Most unclassified Defense specifications and standards may be downloaded from the ASSIST website at <https://assist.dla.mil>.

(3) Defense documents not available from the ASSIST website may be requested from the Defense Standardization Program Office by-

(i) Using the ASSIST feedback module (<https://assist.dla.mil/feedback>); or

(ii) Contacting the Defense Standardization Program Office by telephone at 571-767-6688 or email at assisthelp@dlamail.mil.

(4) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) *Unique entity identifier.* (Applies to all offers that exceed the micro-purchase threshold, and offers at or below the micro-purchase threshold if the solicitation requires the Contractor to be registered in the System for Award Management (SAM).) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address. The Offeror also shall enter its Electronic Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see FAR subpart 32.11) for the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) [Reserved]

(l) *Debriefing.* If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(3) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award;

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful offeror.

(6) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

Provisions that are incorporated by reference (by Citation Number, Title, and Date), have the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available.

The following provisions are incorporated into 52.212-1 as an addendum to this solicitation:

E.2 52.201-1 ACQUISITION 360: VOLUNTARY SURVEY (SEP 2023)

(a) All actual and potential offerors are encouraged to provide feedback on the preaward and debriefing processes, as applicable. Feedback may be provided to agencies up to 45 days after award. The feedback is anonymous, unless the participant self-identifies in the survey. Actual and potential offerors can participate in the survey by selecting the following link: <https://www.acquisition.gov/360>.

(b) The Contracting Officer will not review the information provided until after contract award and will not consider it in the award decision. The survey is voluntary and does not convey any protections, rights, or grounds for protest. It creates a way for actual and potential offerors to provide the Government constructive feedback about the preaward and debriefing processes, as applicable, used for a specific acquisition.

E.3 52.209-7 INFORMATION REGARDING RESPONSIBILITY MATTERS (OCT 2018)

This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

"Federal contracts and grants with total value greater than \$10,000,000" means—

(h) *Certification Regarding Responsibility Matters* (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the

submission of offers; or Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) [] Are, [] are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) [] Have, [] have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104–5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) *Taxpayer Identification Number (TIN)* (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to SAM to be eligible for award.)
