4. Statutory Authority Permitting Other Than Full & Open Competition

This J&A is based upon the authority of 10 USC 3204(A) (1), only one or a limited number of responsible sources will satisfy agency requirements, as implemented by FAR 6.302-1

5. Rationale Justifying Use of Cited Authority

A/RMC 3

Acquire, for the second or subsequent time, directly from the actual manufacturer.

A/RMSC R

The Government does not own the data or the rights to the data needed to purchase / contract repair of this part from additional sources. It has been determined to be uneconomical to buy the data or rights to the data. It is uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights. If only one source has the rights or data to manufacture/repair this item, A/RMCs 3, 4, or 5 are valid. If two or more sources have the rights or data to manufacture/repair this item, A/RMCs 1 or 2 are valid.

This acquisition will be solicited to

CAGE CODE 78062, SARGENT AEROSPACE & DEFENSE, LLC. The acquisition/repair of the item listed above will be solicited to Sargent Aerospace & Defense, LLC (CAGE 78062) because they are currently the only capable sources with the technical data required to manufacture/repair, test and certify this item prior to unit delivery and are the only approved manufacturing/ repair sources identified. All alternate sources must qualify IAW the DCA's procedures, as approved by NAVSUP-WSS prior to contract award. Since the NAVY does not possess sufficient rights to data such as drawings, specifications, and/or test procedures, a full and open competitive solicitation cannot be supported. NAVSUP-WSS must procure the item / repair of the item from Sargent Aerospace & Defense, LLC (CAGE 78062).

6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

A Request for Information / Sources Sought Notice was entered on the government-wide point of entry on

A Request for Information / Sources Sought Notice was entered on the government-wide point of entry on

08/07/2025

and as a result

No responses received.

The proposed contract action was synopsisized on the government-wide point of entry on

08/21/2025

and as a result

No responses received.

Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows

The latest configuration has been checked and all records (ITIMP, NSEDR, FLIS, and ERP) have been properly aligned, identified, and documented. This item has been deemed Non-Critical. However, the data necessary to solicit this item from sources other than Sargent Aerospace & Defense, LLC (CAGE 78062) is not physically available. All market research sites were checked which include UNICOR, AbilityOne, GSA, SAM, Haystack and WebFLIS. A review of the mandatory sources of supply was conducted in accordance with FAR 8.002 and DFARS 208.002. None of the mandatory sources of supply are capable of providing this requirement. The FSC is not on the list of FSCs requiring UNICOR be considered as a source of supply. AbilityOne and GSA are not valid sources for this requirement. Requirement is 3R, acquire directly from the manufacturer, Sargent Aerospace & Defense LLC (CAGE 78062) which is a large business source with no small business distributors. Due to having only one large business source, the Contract Specialist recommends issuing the solicitation as Other than Full and Open Competition. A sources sought was posted for 10 days. A DD2579 will be submitted to SBA for approval. A synopsis will be posted for 15 days. This will be awarded as a firm-fixed price contract using LPTA evaluation criteria per DFARS 215.101-2-70(a)(1)(i).

7. Determination of Fair And Reasonable Cost

8. Actions to Remove Barriers to Future Competition

To promote competition, NAVSUP WSS (WSS) will continue to encourage vendors with the expertise to manufacture/repair the subject item to submit a complete technical data package (TDP) for review and source approval by the appropriate engineering source approval authority per the WSS guidelines. Vendors that qualify through the in-service engineering agent (ISEA) certification process will be added as additional sources. Also, future requirements will be advertised in the Contract Opportunities section of <https://sam.gov/>. If another potential manufacturing source emerges, WSS will assess whether competition for future requirements is feasible. This item has been reviewed under the WSS limited screen process and determined that the item cannot be broken out. No additional actions to remove barriers to competition are required under this process.
