

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE B		PAGE OF PAGES 1 31	
2. AMENDMENT/MODIFICATION NUMBER 0001		3. EFFECTIVE DATE 29 Apr 2026		4. REQUISITION/PURCHASE REQUISITION NUMBER See Continuation Sheet		5. PROJECT NUMBER (If applicable)	
6. ISSUED BY CODE OFFICE OF NAVAL RESEARCH SUITE 1425, 875 NORTH RANDOLPH STREET ARLINGTON, VA 22203-1995 UNITED STATES Vivian Truman, Email: vivian.m.truman2.civ@us.navy.mil		7. ADMINISTERED BY (If other than Item 6) CODE SCD: PAS:					
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code)				(X)			
				9A. AMENDMENT OF SOLICITATION NUMBER N0001426R3002			
				9B. DATED (SEE ITEM 11) 08 Apr 2026			
				10A. MODIFICATION OF CONTRACT/ORDER NUMBER			
				10B. DATED (SEE ITEM 13)			
CODE		FACILITY CODE					

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:
 (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted;
 or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE
 RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If
 by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic
 communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
 See Section G - Contract Administration Data

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.**

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation data, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
 Amendment 0001 of N0001426R3002 is being executed to:

- Revise Sections C, L and M in response to Contractor Q&A;
- Revise Attachments 7 and 8 in response to Contractor Q&A;
- Add Attachment 11, Contractor Q&A.
- Add FAR Clause 52.222-90; Addressing DEI Discrimination by Federal Contractors. (Deviation 2026-O0038)

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Mary Helen Dent	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA 	16C. DATE SIGNED 29 Apr 2026
(Signature of person authorized to sign)		(Signature of Contracting Officer)	

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Section C - Description/Specifications/Statement of Work

Miscellaneous text in this section has been modified to:

BACKGROUND

The Office of Naval Research (ONR) coordinates, executes and promotes the science and technology programs of the United States Navy and Marine Corps through schools, universities, government laboratories and non-profit and for-profit organizations. ONR formulates and executes the Naval Science and Technology (S&T) portfolio to address the most responsible and promising technology opportunities and solutions in both basic and applied science; transitions the most useful technologies to Acquisition and the Warfighter; and provides technical advice and information to the Chief of Naval Operations (CNO), the Secretary of the Navy, and the Department of Defense (DoD).

OBJECTIVE

The Ocean Battle Space Sensing, Code 32, explores science and technology in the areas of oceanographic and meteorological observations, modeling, and prediction in the battlespace environment; submarine detection and classification (anti-submarine warfare); and mine warfare applications for detecting and neutralizing mines in both the ocean and littoral environment. The department supports the Ocean, Atmosphere, and Space Science and Technology Focus Area at Office of Naval Research through these general research areas Understanding the Physical Battlespace, Battlespace Sensing Technology, Battlespace Prediction Systems, Battlespace Exploitation. Specific research areas and portfolios within Code 32 are:

Anti-Submarine Warfare - Innovative anti-submarine warfare technologies for detection, tracking, and countermeasures

Explosive Hazards Defeat - Cutting-edge technologies to detect, neutralize, and mitigate explosive hazards.

Maritime Sensing - Technologies for improved acoustic and non-acoustics surveillance and threat detection

Mine Warfare/Ocean Engineering and Marine Systems - Shaping and understanding mine warfare, mine countermeasures, explosive ordnance disposal, and naval special warfare

Undersea Signal Processing - Improved detection, localization, and classification of submarines in shallow and deep ocean environments.

Arctic and Global Prediction - Enhanced understanding of the physical battlespace at a variety of time and space scales

Littoral Geosciences - Innovative expeditionary warfare, naval special warfare, mine warfare and antisubmarine warfare in shelf, near-shore, estuarine, riverine, and riparian environments

Marine Mammals - Understanding the effects of sound on marine mammals

Marine Meteorology and Space Weather - Broad thrust areas of atmospheric prediction and processes, atmospheric effects, air-sea interaction, atmospheric boundary layer processes, satellite remote sensing, and ionospheric analysis and prediction

Ocean Acoustics: A National Naval Responsibility - Fundamental understandings of the physics relating to underwater sound

Oceanographic Research Facilities Program - Manage six Navy-owned charter-leased oceanographic research vessels to include fleet modernization to maintain the level of excellence required to support world-wide oceanographic research

Physical Oceanography - Improved observation and forecasting of ocean circulation and stratification on naval relevant time and length scales

Tactical Oceanography: A National Naval Responsibility - Enhance naval operations through battlespace awareness

The tasks identified in this PWS are designed to provide administrative, financial, and technical support services required to enable maritime domain access and distributed operations for naval forces in contested ocean environments through superior maritime battlespace awareness and undersea threat detection, identification and neutralization.

The execution of Code 32's S&T objectives require a multitude of unique technical and professional skills, and institutional knowledge of the DoD financial, acquisition, and S&T environment. Contractors providing services in this mission space are required to have the professional maturity and communication skills to seamlessly interact with Senior US Navy and Marine Corps Leaders, US Government S&T agencies, and researchers in academia, industry and international partners.

REQUIREMENT TASKS

FOCUS AREA #1 ADMINISTRATIVE TASKS

Code 32 requires administrative support in the execution of its basic, applied and advanced technology development programs.

The contractor shall perform tasks including, but not limited to, the following:

1. Provide meeting scheduling and logistical support for official departmental activities. Includes managing senior official calendar(s) to identify best time for all meeting attendees, create calendar invitations, ensure there are no meeting conflicts, and provide administrative support for in-person and virtual meetings with internal and external organizations. Record and maintain meeting minutes as requested.
2. Ensure timely distribution of preparatory materials to all meeting participants.
3. Provide weekly summary of upcoming senior leader engagements, tasks due, and travel that will occur over the upcoming fourteen (14) days.
4. Reserve conference rooms inside and outside of ONR. Work with the ONR Corporate Strategic Communications (CSC) and Information Technology (IT) departments as necessary for coordinating all administrative aspects of on-site and off-site events.
5. Prepare domestic and foreign travel documents within two business days of receiving approved travel requests. This includes preparing and routing authorizations, vouchers, local vouchers, invitational/cross organizational travel orders and vouchers, passport requests, VISA requests, visit requests, official diplomatic and country clearances, letters of expediting, and other associated travel documentation and tasks.
6. Provide completed travel documents to traveler two days prior to trip start date. This includes approved travel orders from DTS, transportation reservation confirmations (i.e., air, train, rental car), lodging tax exemption forms, and any other travel reservation details associated with each trip.
7. Ensure each trip entered in DTS conforms with all travel regulations/policies and that vouchers are submitted in DTS within one business days of receiving receipts from traveler.
8. Track the status of each trip to ensure vouchers are submitted in DTS within five business days of trip completion. Provide updates to Travel Reviewer and Approver with status of any late submissions or missing documentation.
9. Maintain travel tracker to ensure the details of all trips are tracked, leadership has approved each request, and alert department business and financial manager when there is a projected travel funding shortfall.
10. Understand and provide recommendations related to regulations and policies regarding travel arrangements including the Federal Joint Travel Regulations (JTR), foreign clearance guide, national and international visit requests, short and standard lead country clearances, Aircraft and Personnel Automated Clearance System (APACS), Joint Personnel Adjudication System (JPAS), standard and short lead VISAs, as well as fee and no-fee standard and short lead passports. Work with ONR Travel Office as needed to resolve travel issues.
11. Provide administrative support for standard office operations and logistics. Includes ordering supplies for department supply room and requests from individuals, collecting burn bags and providing to ONR mail room, making copies, scanning documents, and ensuring all printers, scanners, copiers, and fax machines are in proper working order.
12. Draft official correspondence in accordance with DoN guidelines at the direction of authorized government personnel
13. Assist department Military Deputy with ensuring proper DoN protocol practices are followed for each meeting.
14. Collect, compile, print, and bind presentations and reports as requested.
15. Attend informational and training events that impact administrative support role. This includes internal Code 32 meetings and training sessions, team development events and activities, ONR policy and guidance trainings (i.e., travel training, brown bag meetings).
16. Serve as department primary point of contact for all administrative actions including personnel management, records, reports, property management (IT devices, equipment, and supplies), and facilities management (office space, security within assigned space).
17. Coordinate check-in and check-out procedures for new Code 32 government and contractor employees.
18. Maintain training records for Code 32 government personnel. Help Resolve training-related issues that arise from Code 32 government and contractor personnel.
19. Assist government personnel with human resource-related items and serve as liaison with ONR Human Resources Office at the direction of government personnel.
20. Manage personnel documents related to IPAs, detailees, and interns, and assist with billet-related memorandums of understanding (MOUs).
21. Collaborate with Program Officers in the development, review, and updates of spend plans and associated reporting and analysis;
22. Develop and provide recommendations for corrective action or improvement as necessary;
23. Proactively partner with Program Officers in order to understand and track program risks and challenges; report on the status of risk mitigation activities and provide recommendations to the Program Officer to avoid performance issues;

24. Prepare and/or support preparation of client monthly status reports, integrated program reviews, and/or ad-hoc program related financial requests;
25. Provide analyst team with timely feedback and mentoring including performance reviews and training;
26. Monitor the department's financial execution status and prepare reports for Code 32 and ONR senior leadership; and,
27. Interact with ONR Financial Management and Contracting Offices to help Code 32 program officers move financial actions smoothly through the building's financial workflow processes; Government planning, forecasting, program budgeting, funding, program execution monitoring, and reporting commitment, obligation, and expenditure benchmarks.

FOCUS AREA #2- FINANCIAL REQUIREMENTS (PROGRAM ANALYSTS)

Code 32 requires programmatic-, business-, and financial-support in the execution of its basic, applied, and advanced technology development programs.

The contractor shall perform tasks including, but not limited to, the following:

1. Assist Program Officers with the development of award-level execution and phasing plans. This includes understanding/analyzing the status of prior, current, and future program fiscal plans, developing a recommended plan for the Program Officer's budget, providing justifications for deviations from the original plan, and assisting the department with administrative actions to improve financial performance.
2. Translate Program Officer's approved funding plan into executable transactions. Notify Program Officer when a purchase requisition (PR) might be needed, prepare all grant, contract, and government laboratory PRs according to agency and department guidelines/deadlines.
3. Track all PRs until funding is obligated and performer is notified. Contact government financial and technical points of contact to follow-up on status of unobligated reimbursable documents no later than fifteen (15) days after the funding document is approved at the ONR comptroller level. Contact government financial and technical points of contact to follow-up on status of unobligated direct citation PRs no later than 30 days after the funding document is approved at the ONR comptroller level. Record the status of unobligated funding in the Comptroller's Outstanding Commitment Report.
4. Manage and maintain financial tracker documents showing the status of all awards and contract line-item numbers (CLINs) for each Program Officer. This includes performer name, principal investigator name, title of effort, award number, PR number, total award value, obligated amount, expended amount, period of performance, out-year funding plans (tails), and the status of all PRs for core, congressional plus-up, and outside source funding. Ensure financial tracker is up to date on a weekly basis.
5. Notify Program Officer 90 days before award expiration date and make recommendation on whether providing funding or processing and extension will be needed. Coordinate extension requests with vendors and relevant parties (e.g. ONR's acquisition and comptroller departments) to ensure they are executed in a timely manner.
6. Utilize Procurement Integrated Enterprise Environment (PIEE), Contract Award Management Information System (CAMIS), and ADVANA Jupiter reports to collect and report information on status of obligations, invoices and payment. Assist performers with troubleshooting and resolving any invoicing issues.
7. Contact performers who have not invoiced in the preceding 90 days to help the Program Officer in ensuring the timely expenditure of awarded funds. In consultation with the Program Officer, determine if and when funds should be deobligated from the contract and submit PRs if required.
8. Provide draft input and analysis to BFM and Program Officers to facilitate completion of various programmatic taskers such as data calls, deviation reports, dormant account reviews, budget reductions, continuing resolutions, or other tasks that require financial analysis/input.
9. Review proposal packages for completion of all required information and documents, draft Program Officer checklist by completing the nontechnical sections, and save all files to program officer's repository using an agreed upon file naming and storage convention. Coordinate with performer and program officer to obtain missing proposal documentation and updates as needed. Track contract / grant preparation processes and note status, exceptions / delays.
10. Collect human/animal/rDNA research documentation from performer, draft the human research protection official (HRPO) checklist for Program Officer to review/sign, submit package to HRPO for review, and provide approved package to Code 02 as required. Ensure HRPO packages are completed prior to submission of contracts packages to Code 02.
11. Respond to all administrative and financial issues/questions from Program Officers, performers, stakeholders, and personnel from acquisition, comptroller's office, and Code 32 leadership.
12. Support annual program/peer reviews. This includes contacting performers to identify availability, coordinating with ONR meeting planners, collecting, organizing, printing, and binding meeting materials, obtaining public release approval on meeting materials, and providing on-site meeting support in accordance with Code 32/ONR program review/event procedures.
13. Maintain electronic filing and organization of PO program data, including progress and final reports, deliverables, proposal documents, and all related budget and administrative documents.

14. Assist Program Officer with identifying awards that are required to submit an annual report. Ensure receipt of those reports and maintain in Program Officer's electronic file repository.
15. Coordinate public release processes for papers and presentations submitted to or by the Program Officer, process JPAS/visitor requests, Pentagon (OLC) visit requests, and provide miscellaneous administrative and financial support as needed.
16. Attend informational and training events that impact program analyst support role. This includes internal Code 32 Program Analyst meetings and training sessions, team development events and activities, ONR policy and guidance trainings (e.g., Quarterly S&T Sync, brown bag meetings).

FOCUS AREA #3 - TECHNICAL REQUIREMENTS

Code 32 requires technical and programmatic support in the execution of its basic, applied, and advanced technology development S&T programs.

The contractor shall perform tasks including, but not limited to, the following:

1. Assist in responding to data calls and maintain the data archive of planning letters, accepted proposals, proposals for contracts, contract package preparation, and contract package submissions.
2. Assist the Program Officers with the administration of proposals submitted to the department in response to the annual Broad Agency Announcement (BAA) for Science and Technology and for other special programs such as Defense University Research Instrumentation Program (DURIP), Defense Experimental Program to Stimulate Competitive Research (DEPSCOR) or, the Young Investigator Program (YIP) and specific Broad Agency Announcements (BAA's) Tasks, to include , but is not limited to, cataloging of proposals by topic area, assisting with assignment of ONR - internal reviewers, and collection of reviews
3. Assure the proper designation and distribution of documents, materials, and information protected under Commerce Department Export Administration Regulations (EAR) and State Department International Trafficking in Arms Regulations (ITAR). When needed for classified project execution, maintain classified files including management of safe inventories and document destruction records.
4. Support ONR program officers who lead the Navy's High Performance Computing Program. The responsibilities include:
 - Interacting with approximately 500 scientists and engineers who use the Navy's High Performance Computing systems.
 - Setting up user accounts and tracking usage of Central Processing Unit (CPU) hours
 - Allocating CPU hours based on Navy science and technology priorities and ONR leadership decisions
 - Interacting with ONR Security to ensure that user have the proper security clearances and credentials to use classified computational time
5. Assist in the overall management of programs. This includes assisting in developing program plans, strategies and metrics to assess performance and identify needed improvements, budgets, and coordination with other ONR and DoD organizations.
6. Assist Program Officer (PO) with drafting technical milestones for each technical thrust area and monitor performance of awards (compare plan vs. actual).
7. Collect, report, and archive regulations, policy, guidance, legislations, laws, and Congressional language related to supported programs and systems.
8. Draft content for R2 Budget Exhibit, Congressional Staffer briefings, release papers, appeals, program pitches, data calls, and other briefings as required.
9. Develop capability and technology road maps for Government review and approval. This includes thrust-level road maps showing when they started, important milestones, funding profile, progression through budget activities and when/where they will transition.
10. Review and understand DoD/DON S&T strategy guidance documents. Assist Program Officer in aligning portfolio to short-term and long-term strategies and by mapping technical thrusts/efforts to National Defense Strategy (NDS) and other strategic, requirement, and guidance documents.
11. Identify and review emerging requirements and opportunities for transition in areas related to Code 32's objectives for selected technology programs. Assist PO in identifying Technology Candidates / Future Naval Capabilities (FNCs) from existing portfolio and assist with development of topics for special programs.
12. Assist and advising Program Officers with drafting research solicitations and collecting/organizing white papers and proposals.
13. Collect and maintain electronic repository of all contract, grant, and government laboratory proposal and award documents, deliverables, and correspondence associated with the programs supported.
14. Assist Program Officers with collection and ensuring completion of new proposal documents (such as S&T responses or responses to Broad Agency Announcements). This includes ensuring all required documents are received, complete, and accurate; proposal objectives and deliverables align to program objectives; and assisting performers with modifications. Draft S&T contract data requirement list (CDRLs) and assisting Program Officer with evaluation documents within 5 business days of receipt of final documents.
15. Understand research portfolio and provide recommendations for follow-on awards, changes in the effort, and transitioning to different budget activities and portfolios

16. Assist in monitoring performers' progress by tracking deliverables due on all efforts, following-up with performers to collect deliverables, reviewing and providing feedback to Program Officer, and loading to Program Officer's repository.
17. Develop documentation necessary to support the acquisition, funding, monitoring and close-out of contracts and grants. This includes compiling and reviewing interim/final reports and providing feedback and recommendations to Program Officer.
18. Track, coordinate, oversee, and develop/revise content in response to data calls and tasks from senior Navy leadership, DoD, other government agencies, and Congress. Oversee these processes by preparing guidance and templates, collecting input from appropriate sources, reviewing content for completion and accuracy, routing for approval, and submitting.
19. Conduct analyses on research investments and provide summary of accomplishments and impact to the DoN/DoD.
20. Draft annual timeline for program reviews, Principal Investigator engagement, site reviews, travel, etc. Assist Program Officer in establishing milestones and dates for reviews. Coordinate with ONR's Corporate Strategic Communications (CSC) department to schedule location /venue and develop cost worksheet for meetings.
21. Coordinate meetings with performers as deemed necessary according to scope of effort. Collect materials presented at program reviews from performers and post them to ONR Code 32's file repository. Extract success stories and accomplishments from performer presentations and reports, such as annual reports, and consolidate/summarize them for program officer and department-level reviews.
22. Oversee various aspects of meeting/workshop planning and logistics, including development of meeting agenda, overall organization of meeting requirements, meeting content/material, and providing on-site or virtual meeting support to include note taking, and drafting summary highlights and meeting minutes.
23. Assist in the development of marketing materials such as posters, briefings, webpage content, to include graphics support and production of materials.
24. Schedule, coordinate, attend, and support program preliminary and critical design reviews, program technical and financial reviews, and key demonstrations or tests. This includes engaging with performers/stakeholders, escorting visitors, collecting briefings, drafting presentations and agendas, taking meeting minutes, summarizing key take-aways, and recording action items to follow-up after the meeting.
25. Participate in field experiments. This includes observing the technical developments, approaches for each vendor, and developing a report summarizing the event.
26. Prepare and draft analyses, presentations, speeches, website content and reports relative to project and program management goals, objectives and results. This includes maintaining summary of program objectives, goals, and current investment information, such as performers, title of efforts, funding profile, transition status, and programmatic milestones.
27. Identify noteworthy items that should be provided to Code 32 department leadership and ONR senior leadership. Draft content for these submissions.
28. Co-author journal articles, conference papers, and proceedings with Code 32 Government personnel.
29. Present and participate at Code 32 Government approved research and programmatic briefings at various technical exchange meetings.
30. Provide graphics support/web assistance to develop, update, and maintain a variety of visual aids, including text and illustrations, for highly technical programs/concepts including 2-D and 3-D illustrations, posters, videos, and models representative of products/concepts being developed by ONR.
31. Assist Program Officers with drafting new technical ideas and concepts and identifying best funding mechanisms for resourcing.
32. Attend informational and training events that impact SETA support role. This includes internal Code 32 meetings and training sessions, team development events, ONR policy and guidance trainings (i.e., Quarterly S&T Sync, brown bags).
33. Coordinate duties of preparing, handling, storing, couriering, and arranging for digital projection of classified material.

Required Annual Labor Mix

<u>LABOR CATEGORY</u>	<u>KEY OR NON KEY PERSONNEL</u>	<u>PERCENT AGE OF TIME</u>	<u>NUMBER OF HOURS PER PERIOD*</u>	<u>ON SITE OR OFF SITE**</u>	<u>TELEWORK AUTHORIZED***</u>
On-Site Support Staff Lead	Key	1 FTE	1920	On Site at ONR	Three days of telework per week may be authorized

High Performance Computing Specialist	Key	1 FTE	1920	On Site at ONR	Five days of telework per week may be authorized
Program Analyst	Key	7 FTE	13440	On Site at ONR	Three days of telework per week may be authorized
Junior Program Analyst ****	Non-Key	1 Optional /SURGE FTE	1920	On Site at ONR	Three days of telework per week may be authorized
Position Program Analyst ****	Non-Key	2 Optional /SURGE FTE	3840	On Site at ONR	Three days of telework per week may be authorized
Senior Program Analyst/Financial SME ****	Non-Key	2 Optional /SURGE FTE	3840	On Site at ONR	Five days of telework per week may be authorized
SETA ****	Non-Key	10 Optional /SURGE FTE	19200	On Site at ONR	Five days of telework per week may be authorized

*Number of hours per year is 1920. **On Site location is ONR HQ. ****Number of days authorized telework is allowed by the Government pending it is consistent with contractor policies. ****(Optional/SURGE) The Contractor may elect to bring on additional resources if needed.

LABOR QUALIFICATIONS

All personnel working under this task order shall:

The Contractor shall provide qualified personnel to manage and execute all aspects of the Performance Work Statement (PWS). The contractor team shall work both as a group and independently to respond to office requirements. All personnel proposed under this requirement shall:

Meet security clearance requirements: See individual labor categories for security requirements;

Be a US Citizen;

Have experience and be proficient in the following:

Microsoft Office 365 (specifically, Word, Power Point, Outlook, SharePoint Online, Teams, and Excel);

Communicating clearly, effectively, both orally verbally and in writing;

Being effective working independently and collaboratively;

Organizing and coordinating meetings;

Demonstrating creativity, foresight, professionalism, and mature judgment in anticipating and addressing scientific, business, financial, or program management tasks; and,

Be required to demonstrate professionally polite, proficient and effective verbal and written communications skills that are void of slang, colloquialisms and/or phrases that could be interpreted as vulgar or offensive.

The phrase recent is used throughout the qualifications. The Government defines recent as within the last 5 years as of the date the solicitation would be released.

Position 1 - On-Site Support Staff Lead - One (1) FTE - On Site; Key Personnel

At a minimum, this position requires:

Current **TOP SECRET** level clearance or the ability to obtain a **TOP SECRET** clearance prior to award;

A bachelor's degree (a master's degree preferred) from an accredited college or university and ten (10) years of management experience providing business and financial support to organizations with S&T and/or R&D missions.

Ability to quickly learn the Code 32 organizational structure and functions of the components of the Naval Research Enterprise (NRE); to include the roles of ONR program officers and science advisors in S&T development.

Demonstrated recent experience providing leadership to the on-site contractor team of 10 or more personnel. Coordinate and oversee their efforts to ensure tasks are properly assigned and completed on time and within ONR Business Rules for execution;

Position 2 - High Performance Computing Specialist - One (1) FTE - On Site; Key Personnel

At a minimum, this position requires:

Current Secret clearance or the ability to obtain a Secret clearance prior to award;

A high school diploma with at least six (6) years of experience providing similar support to other organizations; or a bachelor's degree from an accredited university and three (3) years of experience providing similar support to other organizations

Position 3 - Program Analyst - Seven (7) FTEs - On Site; Key Personnel

This position includes a surge option for 3,840 hours of support. If this option is exercised, and additional personnel are brought on board, this position for the Optional / SURGE FTEs is deemed to be Non Key.

At a minimum, this position requires:

CURRENT Secret clearance or the ability to obtain a Secret clearance prior to award;

Three (3) years of experience in SAP;

Bachelor's degree from a fully accredited college or university with at least five (5) years of experience providing business and financial support to organizations with S&T;

At least three (3) years of experience extracting and efficiently organizing cost analysis information for technical programs;

At least three (3) years of experience in tracking availability and use of funds and review financial documents and plans for impact on program objectives and requirements. This may include, but is not limited to, program specific financial issues related to deficiencies, excesses, trends and imbalances that directly impact execution benchmarks;

At least three (3) years of experience supporting organizations with Science and Technology (S&T) and/or Research and Development (R&D) missions;

At least three (3) years of experience assisting in the annual phasing and planning process and assist Program Officers in developing their spend plans;

At least three (3) years of experience responding to Data Calls which includes, but is not limited to, requests for information from multiple sources concerning technical, programmatic, and financial aspects of programs; and

At least three (3) years of experience planning and executing meetings, workshops, and program reviews at a scale that may include a dozen participants from multiple businesses, universities, and/or government organizations.

Desired additional qualifications:

Professional experience comparable to Legacy DAWIA or FAC-C and completion of core training requirements required for DAWIA Science and Technology Manager (S&TM) [Levels II or III], and/or for Business Financial Management (Business FM) [Levels I, II, or III] OR FAC-C equivalent; and/or,

Experience in Navy ERP.

Position 4 - Junior Program Analyst - One (1) Optional SURGE/ FTE - On Site; Non Key Personnel

This position includes a surge option for 1,920 hours of support. If this option is exercised, and additional personnel are brought on board, this position is deemed to be Non Key.

At a minimum, this position requires:

CURRENT Secret clearance or the ability to obtain a Secret clearance prior to award;

Bachelor's degree from a fully accredited college or university with at least one (1) year of verifiable experience providing business and financial support to organizations or a high school diploma with at least at least three (3) years of experience providing business, and financial support to organizations with S&T and/or R&D missions;

At least 1 year of experience extracting and efficiently organizing cost analysis information for technical programs;

At least 1 year of experience tracking availability and use of funds and review financial documents and plans for impact on program objectives and requirements. This may include, but is not limited to, program specific financial issues related to deficiencies, excesses, trends and imbalances that directly impact execution benchmarks;

At least 1 year of experience responding to Data Calls which includes, but is not limited to, requests for information from multiple sources concerning technical, programmatic, and financial aspects of programs; and,

At least 1 year of experience planning and executing meetings, workshops, and program reviews at a scale that may include a dozen participants from multiple businesses, universities, and/or government organizations.

Desired additional qualifications:

Professional experience comparable to Legacy DAWIA or FAC-C and completion of core training requirements required for DAWIA Science and Technology Manager (S&TM) [Levels II or III], and/or for Business Financial Management (Business FM) [Levels I, II, or III] OR FAC-C equivalent; and/or,

Experience in Navy ERP.

Position 5 - Senior Program Analyst/Financial SME - Two (2) Optional SURGE FTEs - On Site; Non Key Personnel

This position includes a surge option for 3,840 hours of support. If this option is exercised, and additional personnel are brought on board, this position is deemed to be Non Key.

At a minimum, this position requires:

CURRENT Secret clearance or the ability to obtain a Secret clearance prior to award;

At least five (5) years of experience in SAP;

Bachelor's degree from a fully accredited college or university with at least five (5) years of verifiable experience providing business and financial support to organizations with S&T and/or R&D missions or a high school diploma with at least at least ten (10) years of experience providing business, and financial support to organizations with S&T and/or R&D missions;

At least five (5) years of experience extracting and efficiently organizing cost analysis information for technical programs;

At least five (5) years of experience assisting in the annual phasing and planning process and assist Program Officers in developing their spend plans;

At least five (5) years of experience in tracking availability and use of funds and review financial documents and plans for impact on program objectives and requirements. This may include, but is not limited to, program specific financial issues related to deficiencies, excesses, trends and imbalances that directly impact execution benchmarks;

At least five (5) years of experience supporting organizations with Science and Technology (S&T) and/or Research and Development (R&D) missions;

At least five (5) years of experience responding to Data Calls which includes, but is not limited to, requests for information from multiple sources concerning technical, programmatic, and financial aspects of programs; and

At least five (5) years of planning and executing meetings, workshops, and program reviews at a scale that may include a dozen participants from multiple businesses, universities, and/or government organizations.

Desired additional qualifications:

Professional experience comparable to Legacy DAWIA or FAC-C and completion of core training requirements required for DAWIA Science and Technology Manager (S&TM) [Levels II or III], and/or for Business Financial Management (Business FM) [Levels I, II, or III] OR FAC-C equivalent; and/or, Experience in Navy ERP.

Position 6 - SETA - Ten (10) Optional/SURGE FTEs - On Site; Non Key Personnel

This position includes a surge option for 19,200 hours of support. If this option is exercised, and additional personnel are brought on board, this position is deemed to be Non Key.

At a minimum, this position requires:

All SETA positions should have a CURRENT Secret clearance or the ability to obtain a Secret clearance prior to award. The Government notes that some SETA positions may require a TS clearance. If the SETA position requires a TS, the contractor shall have 12 months to obtain a TS.

Recent work experience in one of the following areas: military, finance, industrial policy, intelligence community, interagency experience, international relations, systems engineering, foreign policy, or similar field; and,

Doctor of Philosophy (PhD) or Doctor of Science (ScD) from an accredited college or university plus five (5) years of relevant work experience or Master's Degree from an accredited college or university plus ten (10) years of relevant experience in at least one of the following research disciplines: Anti-Submarine Warfare, Explosive Hazards Defeat, Ocean Engineering and Marine Systems, Maritime Sensing, Undersea Signal Processing, Arctic and Global Prediction, Marine Mammals and Biology, Ocean Acoustics, Littoral Geosciences and Optics, Marine Meteorology, Space Weather, Physical Oceanography.

4.0 Reports, Data and Other Deliverables

See to DD 1423, Section J - List of Attachments for reference.

5.0 Safeguarding Covered Defense Information and Cyber Incident Reporting Supplement

1. System Security Plan and Plans of Action and Milestones (SSP/POAM) Reviews

a) Within thirty (30) days of contract award, the Contractor shall make its System Security Plan(s) (SSP(s)) for its covered contractor information system(s) available for review by the Government at the contractor's facility. The SSP(s) shall implement the security requirements in Defense Federal Acquisition Regulation Supplement (DFARS) clause 252.204-7012, which is included in this contract. The Contractor shall fully cooperate in the Government's review of the SSPs at the Contractor's facility.

b) If the Government determines that the SSP(s) does not adequately implement the requirements of DFARS clause 252.204-7012 then the Government shall notify the Contractor of each identified deficiency. The Contractor shall correct any identified deficiencies within thirty (30) days of notification by the Government. The contracting officer may provide for a correction period longer than thirty (30) days and, in such a case, may require the Contractor to submit a plan of action and milestones (POAM) for the correction of the identified deficiencies. The Contractor shall immediately notify the contracting officer of any failure or anticipated failure to meet a milestone in such a POAM.

c) Upon the conclusion of the correction period, the Government may conduct a follow-on review of the SSP(s) at the Contractor's facilities. The Government may continue to conduct follow-on reviews until the Government determines that the Contractor has corrected all identified deficiencies in the SSP(s).

d) The Government may, in its sole discretion, conduct subsequent reviews at the Contractor's site to verify the information in the SSP(s). The Government will conduct such reviews at least every three (3) years (measured from the date of contract award) and may conduct such reviews at any time upon thirty (30) days' notice to the Contractor.

2. Compliance to NIST 800-171

a) The Contractor shall fully implement the CUI Security Requirements (Requirements) and associated Relevant Security Controls (Controls) in NIST Special Publication 800-171 (Rev. 1) (NIST SP 800-171), or establish a SSP(s) and POA&Ms that varies from NIST 800-171 only in accordance with DFARS clause 252.204-7012(b)(2), for all covered contractor information systems affecting this contract.

b) Notwithstanding the allowance for such variation, the contractor shall identify in any SSP and POA&M their plans to implement the following, at a minimum:

(1) Implement Control 3.5.3 (Multi-factor authentication). This means that multi-factor authentication is required for all users, privileged and unprivileged accounts that log into a network. In other words, any system that is not standalone should be required to utilize acceptable multi-factor authentication. For legacy systems and systems that cannot support this requirement, such as CNC equipment, etc., a combination of physical and logical protections acceptable to the Government may be substituted;

(2) Implement Control 3.1.5 (least privilege) and associated Controls, and identify practices that the contractor implements to restrict the unnecessary sharing with, or flow of, covered defense information to its subcontractors, suppliers, or vendors based on need-to know principles;

(3) Implement Control 3.1.12 (monitoring and control remote access sessions) - Require monitoring and controlling of remote access sessions and include mechanisms to audit the sessions and methods.

(4) Audit user privileges on at least an annual basis;

(5) Implement:

i. Control 3.13.11 (FIPS 140-2 validated cryptology or implementation of NSA or NIST approved algorithms (i.e. FIPS 140-2 Annex A: AES or Triple DES) or compensating controls as documented in a SSP and POAM); and,

ii. NIST Cryptographic Algorithm Validation Program (CAVP) (see <https://csrc.nist.gov/projects/cryptographic-algorithmvalidation-program>);

(6) Implement Control 3.13.16 (Protect the confidentiality of CUI at rest) or provide a POAM for implementation which shall be evaluated by the Navy for risk acceptance.

(7) Implement Control 3.1.19 (encrypt CUI on mobile devices) or provide a plan of action for implementation which can be evaluated by the Government Program Manager for risk to the program.

3. Cyber Incident Response:

a) The Contractor shall, within fifteen (15) days of discovering the cyber incident (inclusive of the 72-hour reporting period), deliver all data used in performance of the contract that the Contractor determines is impacted by the incident and begin assessment of potential warfighter/program impact.

b) Incident data shall be delivered in accordance with the Department of Defense Cyber Crimes Center (DC3) Instructions for Submitting Media available at http://www.acq.osd.mil/dpap/dars/pgi/docs/Instructions_for_Submitting_Media.docx. In delivery of the incident data, the Contractor shall, to the extent practical, remove contractor-owned information from Government covered defense information.

c) If the Contractor subsequently identifies any such data not previously delivered to DC3, then the Contractor shall immediately notify the contracting officer in writing and shall deliver the incident data within ten (10) days of identification. In such a case, the Contractor may request a delivery date later than ten (10) days after identification. The contracting officer will approve or disapprove the request after coordination with DC3.

4. Naval Criminal Investigative Service (NCIS) Outreach

The Contractor shall engage with NCIS industry outreach efforts and consider recommendations for hardening of covered contractor information systems affecting DON programs and technologies.

5. NCIS/Industry Monitoring

a) In the event of a cyber incident or at any time the Government has indication of a vulnerability or potential vulnerability, the Contractor shall cooperate with the Naval Criminal Investigative Service (NCIS), which may include cooperation related to: threat indicators; pre-determined incident information derived from the Contractor's infrastructure systems; and the continuous provision of all Contractor, subcontractor or vendor logs that show network activity, including any additional logs the contractor, subcontractor or vendor agrees to initiate as a result of the cyber incident or notice of actual or potential vulnerability.

b) If the Government determines that the collection of all logs does not adequately protect its interests, the Contractor and NCIS will work together to implement additional measures, which may include allowing the installation of an appropriate network device that is owned and maintained by NCIS, on the Contractor's information systems or information technology assets. The specific details (e.g., type of device, type of data gathered, monitoring period) regarding the installation of an NCIS network device shall be the subject of a separate agreement negotiated between NCIS and the Contractor. In the alternative, the Contractor may install network sensor capabilities or a network monitoring service, either of which must be reviewed for acceptability by NCIS. Use of this alternative approach shall also be the subject of a separate agreement negotiated between NCIS and the Contractor.

c) In all cases, the collection or provision of data and any activities associated with this statement of work shall be in accordance with federal, state, and non-US law.

6.0 Acknowledgement of Sponsorship

(a) As used in DFARS 252.235-7010, 'Acknowledgement of Support and Disclaimer,' "material" also includes but is not limited to, news releases, letters to the editor, articles, abstracts, manuscripts, brochures, advertisements, photos, films, videos, slides, charts, graphs, drawings, speeches, trade association meetings, symposia, etc.

(b) Nothing in the foregoing shall affect compliance with the requirements of the clauses of this contract entitled "Disclosure of Information" (252.204-7000) and "Security Requirements" (FAR 52.204-2 and Alternate I) if such clause is a part of the contract.

(c) The Contractor further agrees to include this provision in any subcontract awarded as a result of this contract.

7.0 Key Personnel

a. The Contractor agrees to assign to the contract tasks those persons whose resumes were submitted with its proposal and who are necessary to fulfill the requirements of the contract as "key personnel." No substitutions may be made except in accordance with this clause.

b. The Contractor understands that during the first 180 days of the contract performance period, no personnel substitutions will be permitted unless these substitutions are unavoidable because of the incumbent's sudden illness, death, or should the company terminate the individuals' employment.

c. The Contractor understands that the below positions should be filled at all times and if the contractor is unable to continuously fill a Key Personnel position contract consideration may be assessed by the Government.

See Section H for Personnel Manning and Replacement for additional information.

The following are identified as key personnel:

TO BE COMPLETED AT TIME OF AWARD

[illegible]

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

Miscellaneous text in this section has been modified to:

1.0 GENERAL NOTICES

- a. This solicitation is reserved for 100% **Service Disabled Veteran Owned Small Business set-aside**. The contracting officer has determined there is a reasonable expectation of adequate competition for this acquisition. Submission of offers from other sources will not be evaluated or considered for award.
- b. Proposals shall be sufficiently detailed to enable the Government to perform an accurate and complete evaluation strictly from the proposal contents.
- c. After receipt of proposals, the Government will conduct a solicitation compliance review on all proposals. Offerors that are not compliant with the solicitation will not be evaluated and are not eligible for award. The Government is not obligated to inform the offeror of non compliance to the solicitation.
- d. The evaluation of this effort will be conducted in a phased approach. See Section M for additional details.
- e. Late proposals from a prime contractor and/or subcontractor/consultant shall follow SeaPort CONOPS rules.
- f. The Government shall not reimburse, as a direct cost, the Offeror's bid and proposal costs associated with proposals under this solicitation.

2.0 PROPOSAL SUBMISSION

Proposals shall be submitted electronically via the PIEE Solicitation Module. Any proposal received after the date and time specified for receipt of offers will be considered "late" and shall be rejected. It is the responsibility of the offeror to ensure that its proposal, to include submissions by subcontractors, is received in a timely manner.

- a. This requirement is for Navy Seaport contractors with the required set aside status (if any). All other offerors will not be considered.
- b. ONR is no longer accepting proposals from using the Seaport website.
- c. Prime offerors shall provide their electronic proposal via PIEE Solicitation Module. Offerors shall follow the PIEE registration instructions and posting instructions provided by PIEE below. The proposal must be received by the date and time specified in Block 9 of the Standard Form 33, Solicitation, Offer and Award.
- d. Emailed proposals and hard copy proposals are not accepted.
- e. Registration Instructions: https://www.acq.osd.mil/asda/dpc/ce/cap/docs/piee/PIEE_Solicitation_Module_Vendor_Access_Instructions.pdf
- f. Submitting an Offer: https://pieetraining.eb.mil/wbt/sol/Posting_Offer.pdf
- g. For assistance with the Solicitation module, contact the PIEE helpdesk at disa.global.servicedesk.mbx.eb-ticket-requests@mail.mil (866)-618-5988.
- h. Subcontractor(s) and/or consultant(s) submissions should be included in the prime submission package.
- i. Subcontractor(s) and/or consultant(s) that do not wish to submit their proprietary rates to the prime may submit their unsuppressed proposal to the PCO and the CS via email by the date and time established on the SF33.
- j. Subcontractor(s) and/or consultant(s) that submit a proprietary rate package shall follow the same instructions established below.
- k. Subcontractor(s) and/or consultant(s) are notified that Navy cannot receive .zip files.
- l. Should the subcontractor unsuppressed package be received AFTER the deadline for submission in PIEE, the information provided will not be used in the evaluation and only the information in the prime submission in PIEE will be reviewed.

3.0 SUBMISSION OF QUESTIONS

- a. ONR will no longer receive questions regarding the solicitation through Navy Seaport. Any/all questions regarding this solicitation must be submitted via email to the Contracting Officer and Contract Specialist.
- b. ONR requests that offerors provide limited emails with questions and urge offerors to thoroughly review the solicitation and send
- c. In order to allow sufficient time to answer questions, questions must be submitted no later than Wednesday 15 APRIL 2026 at 2:00 pm local time, Washington D.C. The Government has the final discretion to extend or not extend the solicitation deadline and any deadline extensions will be done via a formal amendment.
- d. Answers to solicitation questions will be posted via an amendment to the solicitation and posted in the PIEE Solicitation module.
- e. Offeror's who continue to submit questions asking for extensions will not be answered date.
- f. Offerors shall not direct any questions concerning this solicitation to any Office of Naval Research (ONR) personnel with the exception of the

Contracting Officer.

4.0 SOLICITATION AMENDMENTS

It is the offeror's responsibility to regularly check the PIEE Solicitation module for any postings of solicitations, amendments and questions and answers for this solicitation. Offerors shall acknowledge, via signature, all amendments to the solicitation in their proposal. Any unacknowledged amendments in the offeror's proposal will render the proposal deficient and ineligible for award.

5.0 ANTICIPATED AWARD DATE

The anticipated date of award is on/around 14 September 2026.

6.0 POINT OF CONTACT

The primary point of contact for this solicitation is Dunia Hickey, Contracting Officer, ONR-254, email: dunia.a.hickey.civ@us.navy.mil

7.0 PROPOSAL FORMAT AND PAGE LIMITS

- a. Offerors shall conform to the following Volumes.
 - i. Volume I - Business/Administrative
 - ii. Volume II - Technical Proposal
 - iii. Volume III - Past Performance Proposal
 - iv. Volume IV - Price Proposal
- b. All volumes containing text shall have single-spaced pages ("Exactly" spacing is not permitted), on an 8 1/2 x 11 inch sheet with a minimum one- inch margin all around.
- c. Font shall be Times New Roman no less than 12 point.
- d. Text within tables, diagrams, pictorial charts, or graphic material may use no smaller than 10- point font. 11 x 17 inch foldout pages are allowed for tables, diagrams, pictorial charts or other graphic material and will be counted as two pages.
- e. Every figure and table shall be numbered and included in a list of tables in the Table of Contents.
- f. Pages shall be numbered consecutively within each volume. The page limits prescribed are maximum page limits for each volume.
- g. When both sides of a sheet display printed material, it shall be counted as two (2) pages.
- h. Cover pages, tables of contents, cross-reference matrix, tabs, and glossaries shall not be counted against prescribed page limits.
- i. Pages submitted in excess of these limits will not be read or considered in the Government's evaluation of the proposal.
- j. Each volume shall be submitted as a separately labeled electronic file.
- k. All text within Volumes shall be in or compatible with Microsoft Word 2010 or Adobe Acrobat.
- l. All spreadsheets in Volume IV shall be capable of being manipulated in Microsoft Excel 2010 format, and shall be submitted with all formulas intact and unlocked. **Offerors shall round up to the nearest dollar with the exception of individual labor rates.** All labor rates shall be rounded to the nearest penny.
- m. Offerors shall submit all signature pages as scanned documents. Signatures must comply with the term "signature" as defined in FAR Subpart 2.101 and clearly express the Offeror's present intention to bind the Offeror to perform in accordance with the solicitation. Typed text or initials do not constitute a signature. Proposals with such markings will be considered as lacking a required signature.
- n. Offerors must ensure that pricing information is only included in the price proposal. Do NOT include any Pricing information in any other Volume of the proposal.
- o. All unit and extended prices provided shall be rounded to the nearest dollar. Extended prices must be divisible by the number of units proposed.

p. No classified information shall be included in the proposal.

q. Proposals shall be **limited to four (4)** volumes and shall be submitted electronically via the **PIEE Solicitation Module SeaPort Next Gen portal** referenced in Table 1 below as follows:

Propo al Vol ume	Factor and/or Sub-Factor	Volume Contents and Document Order	Page Limitation
I	Business/Administrative	1. Cover Page* 2. Table of Contents* 3. Signed Offer 4. Any/All Signed Solicitation Amendments 5. VETS 4212 Report 6. NIST SP 800-171 Department of Defense Assessment showing a minimum Basic Rating Screenshot 7. Cybersecurity Maturity Model Certification (CMMC) Screenshot 8. OCI Attestation 9. OCI Mitigation Plan (if attestation is Yes) 10. Data Rights Assertion (if any) using DFARS Table 227)	Unlimited
II	Factor 1 - Technical Technical Sub-Factor 1.1 - Technical Approach to meeting Performance Work Statement Tasks	1. Cover Page* 2. Table of Contents* 3. Response to sub-factor 1.1 (Excel - Attachment 6)	Unlimited
II	Factor 1 - Technical Technical Sub-Factor 1.2 - Key Personnel Qualifications and Resumes	1. Key Personnel Matrix (Excel -Attachment 7)* 2. Resumes for Key Personnel 3. Statement from Contingent Hires *	Resumes NTE 3 Pages per person Contingent Hire Statement NTE 1 Page per contingent hire
	Factor 1 - Technical		

II	Technical Sub-Factor 1.3 - Contractor's Staffing Plan and Problem Resolution	1. Response to sub-factor 1.2 (Excel - Attachment 8)	Unlimited
III	Factor 2 - Past Performance Proposal	1. Cover Page* 2. Table of Contents* 3. Example 1 PPIF, CPARS or PPQ, and SOW /PWS 4. Example 2 PPIF, CPARS or PPQ, and SOW /PWS 5. Example 3 PPIF, CPARS or PPQ, and SOW /PWS	Unlimited
IV	Factor 3 - Price	1. Cover Page* 2. Table of Contents* 3. Section B Fill Ins 4. Excel Pricing Summary Sheet 5. Pricing Narrative Form 6. Subcontractor/Consultant submissions *(Excel and Pricing Narrative Form)	Unlimited

*These documents do NOT count towards the overall page count per volume.

**If more than one subcontractor is proposed, each additional subcontractor shall follow the same format as noted above.

8.0 Volume I - Business/Administrative Content

a. Volume I - Business/Administrative

i. Cover Page -

- a. Solicitation Number
- b. Requirement Name
- c. Business Point of Contact - Name, Email, Phone
- d. Technical Point of Contact - Name, Email, Phone
- e. Cage Code and Unique Entity Identifier Number (UEI) for offeror and proposed subcontractors
- f. If an affiliate per SeaPort CONOPS Affiliate Rule, state as such
- g. Name of any/all subcontractors

ii. Table of Contents

iii. Signed Offer: The offer shall indicate the offeror's unconditional agreement to the terms and conditions in this solicitation. It shall state proposal validity through **245 days**. Finally it shall acknowledge and accept the terms and conditions reflected in any amendments to the solicitation. The Offer may be submitted in PDF format.

a Signed Offer from authorized representative

b. Any/All signed Amendments

iv. VETS 4212 Report: In accordance with FAR 52.222-35, Equal Opportunity for Veterans, the offer must provide evidence regarding their submission of the required annual VETS-4212, Federal Contractor Veterans' Employment Report with respect to the preceding fiscal year if the offer was subject to the reporting requirements of 38 U.S.C. 4212 (d) for that fiscal year. Evidence of this submission may be submitted in PDF format.

v. NIST SP 800-171 Department of Defense Assessment showing a minimum Basic Rating

vi. Cybersecurity Maturity Model Certification (CMMC): Offerors shall include a screenshot from the Supplier Performance Risk System (SPRS) demonstrating a current CMMC assessment.

vii. Organizational Conflict of Interest Attestation: ONR has determined that an actual or potential organizational conflict of interest (OCI) exists when a contractor (including its parent, subsidiaries, and affiliates) performs for ONR both scientific and engineering technical assistance (SETA) or other support services and Research and Development (R&D) work. Such situations give rise to OCIs or potential OCIs based on impaired objectivity, biased ground rules, and unequal access to information. ONR prefers that companies avoid such situations altogether by choosing to do only one type of work for ONR.

a. Disclosure. An offeror shall state in its proposal whether it is aware of any information bearing on the existence of any actual or potential OCI as defined in FAR 2.101 and further explained in FAR Subpart 9.5 as to itself and any proposed subcontractors, partners, affiliates or consultants. See also ONR's Statement of Policy on OCIs, which can be found at the following address: <https://www.nre.navy.mil/work-with-us/how-to-apply/compliance-protections/organizational-conflicts-of-interest>.

b. An OCI may exist if an offeror, its subcontractors, affiliates, or consultants were previously or are currently under a contract, subcontract, or other agreement (e.g., grants, Other Transactions Agreements (OTA), Cooperative Agreements) that relates in any way to this solicitation and the work required thereunder. Offerors performing systems engineering and technical assistance (SETA) for ONR are considered to have an OCI that may not be susceptible to mitigation.

c. The nondisclosure or misrepresentation of an interest creating an OCI may result in the disqualification of an offeror for award, or if such nondisclosure or misrepresentation is discovered after award, the Government may terminate the contract for default, recommend that the contractor be disqualified from subsequent related contracts, or be subject to such other remedial actions as may be permitted or provided by law (see 18 U.S.C. (S) 1001 and 31 U.S.C. (S) 3802(a)(2)). Therefore, offerors should interpret the requirements of this provision broadly.

d. An offeror who does not provide support services to ONR or concludes no actual or potential OCI exists shall include the following statement in its proposal: "I [NAME] as an authorized negotiator on behalf of [NAME OF OFFEROR] certify that NO actual or potential organizational conflict of interest (OCI) exists under [SOLICITATION NUMBER]. I understand that the failure to disclose the existence of actual or potential OCI shall result in the offeror not being considered for award."

e. An offeror who does provide support services to ONR or is aware of circumstances that may hinder its ability to render impartial, technically sound, and unbiased assessments, recommendations, and evaluations; or that circumstances exist that may result in the appearance that it may have an unfair competitive advantage shall submit the following with its proposal:

- The name of the entity the offeror, its subcontractors, partners, consultants or affiliates supports.
- The number of the contract, subcontract, or agreement that creates the actual or potential OCI. If ONR did not award the contract or agreement, provide a copy of the document. If ONR awarded the contract, provide the name of the technical point of contact.
- A description of the actual or potential OCI. The statement must describe in a concise manner all relevant facts concerning any past, present or currently planned interest (financial, contractual, organizational, or otherwise) relating to the work to be performed hereunder and bearing on whether the offeror has a possible organizational conflict of interest with respect to impartial, technically sound, and unbiased assessments, recommendations, or evaluations, or being given an unfair competitive advantage. If relevant, offerors shall address the personal conflicts of their employees.
- A Mitigation Plan. Offerors should refer to FAR Subpart 9.5 for policies and procedures for avoiding, neutralizing, or mitigating organizational conflicts of interest.
- A concluding statement as follows: "I [NAME] as an authorized negotiator on behalf of [NAME OF OFFEROR] certify that I have, to the best of my knowledge and belief, disclosed all actual or potential organizational conflicts of interest (OCI) under [SOLICITATION NUMBER]. I understand that the failure to disclose the existence of an actual or potential OCI shall result in the offeror not being considered for award."

viii. OCI Mitigation Plan (if attestation is Yes) OCI Mitigation Plan Contents. At a minimum, a Mitigation Plan shall:

a. Provide organizational charts showing the offeror's (and, as appropriate, those of its subcontractors, partners, consultants, and affiliates) structure as it relates to performance of the contract awarded under this solicitation and all contracts and agreements relevant to the OCI, highlighting those elements that create the actual or apparent OCI.

- b. Demonstrate how the elements that create the actual or apparent OCI will be isolated from the resources that will perform the contract awarded under this solicitation.
- c. Provide information showing whether the organizational elements that will perform the contract awarded under this solicitation will be geographically or physically separated from the elements that create the actual or apparent OCI.
- d. For each contract or agreement relevant to the OCI, describe the process for reassigning personnel, including those belonging to subcontractors, partners, consultants, and affiliates, from one organization to another. Include restrictions that apply.
- e. For each contract or agreement relevant to the OCI, describe the controls, including nondisclosure agreements, that are exercised over the future employment of departing employees as it relates to the OCI.
- f. For each contract or agreement relevant to the OCI, describe any OCI training the employees are offered or required to attend, along with the timing (before or after starting work on a government contract), frequency, length, and content of such training.
- g. Provide evidence of facts and circumstances that the offeror asserts mitigate or address the concerns related to the actual or potential OCI.

9.0 VOLUME II - TECHNICAL PROPOSAL - FACTOR 1 (SUBFACTOR 1.1, SUB-FACTOR 1.2 AND SUB-FACTOR 1.3)

Offerors shall demonstrate their understanding of the requirements and tasks for this solicitation. All of the requirements and tasks specified in the solicitation are mandatory. By your proposal submission, you are representing that your company and proposed subcontractors (if applicable) will perform all the requirements and tasks specified in the solicitation. Offerors shall not merely copy, paste, rephrase or restate the requirements and tasks specified in the solicitation; such will result in an "unacceptable" evaluation rating. See Section M for information on proposal evaluation criteria and ratings.

i. Cover Page -

- a. Solicitation Number
- b. Requirement Name
- c. Business Point of Contact - Name, Email, Phone
- d. Technical Point of Contact - Name, Email, Phone
- e. Cage Code and Unique Entity Identifier (UEI) Number for offeror and proposed subcontractors
- f. If an affiliate per SeaPort CONOPS Affiliate Rule, state as such
- g. Name of any/all subcontractors

ii. Table of Contents

A. Technical Sub-Factor 1.1 - Technical Approach to meeting Performance Work Statement Tasks

The contractor, using the form (excel) in Section J, will document their approach to the following ten (10) PWS requirements. **Offerors are advised to be as specific as possible to articulate their approach.**

Provide meeting scheduling and logistical support for official departmental activities. Includes managing senior official calendar(s) to identify best time for all meeting attendees, create calendar invitations, ensure there are no meeting conflicts, and provide administrative support for in-person and virtual meetings with internal and external organizations. Record and maintain meeting minutes as requested.

Provide administrative support for standard office operations and logistics. Includes ordering supplies for department supply room and requests from individuals, collecting burn bags and providing to ONR mail room, making copies, scanning documents, and ensuring all printers, scanners, copiers, and fax machines are in proper working order.

Assist Program Officers with the development of award-level execution and phasing plans. This includes understanding/analyzing the status of prior, current, and future program fiscal plans, developing a recommended plan for the Program Officer's budget, providing justifications for deviations from the original plan, and assisting the department with administrative actions to improve financial performance.

Track all PRs until funding is obligated and expensed and performer is notified. Contact government financial and technical points of contact to follow-up on status of unobligated reimbursable documents no later than fifteen (15) days after the funding document is approved at the ONR comptroller level. Contact government financial and technical points of contact to follow-up on status of unobligated direct citation PRs no later than

30 days after the funding document is approved at the ONR comptroller level. Record the status of unobligated funding in the Comptroller's Outstanding Commitment Report.

Manage and maintain financial tracker documents showing the status of all awards and contract line item numbers (CLINs) for each Program Officer. This includes performer name, principal investigator name, title of effort, award number, PR number, total award value, obligated amount, expended amount, period of performance, out-year funding plans (tails), and the status of all PRs for core, congressional plus-up, and outside source funding. Ensure financial tracker is up to date on a weekly basis.

Provide draft input and analysis to BFM and Program Officers to facilitate completion of various programmatic taskers such as data calls, deviation reports, dormant account reviews, budget reductions, continuing resolutions, or other tasks that require financial analysis/input.

Review proposal packages for completion of all required information and documents, draft Program Officer checklist by completing the non-technical sections, and save all files to program officer's repository using an agreed upon file naming and storage convention. Coordinate with performer and program officer to obtain missing proposal documentation and updates as needed. Track contract / grant preparation processes and note status, exceptions / delays.

Assist in responding to data calls and maintain the data archive of planning letters, accepted proposals, proposals for contracts, contract package preparation, and contract package submissions.

For High Performance Computing Specialist -

Review and understand DoD/DON S&T strategy guidance documents. Assist Program Officer in aligning portfolio to short-term and long-term strategies and by mapping technical thrusts/efforts to National Defense Strategy (NDS) and other strategic, requirement, and guidance documents.

Identify and review emerging requirements and opportunities for transition in areas related to Code 32's objectives for selected technology programs. Assist PO in identifying Technology Candidates / Future Naval Capabilities (FNCs) from existing portfolio and assist with development of topics for special programs.

B. Technical Sub-Factor 1.2 -Key Personnel Qualifications and Resumes

i. Using the Key Personnel matrix (excel) in Section J, the offeror shall identify how their proposed personnel meet the minimum required experience. Should the offeror have Key Personnel that meet the "Additional Desired Qualifications," the offeror shall annotate how the Key Personnel meet the additional qualifications.

ii. The offeror shall also provide resumes for the following Key Personnel as follows:

a. On-Site Support Staff Lead (KEY) - 1 Resume

b. High Performance Computing Specialist (KEY) - 1 Resume

c. Program Analyst (KEY) - 3 Resumes -

***Section C of this solicitation identifies seven (7) Program Analyst positions as Key Personnel. For the purposes of this proposal submission, offerors shall provide resumes for three (3) of the seven (7) Program Analyst Key Personnel positions.**

***The resumes for the remaining four (4) Program Analyst Key Personnel are not required for proposal submission. However, the successful awardee will be required to provide the resumes for these four (4) individuals within 5 days after contract.**

The resumes must be sufficiently detailed to permit assessment of the capability of the proposed personnel. At a minimum, the resume should include information that supports the Key Personnel matrix inputs.

iii. The resumes shall also include a statement regarding if the proposed Key Personnel are current employees or if they are contingent hires not currently employed by the offeror.

iv. In addition, the contingent hire shall sign a document stating they are aware their resume will be used for proposal purposes. The contingent hire letters are required to demonstrate the offeror's ability to satisfy personnel requirements on the first day of the task order period of performance. A letter of intent to accept the position is also needed stating that they will accept the position should the offeror be awarded the contract.

- v. The contractor shall return the Personnel Matrix to the Government in an Excel format.
- vi. Contractors are reminded that some labor categories include multiple key individuals to be named.
- vi. A failure of proposed Key Personnel to meet the minimum requirements will result in a deficiency and an overall Factor rating of Unacceptable.

C. Technical Sub-Factor 1.3 - Contractor's Staffing Plan and Problem Resolution

The contractor, using the form (excel) in Section J, shall address their Staffing Plan and Problem Resolution. **Offerors are advised to be as specific as possible to articulate their approach.**

The staffing plan shall include the following:

- i. Offeror's understanding to staffing (Key and Non Key Personnel) leading to the successful accomplishment of all requirements identified in the PWS;
- ii. How Offeror will ensure availability of personnel support in the technical areas specified in Section C;
- iii. Offeror recruitment strategies;
- iv. Offeror retention strategies;
- v. Offeror backfill strategies to include how your company will replace highly skilled technical personnel; and,
- vi. How Offeror plans to integrate subcontractors and/or consultants into fulfilling the requirement and comply with FAR 52.219-14.

The contractor shall also address how problems, which may occur during the performance of the contract will be handled. At a minimum, the contractor shall address the following:

- i. How does the Offeror plan to train their Key and Non Key Personnel who employees to perform the tasks under the PWS?
- ii. How does the Offeror address performance matters with Key and Non Key Personnel who are not performing to the standards of the contract? In addition, how would the Offeror address a subcontractor not performing to the standards of the contract?
- iii. How the Offeror would approach handling the requirement when Key and Non Key Personnel may be out for an extended period of time?
- iv. How would the Offeror address invoice issues, should they occur, on the contract?
- v. How does the Offeror plan to meet the QASP requirement for less than 10% turnover per POP year?
- vi. Address Offeror's ability to obtain a **TOP** SECRET facility clearance on or before contract award date. If no current **TOP** SECRET facility clearance exists, please describe how the offeror will obtain the required facility clearance and identify the timeframe.

10.0 VOLUME III - PAST PERFORMANCE - FACTOR 2

- i. Cover Page -
 - a. Solicitation Number
 - b. Requirement Name
 - c. Business Point of Contact - Name, Email, Phone
 - d. Technical Point of Contact - Name, Email, Phone
 - e. Cage Code and Unique Entity Identifier Number for offeror and proposed subcontractors
 - f. If an affiliate per SeaPort CONOPS Affiliate Rule, state as such
 - g. Name of any/all subcontractors
- ii. Table of Contents
- iii. Past Performance Example 1

- a. Past Performance Information Sheet. See Section J for reference.
 - b. CPARS or Past Performance Questionnaire. See Section J for reference.
 - c. Statement of Work for Example 1
- iv. Past Performance Example 2
- a. Past Performance Information Sheet. See Section J for reference.
 - b. CPARS or Past Performance Questionnaire. See Section J for reference.
 - c. Statement of Work for Example 2
- v. Past Performance Example 3
- a. Past Performance Information Sheet. See Section J for reference.
 - b. CPARS or Past Performance Questionnaire. See Section J for reference.
 - c. Statement of Work for Example 3

Offerors shall provide information relative to previous work for the same or similar services provided for all past and on-going work in Government and Non-Government contracts for technical, financial and program management support services.

Offerors must complete the Past Performance Information Form to detail and summarize the past performance information requested in this volume. See Section J for reference.

Offerors shall provide three (3) relevant past performance examples of contract efforts performed with similar size, scope, and complexity. Past performance examples must have been performed within the past three (3) years as of the date of the solicitation. Relevant past performance is defined as efforts performed in the past three (3) years that directly track to the functional areas of the PWS (Section C) for this effort. Data concerning the offeror shall be provided first, followed by the proposed major subcontractor (if applicable), in alphabetical order. A major subcontractor is defined as one who is performing at least \$3M worth of the total proposed price, excluding ODCs and profit/fee. Past performance information from subcontractors will not be considered unless the subcontractor is performing at least \$3M worth of the total proposed price, excluding ODC's and profit/fee. Subcontractor past performance can only replace one (1) past performance example for the offeror. The offeror is still required to provide two (2) past performance examples if a major subcontractor is providing one (1) past performance example.

Offerors citing an IDIQ award as an example shall also include the Task Order number work is performed under.

If the offeror does not have three (3) recent and relevant contract efforts, the offeror shall make such a statement in this section of the proposal.

Offerors can elect to submit their most recent final CPARS or a PPQ. If submitting a PPQ, Offerors shall request customer POC's to complete past performance questionnaires on their behalf. See questionnaire template in Section J. Completed Past Performance Questionnaires shall be e-mailed directly from the client (POC/COR) to dunia.a.hickey.civ@us.navy.mil on or prior to the closing date of this solicitation.

Questionnaires received after the due date for submission of proposals may not be considered.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

11.0 VOLUME IV - PRICE PROPOSAL - FACTOR 3

- i. Cover Page -
 - a. Solicitation Number
 - b. Requirement Name
 - c. Business Point of Contact - Name, Email, Phone
 - d. Technical Point of Contact - Name, Email, Phone
 - e. Cage Code and Unique Entity Identifier Number for offeror and proposed subcontractors
 - f. If an affiliate per SeaPort CONOPS Affiliate Rule, state as such
 - g. Name of any/all subcontractors
- ii. Table of Contents
- iii. Section B Fill Ins
- iv. Pricing Summary Sheet - Prime - Excel - Includes ONR Service Contract Metrics aka Tripwire
- v. Pricing Narrative Form - Includes Prime's Compliance with FAR 52.219-14, Calculation of SeaPort Rate Caps, Prime's Analysis of Subcontractor Proposal
- vi. Subcontractor Submissions

Section B Fill Ins

The Section B fill-ins shall be completed by the offeror **in SeaPort NxG and a copy of the Section B fill-ins shall and** must be included in Volume IV. Section B fill-ins may be submitted in PDF format. Offerors shall propose the exact Not-to-Exceed amount(s) established for the reimbursable Other Direct Costs (ODC) CLINs without burdens, profit, fee, handling charges, general and administrative costs, overhead, or any other indirect cost and shall not offer any higher than the amounts. The Section B fill-ins must match the amounts proposed in Pricing Spreadsheet or the Price volume

III may be considered incomplete and non-responsive, rendering the prime's proposal ineligible for award.

Pricing Summary Sheet (Excel) - Prime

Offerors shall bid the Not-to-Exceed amount of **\$200,000.00** for each Other Direct Costs (ODC) CLINs (**7000, 7100, 7200, 7300, and 7400**). The NTE amount shall be proposed inclusive of G&A if required by the offeror's accounting practices, but without profit, fee, or any other burdens. Offerors shall not propose any higher or lower ODC amounts.

Offerors shall complete the Pricing Spreadsheet in Section J.

The price proposal submitted by offerors shall consist of the following: a general worksheet, a total amount worksheet, separate worksheets for each of the five (5) years of contract performance (Base through O-IV). To evaluate the option to extend services (FAR 52.217-8) CLINs, one-half of the proposed price for the last year of the performance period shall be added to the Total Evaluated Price. No offeror input on the Excel form is required.

All formulas shall remain in the spreadsheet(s), so as to allow for the Government's evaluation of cost. For example, the Government should be able to change a cell containing a specific labor rate for an individual and have the change flow through the spreadsheet automatically. However, offerors may revise the formulas to accurately reflect their proposed accounting practices. If offerors revise the formulas, the offeror must provide a detailed narrative explaining the changes made to formulas and the worksheet(s) impacted by the changes. Offerors who manipulate formulas without a narrative explanation of what is revised may be ineligible for award.

Any proposal that does not contain subcontractor price information (if applicable) may be considered incomplete and non-responsive, rendering the prime's proposal ineligible for award.

ONR Service Contract Metrics (aka Tripwire (Calculated in Excel Proposal Format))

The Office of Naval Research (ONR) has established service contracting tripwires for service contracts funded and executed at ONR. The service contracting tripwire applicable to the base and all option periods for this solicitation is a fully burdened labor rate of \$250 per hour. This tripwire applies to prime, subcontract, and consultant labor inclusive of all subcontractor, consultant, and prime contractor indirect costs and applicable fee or profit.

Offerors and their subcontractors must provide their fully burdened labor rate computations, via a separate worksheet within the Pricing Spreadsheet (see Section J) which shall be labeled "Tripwire Data". The worksheet will demonstrate how the fully burdened proposed labor rate(s) were computed by the offeror and subcontractor(s) in order to show compliance or non-compliance with ONR's service contracting tripwire requirement. This separate worksheet can be provided in contractor format and must be added to the Pricing Spreadsheet (see Section J) by the offeror and subcontractor in each of their respective cost proposal spreadsheets.

Offers and subcontractors who propose fully burdened labor rates in excess of \$250 per hour for the base and option periods identified within this solicitation must provide a written narrative to support the rationale for proposing fully burdened labor rates in excess of \$250 per hour. Offerors and subcontractors who propose fully burdened labor rates in excess of \$250 per hour shall be subject to additional analysis and a higher level of review to assess cost/price reasonableness.

Pricing Narrative Form - Prime (Use the Section J, Pricing Narrative Form)

All primes shall fill out Pricing Narrative Sheet (See Section J).

Prime's Compliance with FAR 52.219-14 (Use the Section J, Pricing Narrative Form)

Prime offerors are responsible for providing the applicable certification or assurance in accordance with FAR 52.219-14, that at least 50% of the cost of contract performance incurred for personnel shall be expended for employees of the concern. Prime offerors must demonstrate in the cost volume narrative how this will be accomplished; however, if the prime and subcontractor are similarly situated they should state as such in the document.

Calculation of SeaPort Rate Caps (Use the Section J, Pricing Narrative Form)

Offerors shall detail how their proposal is compliant with any/all Seaport IDIQ contract rate caps as they apply.

Prime's Analysis of Subcontractor Proposal (Use the Section J, Pricing Narrative Form)

The prime contractor shall include a detailed analysis of their proposed subcontractor(s) and/or consultants to determine the price the prime has included is fair and reasonable. At a minimum, this should include how the subcontractor(s) and/or consultants were selected, the type of contract they will be awarded, and analysis of the overall price. Subcontractor(s) and/or consultants that are selected on a sole source basis require additional scrutiny from the prime contractor. Primes that fail to provide this information, or do not perform an adequate analysis may be deemed to be non-compliant with the solicitation and removed from consideration.

Applicability of Documents to Proposed Subcontractors and Consultants

All proposed subcontractors and/or consultants shall use the following documents which are consistent with the prime offeror. Price Summary Sheet (Attachment 10), Pricing Narrative Form (Attachment 9) and the Key and Non-key Personnel Matrix (Attachment 7). The Key and Non-Key Personnel Matrix is NOT required for subcontractors pending that the prime contractor has filled in the attachment to identify that a subcontractor will be performing the task. See Section J for reference. Any proposal that does not contain subcontractor price information (if applicable) may be considered incomplete and non-responsive, rendering the prime's proposal ineligible for award.

FAR 52.201-1 Acquisition 360 Voluntary Survey (Sep 2023)

(a) All actual and potential offerors are encouraged to provide feedback on the preaward and debriefing processes, as applicable. Feedback may be provided to agencies up to 45 days after award. The feedback is anonymous, unless the participant self-identifies in the survey. Actual and potential offerors can participate in the survey by selecting the following link: <https://www.acquisition.gov/360>.

(b) The Contracting Officer will not review the information provided until after contract award and will not consider it in the award decision. The

survey is voluntary and does not convey any protections, rights, or grounds for protest. It creates a way for actual and potential offerors to provide the Government constructive feedback about the preaward and debriefing processes, as applicable, used for a specific acquisition

(End of provision)

Section M - Evaluation Factors for Award

Miscellaneous text in this section has been modified to:

1.0 GENERAL NOTICES

The Government intends to award a task order to the responsible Offeror whose proposal conforms to the solicitation requirements and is determined to be the best value to the Government. The evaluation of an offeror's proposal will be conducted using the procedures outlined in this solicitation and the process outlined in the most recent SeaPort ConOps version.

i. "Best Value" means the expected outcome of an acquisition that, in the Government's estimation, provides the greatest overall benefit in response to the requirement (FAR 2.101). In making this decision, the Government is more concerned with obtaining offers demonstrating superior merit under the non-cost evaluation factors at a reasonable price than with making an award to the Offeror with the lowest proposed price. Accordingly, the Government may be willing to pay a reasonable premium for a proposal offering superior merit under the non-cost factors. The determination of a reasonable premium rests with the Selection Official.

ii. Although the Government may waive informalities and minor irregularities in proposals received, the failure to comply with terms and conditions of the solicitation may adversely impact the Offeror's evaluation results, and could result in the Offeror being removed from consideration for award.

iii. Any proposal determined to have an existing organizational conflict of interest (OCI) pertaining to the prime or any of the proposed subcontractors may be removed from further consideration for award at any point during the evaluation. Task order award will only be made to an Offeror that has no organizational conflicts of interest as defined in FAR Subpart 9.5 or has provided a satisfactory mitigation plan, as determined by the Government.

iv. The evaluation of an offeror's proposal shall be done initially with a compliance review to ascertain if offerors have met the compliance requirements. Only those offerors who meet the compliance requirements will be evaluated. Should an offeror not meet the compliance requirements, the Government is NOT required to notify the offeror they will not be evaluated.

v. While OCI is not an evaluation factor, it is analyzed to determine OCI risk. Any proposal determined to have an organizational conflict of interest (OCI) pertaining to the prime or any of the proposed subcontractors may be removed from further consideration for award at any point during the evaluation. Task order award will only be made to an Offeror that has no organizational conflicts of interest as defined in FAR Subpart 9.5 or has provided a satisfactory mitigation plan. The determination regarding the satisfactory nature of the mitigation plan is determined by the Government.

vi. Offerors are hereby notified that formal source selection procedures DO NOT apply. Per SeaPort CONOPS, the source selection adjectival ratings are used for evaluation purposes; however, all offerors are hereby notified that this acquisition is subject to Federal Acquisition Regulation (FAR) part 16.5 and FAR part 15.3 procedures DO NOT apply. Because this streamlined evaluation and award is not using the formal source selection procedures of FAR Subpart 15.3, procedures such as a competitive range determination, pre- award notifications to Offerors excluded from a competitive range, and requesting final proposal revisions from all Offerors included within a competitive range are not required. The identification of terminology similar to use in FAR Subpart 15.3, the Government's questions and comments, and the Offeror's answers and responses do not constitute discussions, clarifications, communications, or exchanges as used in FAR Subpart 15.3. The Government may use evaluation terms such as strength, weakness, etc in the evaluation(s). The definitions of those terms may be found in the DOD Source Selection Guide.

vii. The evaluation of an offeror's proposal shall be done initially with a compliance review to ascertain if offerors have met the compliance requirements. Only those offerors who meet the compliance requirements will be evaluated. Should an offeror not meet the compliance requirements, the Government is NOT required to notify the offeror they will not be evaluated.

viii. An unacceptable rating under any of the sub-factors under Technical Factor 1 will result in an overall unacceptable rating for Technical Factor 1. In the event that the first sub-factor is unacceptable the Government will cease the evaluation and the offeror shall be deemed to be unacceptable.

2.0 EVALUATION PHASES

Proposals that are compliant with the solicitation shall then be reviewed in phases:

i. **Phase I:** will evaluate the Technical Proposal /Factor 1. Only those proposals rated Acceptable, Good, or Outstanding will move on to the Past Performance evaluation. Should a proposal be rated Unacceptable under one Sub-Factor of the Technical Proposal Factor, the proposal shall be rated Unacceptable overall for Factor 1 (Technical Proposal).

ii. **Phase II:** will evaluate the Past Performance factor. Only those proposals rated Neutral, Satisfactory, or Substantial Confidence for Past Performance will move on to Phase III. Should a proposal be rated Unacceptable under either Factor 1 (Technical Proposal) or Factor 2 (Past Performance) the entire proposal shall be rated unacceptable.

iii. **Phase III:** will consist of a Price Analysis evaluation of only those proposals who are rated in Phases I and II shall undergo this analysis.

3.0 INTERCHANGES

The Government intends to make award based on the initial proposal submissions without conducting interchanges; therefore, each offer's proposal should contain the Offerors best terms. In the event interchanges are required, and after the Government has afforded all Offerors under the multiple-award contract a fair opportunity to submit an offer and have that offer fairly considered, the Selection Official may take or direct one or more of the

following actions:

- i. Award to the Offeror whose submission conforms to the solicitation requirements and is determined to be the best value for the Government based upon an integrated assessment of the evaluation methodology contained in the Basis for Award; OR
- ii. Enter Interchanges with only one Offeror whose proposal is determined to be the most highly qualified in non price factors after an initial evaluation despite any weaknesses that may exist with that proposal, where other Offerors do not have a reasonable prospect for award; OR
- iii. Enter Interchanges with more than one Offeror whose proposals are determined to be the most highly qualified in non price factors after an initial evaluation despite any weaknesses that may exist with that proposal, where other Offerors do not have a reasonable prospect for award; OR
- iv. Not make an award to any Offeror.

The Government intends to make award based on the initial proposal submissions without conducting interchanges; therefore, each offer's proposal should contain the Offerors best terms.

The Government reserves the right to hold interchanges if, during the evaluation, it is determined to be in the best interest of the Government. Interchanges are fluid interaction(s) between the Government and Offerors that shall address any aspect of the proposal and may or may not be documented in real time.

v. Should Interchanges be required, the Selection Official shall determine if the Interchanges will occur with one or more than one Offeror. The Selection Official will determine if Interchanges are needed only after a comprehensive evaluation of all Factors (Technical, Past Performance, and Price). Interchanges with the offerors may focus on one or more than one factor.

Interchanges with Only One Offeror - Should the Selection Official determine only one Offeror requires interchanges, the Government will enter interchanges with only that Offeror after a comprehensive evaluation of all Factors (Technical, Past Performance, and Price) have been completed. This will be done via submission of an Interchange Notice to only that Offeror.

If the Government enters interchanges with only one Offeror, and the parties cannot successfully resolve outstanding issues, it is at the sole discretion of the Selection Official to cease interchanges with that Offeror. The offeror will be notified that interchanges have concluded. The Selection Official may then engage in interchanges with the next eligible Offeror. This process will continue until an agreement is successfully reached on all factors. In the event that an agreement cannot be made between the Offeror and the Government, the Government reserves the right to end Interchanges with the Offeror and proceed to initiate Interchanges with another Offeror(s). The offeror will be notified that interchanges have concluded.

If interchanges are concluded with no agreement reached, offerors are notified that no pre award debriefs will be provided.

Interchanges with More Than One Offeror - Should the Selection Official determine more than one Offeror requires interchanges, the Government will enter interchanges with those Offerors after a comprehensive evaluation of all Factors (Technical, Past Performance, and Price) have been completed. This will be done via submission of an Interchange Notice to multiple Offerors. The initial Interchange Notices will focus on all factors.

The Government may continue to have Interchanges with all Offerors or select only a certain number of Offerors to continue Interchanges until an agreement is successfully reached.

Should the Government cease interchanges with an Offeror, the Offeror will be notified that Interchanges have concluded. As noted above, no pre award debriefs will be provided.

4.0 EVALUATION FACTORS AND SUB FACTORS TO BE EVALUATED/WEIGHTING

The evaluation factors will be as follows:

1. Factor 1 - Technical Proposal

- a. Sub-Factor 1.1 - Technical Approach to meeting Performance Work Statement Tasks
- b. Sub-Factor 1.2 - Key Personnel Qualifications and Resumes
- c. Sub-Factor 1.3 - Contractor's Staffing Plan and Problem Resolution

2. Factor 2 - Past Performance

3. Factor 3 - Price

Factors are listed in descending order of importance. Factor 1 is significantly more important than Factor 2. Factor 2 is more important than Factor 3.

~~Factor 1 includes three sub factors. Sub Factor 1.1, is slightly more important than Sub Factor 1.2 and - Sub Factors 1.3 and 1.2 are equally when taken together are significantly more important than Sub Factor 1.3.~~

Factor 1 includes three sub-factors. Sub-Factor 1.1 is more important than Sub-Factor 1.2. Sub-Factor 1.2 is more important than Sub-Factor 1.3.

Offerors are hereby notified that the closer the ratings are in Factors 1 and 2, the more important Factor 3 becomes.

5. EVALUATION FACTOR 1 - TECHNICAL PROPOSAL - FACTOR 1, VOLUME II (INCLUDES THREE SUBFACTORS):

The Government shall review the contractor responses to Technical SUBFACTOR 1.1 - Technical Approach to meeting Performance Work Statement Tasks

The Government shall evaluate the ten (10) PWS tasks selected from the PWS to determine if the offeror meets the minimum requirements. Offerors that proposed approaches in an attempt to exceed the acceptable ratings shall clearly and concisely identify how their approaches benefit the Government.

The Government shall review the Key Personnel Matrix in order to determine if proposed Personnel meet the minimum qualifications for Technical SUBFACTOR 1.2 - Key Personnel Qualifications and Resumes.

Resumes are required for the following KEY personnel:

- a. On-Site Support Staff Leader - 1 Resume
- b. High Performance Computing Specialist - 1 Resume
- c. Program Analyst - 3 Resumes Only

*Section C of this solicitation identifies seven (7) Program Analyst positions as Key Personnel. For the purposes of this proposal submission, offerors shall provide resumes for three (3) of the seven (7) Program Analyst Key Personnel positions.

*The resumes for the remaining four (4) Program Analyst Key Personnel are not required for proposal submission. However, the successful awardee will be required to provide the resumes for these four (4) individuals within 5 days after contract.

- i. The Government will evaluate Key Personnel resumes to determine if they meet the minimum qualifications.
- ii. All personnel must meet the minimum qualifications in Section C to receive at least an acceptable rating for this factor.
- iii. Personnel with one (1) or more desired qualifications the Government may rate higher than acceptable.
- iv. A failure of proposed Key Personnel to meet the minimum requirements will result in a deficiency and an overall Factor rating of Unacceptable.

Refer to Section C for each labor category regarding proposed Personnel Requirements & qualifications.

v. Resumes are considered a material part of the proposal. Resumes for proposed contingent Key Personnel that do not include a statement signed by the individual providing authorization to the offeror to include their resume in response to this solicitation will lead to an "unacceptable" rating. The failure to submit letters of intent if required will result in an "Unacceptable" rating.

The Government shall review the contractor responses to Technical SUBFACTOR 1.3 - Contractor's Staffing Plan and Problem Resolution

The Government will evaluate the responses to Section J, Attachment 7 to determine if the offeror meets the minimum requirement. Offerors that meet the minimum may be rated as acceptable for this subfactor. Offerors may receive one or more strengths if they are able to:

*Demonstrate a unique, cost saving approach to reduce staffing turn over;

*Identify internal personnel resources and/or tools that document how contractor staff will be trained in their positions to perform the PWS; and/or,

*Have the requisite facility clearance at time of award or demonstrate that they are able to obtain the required facility clearance within six (6) months after award.

The Technical Evaluation Board will evaluate Factor 1 and each sub-factor thereunder, using the following rating definitions:

Rating	Description
Outstanding	Proposal indicates an exceptional approach and understanding of the requirements and contains multiple strengths, and risk of unsuccessful performance is low.

Good	Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength, and risk of unsuccessful performance is low to moderate.
Acceptable	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.
Marginal	Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.
Unacceptable	Proposal does not meet requirements of the solicitation, and thus, contains one or more deficiencies, and/or risk of unsuccessful performance is unacceptable. Proposal is un-awardable.

An unacceptable rating under any of the sub-factors under Factor 1 will result in an overall unacceptable rating for Factor 1.

6.0 EVALUATION OF FACTOR 2 - PAST PERFORMANCE - FACTOR 2, VOLUME III:

The past performance evaluation results in an assessment of the offeror's probability of meeting the solicitation requirements. The past performance evaluation considers each offeror's demonstrated recent and relevant record of performance in furnishing services that meet the contract's requirements. A performance relevancy rating and a performance confidence assessment rating will be assigned for each offeror after evaluating the offeror's recent and relevant past performance, focusing on performance that is relevant to the contract requirements. Past performance information about the offeror as a prime contractor is considered more significant and given more weight in the past performance evaluation.

There are two aspects to the past performance evaluation. The first is to evaluate the offeror's past performance to determine how relevant a recent effort accomplished by the offeror is to the effort to be acquired through the source selection. In establishing what is relevant for the acquisition, consideration will be given to those aspects of an offeror's contract history that would give the greatest ability to measure whether the offeror will satisfy the current procurement. Common aspects of relevancy include similarity of service/support, complexity, dollar value, contract type, and degree of subcontract/teaming.

Past Performance Relevancy Ratings. In conducting a performance relevancy assessment, each offeror shall be assigned one of the following ratings:

Rating	Description
Very Relevant	Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.
Relevant	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.
Somewhat Relevant	Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

The second aspect to the past performance evaluation is to determine how well the contractor performed on the contracts. The past performance evaluation performed in support of a current source selection does not establish, create, or change the existing record and history of the offeror's past performance; rather, the past performance evaluation process gathers information from customers and other sources on how well the offeror performed those past contracts.

The Government will review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS), including Contractor Performance Assessment Reporting System (CPAR), using all CAGE/UEI numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror's proposal, inquiries of owner representative(s), System for Award Management (SAM) modules including information formerly found under Federal Awardee Performance and Integrity Information System (FAPIS), and any other known sources not provided by the offeror.

Performance Confidence Assessment. In conducting a performance confidence assessment, each offeror shall be assigned one of the following ratings:

Rating	Description
Substantial Confidence	Based on the offeror's recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available or the offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The offeror may not be evaluated favorable or unfavorable on the factor of past performance.
Limited Confidence	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
No Confidence	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

7.0 EVALUATION OF FACTOR 3 - PRICE (FIRM-FIXED-PRICE) - FACTOR 3, VOLUME IV:

Price analysis of proposed labor rates will be conducted using the techniques found in FAR 15.404-1(b)(2)(i)-(vii).

Offeror's Price proposal will be evaluated as follows.

i. Overall Price Proposal Evaluation: The Price proposal for proposed labor rates will be evaluated for the following:

a. Compliance: The Price proposal submitted by the Offeror will be evaluated for compliance based upon the submission requirements contained in the Section L.

b. Unbalanced Pricing: The Offeror's overall Price proposal will be evaluated for unbalanced pricing as defined in FAR 15.404-1(g). An offer may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the Government (see FAR 15.404-1(g)(1) through FAR 15.404-1(g)(3)).

c. Errors: The Offeror's Price proposal will be reviewed for errors. The Offeror may be given an opportunity to clarify certain aspects of their proposal at the sole discretion of the Contracting Officer via clarifications.

d. Total Evaluated Price: The Total Evaluated Price consists of summing the Offeror's proposed fixed-price for the base year, the four (4) one-year options and the six-month option to extend services.

e. The Government hereby notifies offerors that all offeror pricing may be used to conduct the price analysis even if the offeror does not make it through Phase I and/or Phase II.

ii. To evaluate the option to extend services (FAR 52.217-8) CLINs, one-half of the proposed price for the last year (Option IV) of the performance period shall be added to the Total Evaluated Price.

8.0 ORGANIZATIONAL CONFLICT OF INTEREST ANALYSIS

a. The Contracting Officer will review an offeror's certifications, statements, and OCI Mitigation Plan (if applicable) submitted and may require additional relevant information from an offeror. All such information and any other relevant information will be used by the Contracting Officer to determine whether an award to the offeror may create an OCI. If found to exist, the Government may: (1) impose appropriate conditions which avoid such conflict, (2) disqualify the offeror, (3) determine that it is otherwise in the best interest of the Government to contract with the offeror and include appropriate conditions mitigating such conflict in the contract award, or (4) seek a waiver. If the Contracting Officer determines that an actual or significant potential conflict of interest exists that cannot reasonably be avoided, neutralized or mitigated, the offeror will be ineligible for award. If accepted, the Mitigation Plan shall become part of the contract.

b. An offeror who has refused to disclose the information or make the certification required by this solicitation concerning an actual or potential OCI shall be disqualified from consideration for award.
