

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE U		PAGE 1 OF 28 PAGES	
2. AMENDMENT/MODIFICATION NUMBER 0001		3. EFFECTIVE DATE 30 Apr 2026		4. REQUISITION/PURCHASE REQUISITION NUMBER See Continuation Sheet		5. PROJECT NUMBER (If applicable)	
6. ISSUED BY NAVSUP FLT LOG CTR SAN DIEGO 3985 CUMMINGS ROAD BLDG 116, SAN DIEGO SAN DIEGO, CA 92136 UNITED STATES Noni Arcilla, Email: noni.p.arcilla.civ@us.navy.mil Telephone: 619-556-5662		CODE N00244		7. ADMINISTERED BY (If other than Item 6) SCD: PAS:		CODE	
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code)				☒ (X)		9A. AMENDMENT OF SOLICITATION NUMBER N0024426R3104	
				☒ (X)		9B. DATED (SEE ITEM 11) 16 Apr 2026	
				☐		10A. MODIFICATION OF CONTRACT/ORDER NUMBER	
				☐		10B. DATED (SEE ITEM 13)	
CODE		FACILITY CODE					

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

See Section G - Contract Administration Data

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation data, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

See Schedule

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Juana M. Perez	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA 	16C. DATE SIGNED 30 Apr 2026
(Signature of person authorized to sign)		(Signature of Contracting Officer)	

Previous edition unusable

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): The purpose of this Amendment is to do the following:

1. Add the clause at FAR 52.222-90: "Addressing DEI Discrimination by Federal Contractors," in accordance with the implementation of Executive Order 14398.
2. Make minor spelling changes (see yellow highlights below).

All other terms and conditions remain the same.

The Point of Contact (POC) for this Amendment is Noni Arcilla: noni.p.arcilla.civ@us.navy.mil.

Section C - Description/Specifications/Statement of Work

Miscellaneous text in this section has been modified to:

See 1. Introduction: Commander, Naval Air Forces (COMNAVAIRFORCES) is responsible to the Chief of Naval Operations (CNO) for explosives safety, in accordance with Department of the Navy Explosives Safety Policy Manual (OPNAVINST 8020.14). This responsibility is managed and validated through fleet ordnance operation reviews, inspections and implementation of requirements for ordnance handlers to be trained, qualified and certified prior to handling live ordnance in training and combat. The Navy's goal of zero explosive mishaps drives readiness, manning, training and the material condition of operating areas. COMNAVAIRFORCES accomplishes and verifies this effort through the Weapons Safety and Assistance Team (WSAT) and the Mobile Ordnance Training Team (MOTT) under the guidance/task monitoring of the Force Weapons Officer. WSAT members are active-duty Naval Officers and Chief Petty Officers. The MOTT is comprised of contractors supporting the Force Weapons Officer.

2. Background: The MOTT effort entails fleet readiness at the intermediate maintenance level as detailed in the Naval Ordnance Maintenance Management Program (NOMMP), (OPNAVINST 8000.16). Evaluation of explosives safety, technical data, procedures, life cycle criteria and material support evolve through intermediate level maintenance. MOTT's focus is exporting to the user, ordnance(weaponry) support keyed to providing initial ordnance training in support of OPNAVINST 8020.14 Series and updates for new equipment procedures and policies. This is a continuing task, due to personnel changes, readiness cycles and ordnance evolution and upgrades. The MOTT analyzes the intermediate level maintenance process for potential shortfalls in personnel certification, equipment and material, recommending solutions and providing technical assistance during readiness reviews.

Each member of the MOTT spends approximately 90 days on travel per year completing the tasking. Travel includes domestic and foreign destinations, shipboard underway periods and isolated locations.

3. Scope: The scope of this PWS is to provide COMNAVAIRFORCES all facets of conventional ordnance intermediate level (I-level) training and logistics support for Navy/Marine training and combat operational units to United States Navy (USN) Aircraft Carriers (CVN), Landing Helicopter Assault (LHA)s, Landing Helicopter Dock (LHD)s, Amphibious Transport Dock (LPD), Naval Munitions Commands (NMC), United States Marine Corps (USMC) Marine Corps Air Stations (MCAS), Marine Air Wings, (MAW), Marine Aviation Logistics Squadrons (MALs), Naval Reserve Bases (NRB), Naval Air Facilities (NAF), and Joint Reserve Bases (JRB)s. The contractor will provide comprehensive ordnance training for conventional ordnance qualification and certification and provide weapons life cycle management and support. The contractor shall develop and maintain program control reporting systems required by Department of War (DAW) regulations.

4.0 Applicable Documents: The contractor shall adhere to the most recent version of the following documents:

Table 1: Naval Directives

Type	Title
OPNAVINST 8023.24 SERIES	Navy Personnel Ammunition and Explosive Handling Qualification and Certification Program
OPNAVINST #8020.14 SERIES	Department of the Navy Explosive Safety Policy
CNAFINST 8023.24 SERIES	CVN Explosive Handling Qualification/Certification Program Standardized Training Plan

OPNAV #M-8000.16	Naval Ordnance Management Policy (NOMP)
NAVSEA #OP4	Ammunition and Explosives Safety Afloat
NAVSEA #OP 5	Ammunition and Explosives Safety Ashore
CNAFINST #3500.20 SERIES	Aircraft Carrier Training and Readiness
NAVSUP P-538	Management of materials handling equipment (MHE) and shipboard mobile support equipment (SMSE)

5.0 Performance Requirements:

5.1 Training

Objective: All training conducted by the contractor will be performed and conducted in accordance with the Naval Ordnance Management Policy (NOMP), Ordnance Pamphlet-4 (OP-4), OP-5, applicable Weapons Assembly Manuals (WAM), CNAFINST 8023.24 Series and CNAPINST 3500.20 Series. All training shall be input via individual electronic training record using Corporate Enterprise Training Activity Resource Systems (CeTARS) and /or CNAF Official letters. Ensure all CVN, LHA, LHD, LPD, NMC, MCAS, MAW/MALS, NRB, NAF and JRB weapons/ordnance handling equipment, technical manuals, test equipment and inert training devices used during training are authorized for use and safe for operation.

Historical Data: Table 2 below demonstrates the average the Mobile Ordnance Training Team provides the following training per year. This is not intended to be all-inclusive but is provided as historical information for planning purposes. Actual training is driven by CNAF mission and operational requirements.

Table 2: Historical Average MOTT Training Per Year

# of Instructors	# Days	Trainee/Destination	Number of estimated trips per year
2 Instructors	21 day visit	Naval Air Force (CNAF) Aircraft Carriers (CVN) x 6, including CVN-68, CVN-69, CVN-70, CVN-71, CVN-72, CVN-73, CVN-74, CVN-75, CVN-77, and CVN-78.	6
1 Instructor	5-day visit	Navy Munition Commands (NMC) x 8	8
1 Instructor	5-day visit	Marine Corps Air Stations (MCAS) x 8	8

1 Instru ctor	5- day visit	Joint Reserve Base (JRB) x 1	1
2 Instru ctors	14- day visit	CVN-76 Japan (historically, two trips/yr)	2
1 Instru ctor	5- day visit	Western Pacific (WESTPAC) x 5 (EG., Guam, Hawaii, Okinawa, Misawa, Iwakuni	5
2 Instru ctors	7- day visit	United States Naval Forces Central Command (CENTCOM)	2

Note: x6; x8; x1; x5 etc.... mean the type of location that the team would travel to.

Table 3: Existing Formal Courses

Course Data Processing (CDP)	Course Identification Number (CIN)	Course Title
02SH/01JN	D/E-500-2007	Atlantic/Pacific (LANT/PAC)
02SJ/01DV	D/E-500-2012	Ammunition (Fleet) Sentencing LANT/PAC
02SK/01DW	D/E-500-2014	Quickstrike Mine LANT/PAC
29MS/30MU	E-500-2062	Vertical Replenishment (VERTREP)
20ML	D-500-2050	LPD Conventional Weapons Training LANT

5.1.1 The contractor shall work with NAVAIR 6.6, Weapons Program Management Administration (PMA) engineers and subject matter experts in the development and maintenance of power point ordnance training curriculum including lesson plans, student guides, student handouts, testing plans /tests and continually update the existing curriculum to maintain current status in accordance with applicable regulations and develop curriculum and all related materials for newly introduced weapons and weapons handling equipment.

Objectives and Goals: The goals and objectives of paragraph 5.1.1 are to maintain the following individual Power-point presentations (organized per course):

D/E-500-2007 Conventional Weapons Assembly LANT/PAC:

- (S) Introduction
- (S) Qualification/Certification Program
- (S) Publication and Instructions
- (S) Bombs
- (S) Precision Guided Munitions
- (S) Missiles
- (S) 20/25 Millimeter (MM) Linkless Ammunition Loading System
- (S) Cluster Bomb Unit (CBU) & Pamphlet Dispenser Unit (PDU)
- (S) Armament Weapons Support Equipment
- (S) Racks and Launchers
- (S) Pyrotechnics
- (S) Rockets

D/E-500-2012 Ammunition (Fleet) Sentencing LANT/PAC:

- (S) Introduction
- (S) Fleet Sentencing

D/E-500-2014 Quickstrike Mine LANT/PAC:

- (S) Introduction
- (S) Quickstrike Mine Assembly

E-500-2062 VERTREP

- (S) Introduction/Concept
- (S) Safety
- (S) VERTREP Capable Aircraft
- (S) VERTREP Equipment
- (S) VERTREP Configurations
- (S) Retrograde
- (S) Pre-Flight

D-500-2050 LPD Conventional Weapons Training LANT

- (S) Introduction
- (S) Precision Guided Munitions
- (S) Missiles

Training curriculum includes the courses identified in Existing Formal Courses Table 3, however there is a requirement to develop new training courses (Power-point) when new weapons are introduced. Some of these courses are rolled into the larger course curriculum as well, as the weapons are grouped together by family group (Like missiles or bombs) and old systems are eventually phased out. New course material must be evaluated carefully to ensure there is minimal impact on training length which would significantly lengthen course and underway time. The Navy typically fields one new or significantly updated weapon per year historically. There are seven current courses that exist to support initial training that have been developed independently of the formal (CIN number) courses and can be taught on their own or in combination with the formal courses, they are:

Table 4: Certification and Training

--	--	--

CDP	CIN	Certification Topics
None	None	A/F48T-6A Armament Handling Equipment Test Stand (AHETS)
None	None	LAU-61G/A Digital Rocket Launcher
None	None	Advance Precision Kill Weapons System (APKWS)
None	None	AGM-88E Advance Anti-Radiation Guided Missile
None	None	AGM-84N Harpoon +
None	None	AGM-158 Long Range Anti-Ship Missile (LRASM)
None	None	GBU-53/B Small Diameter Bomb (SDBII)

Objective:

The objective is to increase safety by providing a structured training process supporting the policy and technical requirements contained in Paragraph 4.0.

Frequency of training provided is summarized in the Historical Data section (Table 2).

All units identified in the "Trainee/Destination" column (Table 2) may require any combination of available courses, based on individual operation needs. The training requirements are specifically driven by the OPNAV 8023.24, NAVSEA OP-4, OP-5, and the CNAFINST 3500.20 Series.

Frequency: Refer to the historical data section for data (Table 2).

The contractor shall provide the training on site at the following locations: CVN's, LHA/LHD/LPD, NMC's, MCAS's, MALS, NAFs and JRBs. The Contractor shall provide classroom training, and hands-on, on-the-job training in designated ordnance assembly areas to fleet ordnance personnel and personnel in ordnance related ratings and MOS's.

(Frequency: Approximately one new course per year, depending on Program office requirements)

The courses contain both classroom and hands-on type training. The instructors utilize classroom spaces or mobile classroom equipment to provide classroom topics. This approach enhances comprehension and training effectiveness. The only course that is classroom only is D/E-500-2012 Ammunition Sentencing. All trainees/destinations may require any combination of courses the contractor is responsible for providing depending on operational requirements.

The frequency for all possible training requirements is outlined in the historical Data section. For example, contractors may have to train three (3) CVNs per coast, per year. Each trip is for a duration of approximately 21 days and is comprised of the required classes identified in the **4.0**

Applicable Documents: Table 1: Naval Directives. The actual classes requested by the recipient will vary depending on factors like how many personnel have rotated, or how many require new weapons training.

A designated ordnance assembly area is a space that the Navy and Marine Corps use for the assembly of weapons. The assembly area has all the required tools/and support equipment required to perform these actions as well as store the inert training devices/weapon components. The contractor shall use the receiving command's tools and equipment to teach the course.

5.1.2 Curriculum and related material and data is considered the property of Commander Naval Air Forces and shall be used solely for the purpose of training Commander, Naval Air Force Pacific (CNAP) and Commander, Naval Air Force Atlantic (CNAL) activities and shall not be forwarded, copied or distributed without the express written consent of CNAP Ordnance Handling Officer (OHO).

5.1.3 The contractor shall provide training on weapons safety, stowage, equipment maintenance and configuration functions in accordance with directives identified in section **4.0 Applicable Documents: Table 1: Naval Directives**.

Table 5. Formal Training Course Data

Class	Number of Students	Duration
D/E-500-2007 Conventional Weapons Training	12 - 15 students	5-7 days
D/E-500-2012 Ammunition Sentencing	20 - 25 students	3 days
D/E-500-2014 Quickstrike Mine	12 - 15 students	3 days
E-500-2062 VERTREP	12 - 15 Students	1 day
D-500-2050 LPD Conventional Weapons Training	12 - 15 students	3 days
All individual (non-CIN#) weapons training classes	12 - 15 students	1 day

Class expected frequency and locations are identified in the historical data section (**Table 2**), and paragraph 5.1.1 where the training is stated as "provided on site". The only exception to this is on the east coast. The team there also has the option to use the CNAL weapons training facility that was established to support the aircraft carrier undergoing a refueling evolution, where all training materials and equipment are removed and training at the unit's assembly areas is not possible. This is also further detailed in paragraphs 8.0.1 and 8.0.2. The type of presentation requires both classroom and hands-on. These types of training are required in accordance with OPNAV8023.24 as a basis for qualifying personnel in the handling of ammunition.

5.1.4 The contractor shall provide basic training on ammunition and component requisitioning, receiving, accountability and reporting procedures in accordance with directives identified in section **4.0 Applicable Documents: Table 1: Naval Directives**.

Table 6. Ordnance Management Training Annual Frequency

# Instructors	# Days	Trainee/Destination	Applicable Class	# of Classes
			D/E-500-2007	3-4

2 Instructors	14-day visit	3 CNAF CVN Aircraft Carriers per East/West Coast (6 Total) (EG., CVN- 68 /69/70/71/72 /73/74/75/77/78)	D/E-500-2012 D/E-500-2014 E-500-2062	2-3 2-3 2-3
1 Instructor	5-day visit	Navy Munition Commands (NMC) x 8	D/E-500-2012 AHETS	1 1
1 Instructor	5-day visit	Marine Corps Air Stations (MCAS) x 8	D/E-500-2012	1
1 Instructor	5-day visit	Joint Reserve Base (JRB) x 1	D/E-500-2012	1
2 Instructors	14-day visit	CVN-76 Japan (historically, two trips/yr)	D/E500-2007 D/E-500-2012 D/E-500-2014	2-3 1-2 1-2
1 Instructor	5-day visit	WESTPAC x 5 (EG., Guam, Hawaii, Okinawa, Misawa, Japan and Iwakuni, Japan)	D/E-500-2012 AHETS	1 1

5.1.5 The contractor shall provide training in all facets of weapons sentencing involving receipt, inspection, segregation, stowage and issue of ammunition to and from fleet units. This effort may be part of scheduled support as a specific effort in accordance with directives identified in section 4.0.

(S) It is anticipated that the student will be able to accurately perform the steps required by the P-805 in the identification and documentation (basically the "sentencing") of ammunition components.

(S) The number of classes/locations are identified in the Historical Data section (**Table 2**).

(S) "All facets" identify the areas that make up the ammunition sentencing process. The receipt, inspection, segregation, stowage and issue of ammunition to and from fleet units are the specific sections of the NAVSUP-P-805.

5.1.6 The contractor shall provide training on explosive and non-explosive hazards to personnel and equipment in accordance with directives identified in section **4.0 Applicable Documents: Table 1: Naval Directives**.

5.1.7 The contractor shall provide training on the use, maintenance and configuration of all assigned weapons support equipment (WSE) and material handling equipment (MHE), such as forklifts, weight testing stands and hoists. A valid forklift operator's license will be required if the contractor is required to operate the forklift. The type of forklifts to be operated are Type EE (Reaching and Tiering) and or the standard 6k diesel forklift. NAVSUP Publication 538 Sixth Revision sets the standard for forklift training requirements and the licensing in accordance with directives identified in section **4.0 Applicable Documents: Table 1: Naval Directives**.

5.1.8 The contractor shall provide training on Airborne Weapons Changes (AWC) and Airborne Weapons Bulletins (AWB) that have affected the procedures for assembling weapons in accordance with the applicable Weapons Assembly Manual (WAM). These changes when issued by the individual weapons program office are automatically incorporated into the WAM and are not individual training topics.

5.1.9 The contractor shall provide training on all facets of conventional weapons safety, assembly/ disassembly, testing/programming in accordance with directives identified in section **4.0 Applicable Documents: Table 1: Naval Directives**.

(S) "All facets" are the safety precautions listed (identified specifically as "Safety Summary") in all weapons assembly manuals and policy documents and are emphasized during all stages of the training.

5.1.10 The contractor shall provide training on the inspection, assembly, disassembly and programming of QUICKSTRIKE Mines in accordance with directives identified in section **4.0 Applicable Documents: Table 1: Naval Directives**. The training topics of inspection, assembly, disassembly and programming are processes that are performed when assembling the mines. These procedures are contained in the applicable Weapons Assembly Manual (WAM).

(S) Section 4.0 does not identify each individual WAM because OPNAV M8000.16 Naval Ordnance Management Policy directs the use of the WAM in all Intermediate Level assembly operations.

5.1.11 Unscheduled Training: Upon request by CVN/command/activity, the contractor shall provide refresher training on specific weapons type assembly, disassembly and testing [e.g., air launched missile, precision guided weapons, laser guided bomb (LGB), Joint Direct Attack Munition (JDAM)], in accordance with directives identified in section 4.0. Refresher training can be requested if an activity has not handled a specific weapon type and formal training is necessary to increase its proficiency level. Refresher training can also support specific weapon initial certification in the situation where qualified personnel have transferred, and the command needs to retrain in accordance with OPNAV 8023.24.

(S) This training can typically be accomplished during a shore activity command's 5-day visit to a shore station. CVN platforms' training requirements (CNAFINST 3500.20) will encompass everything they need in its 21-day visit, where it receives all 3 CIN number classes.

5.1.12 The contractor shall maintain, continually update and develop training material for newly introduced weapons and equipment in support of the COMNAVAIRFORCES Standardized Weapons Training Plan (MS Word). These lectures shall be used by fleet activities supporting individual and divisional training. The minimum goal of this task will be to provide the intermediate level maintenance team:

- (a) Standardized aviation ordnance training plans,
- (b) Up-to-date information on weapons and weapon systems,
- (c) Reduce burden on fleet personnel in developing training plans.

(Frequency: Update once annually for approximately 55 individual training lectures)

(S) Updates shall be performed when a new or updated piece of ordnance is introduced to the fleet. These lectures shall be updated when something changes so accurate information is available to the fleet immediately, but the frequency may be changed to read "review annually." This will allow the contractor to make immediate updates when changes happen and review for administrative updates annually (for items like updates to reference material dates etc.)

5.1.13 The contractor shall attend weapons related training programs, Integrated Logistics Support Management Team (ILSMT) conferences, Navy Training Process (NTP), Maintenance Training Requirements (MTRR) reviews and meetings, Explosives Safety Director's conferences and technical publication and manual reviews/conferences. Purpose for attending these meetings and conferences is to stay abreast (current) of changes to existing and newly introduced weapons/systems for future training requirements.

(S) (Frequency: Approximately two (2) per year depending on Commander Naval Education and Training (CNET) and Naval Ordnance Safety and Security Administration (NOSSA) requirements).

5.1.14 The contractor shall review Navy Training System Plans (NTSPs), Navy Training Processes (NTPs), and applicable Maintenance Training Unit course material for accuracy and completeness and provide to the COR, written comments and recommendations for improvement.

(S) (Frequency: Approximately five (5) occurrences per year depending on program office requirements)

5.1.15 The contractor shall provide recommendations on the development and introduction of new weapons, components and support equipment to better implement training programs and promote high levels of safety and expertise.

(S) (Frequency: Approximately two (2) occurrences per year depending on program office requirements)

5.1.16 The contractor shall assist in the production of weapons related training programs (including audio/video) to include curriculum preparation, script writing and verification of procedures for cognizant field activities (CFA) and fleet training units.

(S) (Frequency: Approximately two (2) occurrences per year depending on program office requirements)

(S) Weapons program offices are responsible for providing certain forms of training to fleet personnel and they sometimes generate computer-based courses. The contractor is required to assist the weapons program office in the production of its weapons related training programs by performing a review of the training material to validate/verify the procedures.

5.1.17 The contractor shall review physical condition and quantity of handling equipment and inert training items held by fleet units and formal training activities such as Commander Naval Air Technical Training Unit (CNATTU) and Strike Weapons Schools. The contractor shall provide the COR a report on its review.

(S) (Frequency: See section 5.1 Historical Data (**Table 2**) for expected training trips per year. Requirements are dependent on ship/activity operational schedule)

5.2 Technical Data Support.

Objective: To ensure the technical publications, directives, and manuals that are required for the MOTT Team to conduct quality training are available and current, and that weapons technical libraries are operating in accordance with NAVAIR Manual 00-25-100, Naval Air Systems Technical Manual Program.

5.2.1 The contractor shall provide recommendations on the technical analysis of ordnance publications employed in the intermediate level maintenance of missiles, cluster bombs, general purpose and precision guided bombs, rockets, pyrotechnic materials, mines, support equipment and applicable test equipment. Contractor shall provide written comments, evaluations and recommendations to ensure ordnance publications contain accurate, safe, and current procedures. Historically, there are eight 8 publications/ manuals reviewed per year.

(S) (Frequency: Historically eight (8) to ten (10) publication reviews per year. Frequency will depend on individual weapons project office publication on re-write schedule.)

5.2.2 Prior to conducting training on CNAF CVNs, the contractor shall review the Weapons Department and G-3 Division Technical Publications Libraries, (i.e., two libraries per aircraft carrier) to ensure technical manuals, publications and directives used in training are available and current.

(S) (Frequency: Historically two (2) to three (3) ships per year, per East/West coast MOTT Team. Frequency will depend on the operational schedule of the ship.)

5.2.3 During training, if technical publications, training ordnance or equipment are found to be outdated, deficient, broken, unusable, have unincorporated AWC/AWBs, or are damaged during training, the contractor shall provide comments and recommendations to Weapons Department personnel in the preparation and submission of appropriate feedback report (FBR), in accordance with Navy instruction and/or directive. Such reports include, but are not limited to, quality deficiency report (QDR), technical publication deficiency report (TPDR), , or conventional ordnance deficiency report (CODR) for engineering investigations, in accordance with Navy instruction/directive.

(S) (Frequency: Historically, three (3) to four (4) Unscheduled deficiency reports per year.)

(S) The "Navy Instruction/Directive" is the OPNAV M8000.16. If, while assembling a weapon, any component is damaged, a report shall be generated to inform the individual command's chain of command and the specific weapon program office of the deficiency. The different types of reports quoted apply to different situations.

5.3 Weapons Evaluation.

Objective: To ensure weapon/ship compatibility, proper manning levels and technical proficiency is maintained, and that the safe, compatible, accurate introduction and modification of weapons systems and testing equipment is accomplished by the contractor during its training effort.

5.3.1 In order to provide the most up to date and current training under this contract, the contractor shall attend weapon evaluations, weapon logistic assessment reviews, joint integrated logistic support plan reviews, fleet introduction weapon requirements reviews, ship's weapons installation demonstrations. The contractor shall provide written comments, evaluations, and recommendations as well as incorporate current information into training material.

(S) **Frequency:** On average, twice annually. Frequency will be dependent on ongoing Type Commander (TYCOM) or weapons program office requirements.

5.3.2 In order to provide the most up to date and current training under the contract, the contractor shall attend assurance and operability tests for new construction ships and those completing overhaul, to include but not limited to: Ships Installation Assurance Tests (SIAT), Ships Operability Tests (SOT), Carrier Operability Tests (COT), Yard Walk Through (YWT), and Ship's Suitability Tests (SST). Contractor shall provide written comments, evaluations, and recommendations as well as incorporate current information into training material.

(S) **Frequency:** On average, twice annually. Frequency will be dependent on ongoing TYCOM/Weapons project office requirements.

6.0 Deliverables: The deliverables are as follows:

6.1 CDRL Data Item A001: The contractor shall provide a Monthly Financial Report (MFR) due at the end of the first full work week of each month; the report shall address the following issues at a minimum:

1. Annual Budgeted labor funding & hours and travel funding
2. Actual hours expended for the reporting period
3. Total accumulated hours expended to date
4. Actual labor costs expended for reporting period
5. Total accumulated labor costs to date
6. Travel costs expended for the reporting period
7. Total travel costs to date

6.2 CDRL Data Item A002: The contractor shall submit a monthly status report (MSR) covering all noteworthy events performed/completed in support of tasks listed under section 5.0, particularly section 5.1.7 regarding forklift operator licensing status. The MSR is due the end of the first full work week of each month, in government approved contractor format using Microsoft Office products (e.g., Word, Excel, Access, power point).

6.3 CDRL Data Item A003: The contractor shall prepare and deliver projected travel and training schedules in support of tasks listed under section 5.0. Training schedules are due the end of the first full work week of each month and will project a proposed training schedule as far into the future as practical. These schedules are extremely flexible and subject to change based on ships deployment schedules. Training shall be in government approved contractor format using Microsoft Office products (e.g., Word, Excel, Access, power point).

6.4 CDRL Data Item A004: The contractor shall prepare and deliver trip reports, point papers and/or briefings in support of tasks listed under section 5.0, due NLT 5 working days after event completion. Reports shall be in government approved contractor format using Microsoft Office products (e.g., Word, Excel, Access, power point). 6.4.1 Trip reports are required for all training conducted and shall include, as a minimum:

1. Provide a roster of trainees by command (re: 5.1).
2. Provide the training accomplished and follow-on training scheduled (if required/requested) (re: 5.1).
3. Provide status of CVN Weapons Department Technical Publications Libraries. (re: 5.2.2)
4. Provide status of weapons equipment and ordnance handling issues encountered and corrective action taken.
5. Provide status of Technical Publication Deficiency Reports (TPDR)/Conventional Ordnance Deficiency Reports (CODRS) drafted and/or submitted (re: 5.2.3).
6. Provide status of Airborne Weapons Change (AWC) and/or Airborne Weapons Bulletin (AWB) issues encountered (re: 5.2.3).

6.4.2 Trip reports in support of 5.3.1 and 5.3.2 shall as a minimum:

1. Identify issues discussed,
2. Identify actions taken from previous conferences,
3. Identify actions required of CNAF as identified by hosting activity/agency/command.

6.5 CDRL Item A005: The contractor shall provide a list of all personnel licensed IAW NAVSUP P-538 in forklift operation and provide copies of licenses, with any supporting documentation.

6.6 CDRL Item A006: The contractor shall provide an initial copy of all training material used by the instructors for all classes taught and a copy when the curriculum is updated.

6.7 CDRL Item A007: The contractor shall continually update existing CNAP/CNAL Standardized Weapons Training Program (SWTP) training lectures and provide copies of any newly developed lectures in support of the US Navy/Marine Corps Explosive Qualification/Certification (QUAL/CERT) Program.

7.0 Quality Assurance: **For detailed information regarding Quality Assurance, please refer to Section H - Special Contract Requirements. This section provides guidance on the contractor's responsibilities for implementing the Quality Assurance Surveillance Plan (QASP), including performance monitoring, reporting requirements, and corrective action procedures.**

Table 7. Quality Assurance Surveillance Plan (QASP)

Performance Objective	Performance Standards	Acceptable Level Of Quality (AQL)	Monitoring Method	Rating

Quality	Meets contract technical requirements based on the satisfactory completion of deliverables.	Fulfills contract Technical requirements, was proactive in response and improved methods at least 100% of the time	100% review of contract deliverables	Performance rating will be awarded as follows: Exceptional - 90-100% of the time. Very Good - 80-90% of the time Satisfactory - 70-80% of the time. Marginal - 60-70% of the time. Unsatisfactory less than 60% of the time. Note - Unsatisfactory if a deliverable is not submitted.
Schedule	Meets contract and ship's schedule requirements .	Train the required number of students per ship as required by CNAFINST 3500.20 series, and provide a projected regular/sea hour projection based on known ship's schedule.	Review of contractor regular and sea hours expenditures balanced against known ship's schedule.	Exceptional performance rating if CNAF 3500.20 series requirements are met. Marginal performance rating if not met.
Cost Control	Conforms to Cost Control limits while keeping direct and indirect costs below awarded contract value.	Meets cost control requirements while keeping direct and indirect costs within awarded contract value and in accordance with the Joint Travel Regulation.	Review and projection of contractor invoices	Exceptional performance rating if costs are below awarded contract value. Marginal to unsatisfactory performance rating if costs exceed awarded value.
Business Management	All material handlers	Satisfy government concerns and issues.		Exceptional performance rating upon

na ge me nt	licensed in forklift operation	0% error margin	100%	completion of deliverable
Cu sto me r Sa tisf act ion	Contractor satisfies contract re quirements in terms of producti vity, responsive ness, schedule and cost.	Contractor meets contract requirements with nominal government involvement and guidance. Addresses government concerns.	Customer surveys: 100% Student, Planned sampling for other customers.	Performance rating will be awarded as follows: Exceptional - 90- 100% of the time. Very Good - 80-90% of the time. Satisfactory - 70-80% of the time. Marginal - 60-70% of the time. Unsatisfactory less than 60% of the time.

8.0 Place of Performance/Period of Performance:

The MOTT shall consist of two teams, one physically located in San Diego, CA providing support to Pacific Fleet (PACFLEET) commands; another to be in Norfolk, VA providing support to Atlantic Fleet (LANTFLEET) commands. The work for COMNAVAIRPAC MOTT shall be performed on site, at government facilities located at COMNAVAIRPAC, building 11, NAS North Island CA, including temporary duty (TDY) at COMNAVAIRPAC subordinate shore commands and ships, NMC's and LHA/LHD/LPDs. The work for COMNAVAIRLANT MOTT shall be performed on site, at building V-29, NAS Norfolk VA, including temporary duty at COMNAVAIRLANT subordinate shore commands and ships, NMC's and LHA/LHD/LPDs.

8.0.1 COMNAVAIRPAC MOTT shall primarily provide all training services while Temporary Duty (TDY) to the recipient's location.

8.0.2 COMNAVAIRLANT MOTT shall provide training services in two available locations: at COMNAVAIRLANT building V-29 at NAS Norfolk, VA and while TDY at the recipient's location. It is important to note that Building V-29 is primarily to be used for maintaining the Refueling and Complex Overhaul (RCOH) Carrier's Ordnance QUAL/CERT program while the ship is in an extended dry-dock period and access to training devices is not possible. The use of building V-29 to conduct normal FRTP training will be at the discretion of the COMNAVAIRLANT GUNBOSS and OHO.

8.1 Travel: The contractor shall be required to travel in and out of CONUS, at sea and ashore. Travel shall originate from San Diego, CA or from Norfolk, VA, depending on ship/command to be visited. The contractors are subject to any COVID precautions of the requesting command, in addition to state/local/federal guidelines regarding travel. The contractor shall inform the Contracting officer's representative (COR), in writing, of the estimated total travel costs. Travel shall require approval of the COR or his designee [Technical Point of Contact (TPOC)].

8.1.1 Destinations include: USS Abraham Lincoln, USS Carl Vinson, USS Nimitz, USS John C Stennis, USS Ronald Reagan, USS Dwight D Eisenhower, USS Theodore Roosevelt, USS George Washington, USS Harry S Truman, USS George W. Bush, USS Gerald Ford, USS John F Kennedy, Naval Air Station Lemoore CA, Naval Air Facility El Centro CA, Naval Air Station Whidbey Island WA, Naval Air Facility Misawa Japan, NAWC Pt Mugu, CA, NAWC China Lake, CA, Naval Air Facility Kadena Japan, NAWMU-1 Guam, Naval Support Facility Diego Garcia, Naval Air Facility Atsugi Japan, Marine Corps Base Kaneohe Bay HI, Naval Station Sigonella Italy, Naval Air Station Patuxent River MD, Naval Air Station Norfolk VA, Naval Air Station Oceana VA, Naval Air Station Mayport FL, Naval Air Station Jacksonville FL, Naval Air Station and Key West FL, MCAS Miramar, CA, MCAS Iwakuni, JA, MCAS Cherry Pt, NC, MCAS Beaufort, NC, and JRB Dallas Fort Worth, TX. LHD/LHA class ships upon request. Destinations provided are not intended to be all inclusive but are provided as historical information for planning purposes. Actual travel is driven by DON/CNAF mission and operational requirements.

8.2 Period of Performance:

8.2.1 This contract effort is for a base year plus (4) one year option contract.

Base Period: 1 July 2026 to 30 June 2027

Option Period 1: 1 July 2027 to 30 June 2028

Option Period 2: 1 July 2028 to 30 June 2029

Option Period 3: 1 July 2029 to 30 June 2030

Option Period 4: 1 July 2030 to 30 June 2031

8.2.2 Hours of Operation: Work shall be performed during the government's regular business hours, which are Monday through Friday between the hours of 0700 and 1530, except federal holidays. The contractor is not required to provide services on federal holidays. Federal holidays are Columbus Day, Veterans Day, Thanksgiving Day, Christmas Day, New Year's Day, Martin Luther King Jr. Day, Presidents Day, Memorial Day, **Juneteenth**, Independence Day and Labor Day. Overtime hours to support travel and work may be required by contractor outside of normal business hours, on weekends/holidays in order to meet ships' schedules and to satisfy restriction of movement (ROM) periods required during times of public health emergencies. Overtime hours must be authorized in writing by the COR.

8.2.2.1 Hours of Operation at Sea:

During training evolutions conducted on board ship underway, work shall be performed 12 hours each day for the duration of the evolution. Specific hours of operation shall be determined IAW the ship schedule.

9.0 Government Furnished Equipment (GFE)/Government Furnished Information (GFI):

NMCI access is required since contractors will be in government facilities and will be required to access the NMCI local area network. The government shall provide standard office furnishings/ equipment for contractors assigned to government facilities, e.g., desks, telephones, PCs, audio visual equipment, and access to NMCI shall include access to applicable ordnance-related web sites.

10. 0 Level of Effort

Labor Hours for five-year effort is 106,100.

For comprehensive details regarding the Labor Level of Effort, please refer to Section H - Special Contract Requirements. This section outlines the government's best estimate for each labor category, providing essential guidance on the expected workload and resource allocation for each role. It serves as a key reference for understanding the labor requirements and ensuring alignment with contractual expectations.

11.0 Contractor Personnel Requirements:

11.1 Qualifications:

Qualifications for the Project Manager:

(S) Proficiency in Microsoft-related programs and operating systems (e.g. PowerPoint, Word, Excel, Adobe writer reader) is required.

(S) Experience in Department of War (DOW) Contract administration, communicating directly with the Technical POC, and COR regarding schedule, security clearance administration, and compliance with the Joint Travel Regulations (JTR).

Qualifications for Instructors:

Specialized Experience, Education and General Experience Requirements (applicable to the MOTT Instructor position):

(S) **Specialized Experience:** Performance of this work statement requires broad technical background, knowledge, skills, and experience in the Navy and Marine Corps aviation ordnance CVN, LHA, LHD, LPD MCAS/MALS/MAWS, NRB, NAF and JRB weapons/ordnance handling equipment, technical manuals, test equipment and inert training devices. Operations rating/military occupational specialty (MOS), to include:

(S) US Navy/USMC Air Weapons Assembly experience (At least one tour in a dedicated Intermediate level maintenance activity)

(S) Shipboard Aviation Weapons Support Equipment, inspection and configuration criteria.

(S) Shipboard weapons magazine maintenance criteria.

(S) Quickstrike Mine Assembly/Disassembly and testing.

(S) Shipboard Weapons Department Quality Assurance Division Duties & Responsibilities.

(S) **Education Requirements:** Successful completion of the following courses is required:

(S) C-122-3111, Air Launched Guided Missile

(S) C-122-3113, Precision Guided Weapons

(S) C-646-4106, QUICKSTRIKE Mines

(S) C-646-4108, Air Launched Weapons Ordnance Supervisor

(S) **General Experience:** Skills required include Instructor/teaching experience (NEC: 805A/Legacy 9502, or Marine instructor), experience writing technical papers, curriculum development experience (Instructional Systems Design, ISD), computer Based Training (CBT) development and facilitating training in a team environment. Proficiency in Microsoft-related programs/operating systems (e.g. PowerPoint, Word, Excel, Adobe writer reader) is required.

The education, general experience and specialized experience offered in the proposal shall be the performance standard for each position offered for the duration of the contract. Contractor personnel must be able to manage multiple tasks at one time; coordinate with other personnel within the command; and develop strategies to optimize task performance, ensure efficiency, achieve accurate data reporting and achieve a high level of customer satisfaction.

Physical Requirements: Contractor personnel must be able to endure prolonged standing, and ascend and descend vertical ladders (e.g., movement between decks on board CVNs may require climbing as many as six eight-foot ladders numerous times during the day). When training is conducted on board CVNs, contractor personnel will be required to identify medical conditions and prescriptions. Certain medications may restrict or deny access to CVN/shipboard stays (varies from ship to ship, at the discretion of the CVN Senior Medical Officer).

Forklift operation: Contractor personnel will be required to have current and valid forklift licensing. NAVSUP Publication 538 Sixth revision provides guidance on training and licensing requirements. The type of lifts that will be operated aboard US Navy ships are at Type EE Reaching and Tiering forklift and or a 6k diesel forklift

11.2 Security Clearances: For detailed information regarding security clearance requirements, please refer to Section H - Special Contract Requirements, which outlines the necessary personnel clearances, background investigations, and compliance procedures required under this contract.

Section I - Contract Clauses

Additional Information/Notes

The following clauses were added:

FAR Clauses Incorporated by Reference

Number	Title	Effective Date	Alternate/ Deviation	Variation Effective Date
52.222-90	Addressing DEI Discrimination by Federal Contractors. (Deviation 2026-O0038)	Apr 2026		

The following clauses were modified:

52.222-2 **Payment for Overtime Premiums. (Deviation 2026-O0038)** **Feb 2026**
hereby reads as follows:

Payment for Overtime Premiums (Feb 2026) (Deviation 2026-O0038)

(a) The use of overtime is authorized under this contract if the overtime premium cost does not exceed * **TBD at task order award** or the overtime premium is paid for work-

(1) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(2) By indirect-labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(3) To perform tests, industrial processes, laboratory procedures, loading or unloading of transportation conveyances, and operations in flight or afloat that are continuous in nature and cannot reasonably be interrupted or completed otherwise; or

(4) That will result in lower overall costs to the Government.

(b) Any request for estimated overtime premiums that exceeds the amount specified above must include all estimated overtime for contract completion and must-

(1) Identify the work unit; *e.g.*, department or section in which the requested overtime will be used, together with present workload, staffing, and other data of the affected unit sufficient to permit the Contracting Officer to evaluate the necessity for the overtime;

(2) Demonstrate the effect that denial of the request will have on the contract delivery or performance schedule;

(3) Identify the extent to which approval of overtime would affect the performance or payments in connection with other Government contracts, together with identification of each affected contract; and

(4) Provide reasons why the required work cannot be performed by using multishift operations or by employing additional personnel.

* Insert either "zero" or the dollar amount agreed to during negotiations.

(End of clause)

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

Miscellaneous text in this section has been modified to:

h

1.0 GENERAL INSTRUCTIONS

(S) This solicitation is issued as a **100%** Service-Disabled Veteran-Owned Small Business (SDVOSB) **Set-Aside** for SeaPort NxG contract holders only, using Fair Opportunity procedures in accordance with FAR**16.505 (b) (1)**. The applicable North American Industry Classification System (NAICS) code is **541330-1 Military and Aerospace Equipment and Military Weapons** with a corresponding small business size standard of \$47 million.

(S) The Government contemplates the award of a Cost-Plus-Fixed-Fee (CPFF) Task Order in support of Commander, Naval Air Force, U.S. Pacific Fleet Mobile Ordnance Training Team (MOTT). Proposals will be evaluated using a trade-off process. The anticipated period of performance includes one base year and four one-year option periods. All option periods will be evaluated prior to award.

(S) Any exception to the Government's technical requirements or specifications must be resolved prior to the closing date. Offerors that take exception without prior resolution from the Contracting Officer will not be considered for award. Alternate proposals are not authorized and will be rejected.

(S) The Government intends to award a Task Order without discussion. However, the Government reserves the right to request revised proposals in accordance with FAR 16.505(b)(1)(ii). The Government also reserves the right to amend the solicitation at any time prior to award and to allow offerors to revise proposals accordingly.

(S) All questions regarding this procurement shall be submitted via email to BOTH Naima Yelda at naima.yelda.civ@us.navy.mil and Noni Arcilla at noni.p.arcilla.civ@us.navy.mil. The subject line of all email correspondence must state Solicitation N00244-26-R-3104 MOTT QUESTION(S) in the subject line. Questions submitted through other methods will not be acknowledged. While the Government will make every effort to respond to questions in a timely manner, questions submitted within seven (7) days of the closing date may not receive a response. All questions and answers will be posted for all potential offerors.

(S) The Government reserves the right to reject any or all proposals if such action is in the best interest of the Government.

(S) An offeror's proposal shall represent its best effort to respond to the solicitation and must demonstrate a clear, comprehensive understanding of the requirements and their interrelationships. The proposal shall reflect familiarity with the detailed aspects of the requirement and clearly show that all requirements have been correctly interpreted. Responses must specifically address the requirements of this solicitation; merely restating the requirements or paraphrasing the solicitation is insufficient.

(S) Statements such as "the offeror understands" or "the offeror shall/can comply," without substantive supporting detail, are inadequate. Likewise, general references to "standard practices" without citation to recognized Government or industry standards are unacceptable. Proposals shall be concise, practical, and include quantitative descriptions wherever possible. Excessive marketing materials, elaborate formatting, or unnecessary embellishments are discouraged.

(S) Clarity, completeness, and internal consistency are critical. Proposals that are internally inconsistent or lack sufficient detail may be deemed unrealistic and unacceptable. Failure to comply with these instructions may result in elimination from further consideration or lower evaluation ratings.

(S) Proposals must be submitted as a complete, stand-alone document. The Government will not consider any information incorporated by reference or data previously submitted. It is the offeror's responsibility to ensure all necessary information is contained within the proposal itself.

(S) At the Government's discretion, the offeror's proposal may be incorporated into the resulting contract, in whole or in part.

(S) After the solicitation closing date, the Contracting Officer may request additional information to determine an offeror's responsibility.

(S) Proposals shall contain only UNCLASSIFIED information and must be signed by an authorized company representative. If any portion of the proposal is prepared by another entity, the offeror must identify that individual or firm, their role, and their authority.

(S) Each page of the proposal shall include the legend: "**Source Selection Information - See FAR 2.101 and 3.104.**"

2.0 PROPOSAL FORMAT

Offerors shall submit proposals in the following format:

(S) Volume I - Cover Letter and Offer

(S) Volume II - Technical Narrative

(S) Volume III - Past Performance

(S) Volume IV - Cost

Table L.1 Proposal Submission Requirements

Volume Name	Content	Page Limit	Number of Copies
Volume I	Cover Letter and Offer *	No Limit	(1) Electronic Copy
Volume II	Technical Narrative **	25 Pages Maximum , exclusive of title page, table of contents, table of figures, and DD254	(1) Electronic Copy
Volume III	Past Performance	5 Pages Maximum , exclusive of title page, table of contents, and Offeror's Past Performance Data (OPPD) - Attachment 2	(1) Electronic Copy
Volume IV	Cost Proposal	No Limit	(1) Electronic Copy

* This includes a filled out and signed copy of the original solicitation document and all amendments.

**** Volume II shall not contain any price or cost information.**

Important: Proposals shall be submitted electronically via email to BOTH **Naima Yelda** at naima.yelda.civ@us.navy.mil and **Noni Arcilla** at noni.p.arcilla.civ@us.navy.mil. The subject line of the email shall clearly state: "**N00244-26-R-3104 MOTT Proposal.**" Offerors are responsible for ensuring that proposals are received in their entirety by the specified due date and time. **Mailed or hand-delivered proposals will not be accepted.**

Submission of Volumes I-IV constitutes a complete proposal and signifies the offeror's unconditional acceptance of all solicitation terms, conditions, attachments, and exhibits, except for any specifically identified exceptions.

Proposals must be submitted in Adobe PDF, Microsoft Word or Excel format. Zip files are not permitted. Other file formats may be deemed inaccessible and considered mishandled. All submissions must be received by the specified closing date and time.

Formatting Requirements

- (S) Font: Times New Roman or Courier, 12-point
- (S) Spacing: Single-spaced
- (S) Paper size: 8.5 x 11 inches
- (S) Margins: Minimum 1 inch
- (S) Graphics/tables: Minimum 10-point font
- (S) No hyperlinks permitted

Pages shall be sequentially numbered. The Contracting Officer will not evaluate any pages that exceed the specified page limitations. Pages excluded from the page limitations may be numbered separately or need not be numbered. Any content exceeding the stated page limits will not be considered in the evaluation.

3.0 PROPOSAL CONTENT

Each volume shall contain the following items in addition to the information required by this solicitation:

A. Volume I - Cover Letter and Offer

(S) **Cover Letter:** The cover letter should have the following information:

- Title of the proposal
- Name of the Company
- Physical address of the Company
- Name, email and phone number of the Company point of contact
- Solicitation number
- Volume number (I, II, III, or IV)
- Commercial and Government Entity (CAGE) Code, Data Universal Number System (DUNS)
- **Table of Contents:** The table of contents should provide sufficient detail as to allow the important elements to be easily located. The use of tabs and dividers is encouraged.

(S) **Offer:** The offer consists of submitting the following documents:

(S) **SECTION B "Supplies or Services and Prices:"**

- o Offerors must complete each CLIN in section B with estimated cost and proposed fee.

(S) **Standard Form 33 Solicitation, Offer, and Award or SF33 & Amendment of Solicitation /Modification of Contract or SF30:**

- o An authorized person shall sign the proposal (SF33) and all amendments (SF30) (if applicable). Contractors are required to provide an offer based on the most up to date information provided by the government.

B. Volume II - Technical Narrative

Volume II of the written proposal is the Technical Volume and is comprised of the Factor, and Sub-factors. No cost or pricing information shall be included in any part of the Technical Volume. The technical section of Volume II shall be divided into three clearly labeled sections, correlating to the three sub-factors, in order. The Government requires the information described below to evaluate the offeror's ability to perform. Failure to adequately address any of the required information may constitute a "material omission," which may preclude further consideration for award. Offerors shall ensure that each sub-factor section clearly addresses the descriptions below.

Factor I - Technical Narrative

Sub-factor (1) -Technical Approach

Sub-factor (2) - Staffing Plan & Management Plan

Sub-factor (3) - Quality and Management Controls

The Technical Narrative Proposal shall consist of no more than **25 pages**, excluding title page, table of contents, table of figures, and DD254 - Security Requirements. Offerors are cautioned that no more than the first **25 pages** of their Technical Expertise Proposals will be evaluated. If any offer is not in compliance with the page limitation on Technical Proposals, the extra pages will be removed and not evaluated. Each page shall be affixed with the following legend: "**Source Selection Information - See FAR 2.101 and 3.104.**"

Sub-factor (1) Technical Approach:

Offerors shall demonstrate a clear understanding of the Performance Work Statement (PWS) and present a detailed, feasible technical approach for successfully executing all requirements and objectives. At a minimum, proposals shall include: (1) a comprehensive plan for delivering effective, high-quality training services; (2) an approach to recruiting, qualifying, and retaining skilled instructors; (3) methods for efficiently managing multiple, concurrent tasks; (4) processes to ensure effective and seamless coordination with Government personnel; (5) procedures to ensure data accuracy and timely reporting, including compliance with all Contract Data Requirements Lists (CDRLs); and (6) strategies to achieve and sustain high levels of customer satisfaction.

Sub-factor (2): Staffing Plan & Management Plan

The Offeror shall submit a single, integrated Staffing and Management Plan that describes the administrative, supervisory, and resourcing approach for the entire contract. The plan shall demonstrate the Offeror's ability to assume full performance responsibility in an efficient and cost-effective manner. The submission shall include both narrative and organizational or functional charts depicting lines of authority and responsibility. At a minimum, the plan shall address the following:

- **Resource and Staffing Approach:**

Describe how all PWS tasks will be resourced, including proposed labor categories, qualifications, skills, and labor mix in accordance with paragraphs 11.0 and 11.1 of the PWS. Demonstrate the ability to achieve and sustain full staffing, including approaches for recruitment, retention, training, and managing fluctuating personnel requirements.

- **Management and Command Structure:**

- Define the chain of command, reporting relationships, and roles of on-site and off-site management. Describe processes for resolving technical, funding, and performance issues. If subcontractors or "teaming" partners are proposed, describe the integration and management approach to ensure accountability.

- **Security and Compliance:**

Outline the approach to meeting all security requirements (e.g., SECNAV M-5510.30, SF-85P). The Offeror shall also verify that its facility clearance level meets or exceeds the requirements specified in DD254 at the time of proposal submission.

Sub-factor (3): Quality and Management Controls

The Offeror shall describe the processes and management controls that will be implemented to ensure performance excellence. This must include:

- A detailed methodology for each tasking area that demonstrates an efficient and practical approach.
- Quality assurance measures to maintain a high level of performance.
- A plan for managing multiple requirements simultaneously without compromising customer satisfaction or performance standards.

C. Volume III - Past Performance

(S) Past Performance will be evaluated based on the submission of past performance data supplied by the offeror's reference/s, the Government's verification of that data (including information supplied separately by previous customers), and review of any other pertinent information. Offerors shall contact their past performance references and request that each reference complete the "Offeror's Past Performance Data" (OPPD) - Attachment#2.

(S) Completed OPPDs shall be submitted by email directly to BOTH **Naima Yelda** at naima.yelda.civ@us.navy.mil and Noni Arcilla at noni.p.arcilla.civ@us.navy.mil no later than the closing date of this solicitation. The subject line of the emailed OPPD must read "**N00244-26-R-3104 MOTT OPPD**". Offerors may submit up to three (3) OPPDs as the prime contractor; subcontractors may submit up to two (2) OPPDs.

(S) In addition to the OPPD, offerors shall submit **Volume III**, consisting of a two to five-page past performance narrative. This volume shall identify all proposed references, in the OPPD, and provide a description of each effort, addressing scope (e.g., training, curriculum development, ordnance handling), complexity (e.g., technical difficulty, multi-site support, concurrent tasks), and magnitude (e.g., dollar value, number of personnel, training throughput).

(S) The narrative shall also include the type of training performed (e.g., ordnance handling, explosives safety, weapons systems), curriculum development activities, instructor qualifications and staffing approach, training methods (including use of simulators or specialized equipment), number of personnel supported or students trained, and locations supported (CONUS/OCONUS, as applicable).

(S) For each reference, offerors shall provide the reference name, address, phone number, email address, and relevant identifying information (e.g., contract number and type of work performed).

(S) Past Performance references may include federal, state, or local Government and private contracts performed by the offeror that were similar in nature for this effort being evaluated.

(S) Offerors may submit past performance information regarding the following: predecessor companies, personnel labor who have relevant experience and subcontractors that will perform major aspects of the requirement.

(S) Offerors may submit performance data regarding current contract performance as long as a minimum of one year of performance has been completed as of the closing date of this solicitation. Relevant past performance will be evaluated and receive scores in consonance with the evaluation scheme set forth in the solicitation.

(S) If the offeror possesses no relevant past performance, it must affirmatively state this fact in Volume II submittal.

Volume IV - Cost Proposal

Cost and Price Instructions

(S) The Government intends to award a SeaPort task order consisting of a one-year base ordering period and four one-year option periods, for a total potential period of performance of five (5) years. Offerors shall submit a cost proposal covering the base period and all option periods. The Government will evaluate the base period and all option periods for purposes of award.

(S) To be eligible for award, the offeror shall have an adequate Cost Accounting System, as determined by the Defense Contract Audit Agency (DCAA), in accordance with FAR 16.301 and DFARS 252.242-7006, Accounting System Administration, prior to contract award.

(S) There is no page limitation for the cost proposal. However, the cost proposal shall be strictly limited to cost and pricing information and shall not include extraneous narrative or promotional material beyond that expressly required by these instructions.

(S) The offeror shall hold its proposed prices firm for a period of 180 calendar days from the date specified for receipt of offers.

(S) The offeror shall submit a cost proposal narrative that provides a detailed breakdown of all proposed cost elements for which reimbursement is requested. The offeror shall utilize the Microsoft Excel template titled "Cost Proposal MOTT" provided as an attachment in section J of this solicitation and shall submit the completed template in conjunction with the cost proposal narrative. Other cost templates will not be accepted.

(S) The offeror shall submit a complete electronic copy of the cost proposal. Narrative portions shall be provided in PDF format, and all schedules shall be submitted using Excel with fully functional formulas and links. In addition, the figures (numbers) presented in the Cost Proposal Narrative, the "**Cost Proposal MOTT**" template, and Section B shall be consistent and identical. Any discrepancies among these documents may result in Volume IV being rated unacceptable.

(S) The cost proposal shall include information concerning the general financial condition of the offeror and its specific plans for financing performance of the contract.

(S) The offeror shall provide one (1) copy of its cost proposal to the cognizant DCAA office concurrently with submission to the Procuring Contracting Officer. This requirement also applies to any proposed subcontractor.

(S) The offeror shall clearly identify all assumptions, conditions, and exceptions, if any, upon which its proposal is based. Any exception to the terms and conditions of the solicitation shall be explicitly stated in the cost proposal (**Volume IV**). For each exception, the offeror shall:

- o Identify the specific solicitation term or condition.
- o Provide a detailed rationale; and
- o Include any supporting information necessary for evaluation.

(S) The Government reserves the right to reject any proposal that takes exception to the solicitation terms and conditions.

Pricing Format and Supporting Information

The offeror shall submit a comprehensive Cost Proposal Narrative that fully explains and supports the proposed costs. The narrative shall provide sufficient detail to enable the Contracting Officer to understand the basis of the proposed total cost. At a minimum, the narrative shall include:

- o Labor Categories
- o Labor Hours:
- o Other Direct Cost
- o Labor Rates
- o Direct Labor Cost
- o Labor Escalation

- o Indirect Rates
- o Indirect Costs
- o Compensation Plan
- o Subcontracts (if proposed)
- o Major Subcontractors
- o New Cost Centers
- o Facilities Capital Cost of Money (FCCM)
- o Profit/Fee
- o Historical Rates.

Labor Categories: Labor categories specified in "**Table L2. Labor Categories & Labor Hours**" may be required for performance under this contract. It is acknowledged that Government's terminology may differ from the offeror's. The cost proposal must include both Government and offeror terminology to demonstrate clearly consistency with labor categories and resumes submitted in the technical proposal. If the Offeror fails to include this information in its original offer, the proposal may be deemed unacceptable as it may not be auditable or evaluable.

Labor Hours:

Offeror shall use **Table L2. Labor Categories & Labor Hours** to compute total direct labor costs. These hours represent Government's current best estimate of requirements and do not necessarily reflect the number of hours that will be incurred during the performance of the contract. Each offeror shall allocate the labor as identified below for the base and subsequent Options. There is a one-year base period, four options, a total of five years. The yearly level of effort for use in computing total direct labor costs is **21220** direct labor hours per year and are broken down as follows.

In addition, Offeror shall provide a schedule, by CLIN, that identifies, by labor category, the hours proposed by the prime and the hours proposed by each subcontractor or consultant, reconciling to total proposed hours for the CLIN.

Definition of Subject Matter Expert (SME)

Experience and Education: A Subject Matter Expert (SME) is an individual whose qualifications and specialized expertise are exceptional or highly unique. SMEs are not defined by specific minimum education or experience requirements; rather, they are recognized as industry leaders within their respective areas of expertise, based on the depth of their knowledge, demonstrated experience, and professional reputation.

SME III (Senior SME)

- Deep expertise (often 15+ years)
- Recognized authority in the field
- Leads complex efforts, develops curriculum, advises leadership
- Typically aligns with senior military (E-7/E-9) or equivalent

Subtotal Direct Labor	21220

* The number of hours for each labor category will remain the same for each option year, from Option Year 1 through Option Year 4. Refer to "Cost Proposal MOTT" template in section J. In addition, although actual hours performed may vary, offerors must submit a cost proposal based on this level of effort to be considered for evaluation and award.

Other Direct Cost

The Government recognizes that certain cost elements (e.g., travel, materials, and incidental expenses) cannot be reasonably predicted at the time of proposal submission. To ensure consistency, the Government has established annual ODC estimates, offeror shall propose ODCs in accordance with the amounts specified in Table L-3 "*Other Direct Cost*," The offeror shall apply its standard burden to the ODC amounts consistent with its established indirect rate structure and cost accounting practices.

The proposed pricing shall include the solicitation-specified ODC amounts plus the applicable calculated burden. If the offeror does not apply burden to these costs, or if the offeror's standard accounting practices provide for such burden but

the offeror omits it from the proposal, the associated burden will not be considered an allowable cost for any task order awarded under the resulting contract.

Table L-3 Other Direct Costs (ODCs)

ODCs	Base Year	Option Year 1	Option Year 2	Option Year 3	Option Year 4	Total
Travel - PAC	\$59,697	\$59,697	\$59,697	\$59,697	\$59,697	\$298,485.00
Travel - LANT	\$34,823	\$34,823	\$34,823	\$34,823	\$34,823	\$174,114
Material	\$13,820	\$300	\$300	\$300	\$300	\$15,020
Total	108,340.00	\$94,820.00	\$94,820.00	\$94,820.00	\$94,820.00	\$487,619.00

Note: Although actual ODCs may vary, offerors must submit a cost proposal based on this level of effort to consider for evaluation award.

Labor Rates

The offeror shall propose direct labor rates based on actual salaries for all labor categories. Composite or weighted average rates may be used where appropriate. The offeror shall provide a detailed explanation of how direct labor rates were developed (e.g., actual salaries, labor surveys, internal labor categories, or composite rates). Detailed calculations supporting the proposed rates for each labor category and CLIN shall be included.

A separate schedule of internal salary/category rates shall be provided for potential submission to DCMA/DCAA for verification. The offeror shall indicate whether it is subject to a Forward Pricing Rate Agreement (FPRA) for direct labor rates and, if so, shall provide a copy of the agreement.

Direct Labor Cost

The offeror shall provide detailed schedules calculating labor costs by labor category and by contract year.

Labor Escalation

Offeror shall describe development of proposed labor escalation rate(s) (e.g., historical costs/judgment/other sources), along with the offeror's historical labor escalation rate for the previous three fiscal years.

Indirect Rates

The offeror shall provide a table summarizing proposed indirect rates (e.g., fringe, overhead, material handling, G&A) by contract year in a format suitable for DCMA/DCAA review. The offeror shall describe the associated pools and bases and provide calculations of any composite rates used.

Note: If proposed indirect rates are lower than an existing FPRA or DCAA-approved provisional billing rates, the offeror must certify its willingness to cap those rates for the life of the contract.

Indirect Costs

Detailed pricing schedules shall be provided by contract year showing the application of indirect rates to their bases and the resulting calculated costs.

Compensation Plan

The offeror shall submit its compensation plan for professional employees, including salary and fringe benefit policies, in accordance with FAR 52.222-46, *Evaluation of Compensation for Professional Employees*. Compensation plan shall include:

- o A description of the policies governing merit increases and length-of-service increases within proposed labor rate ranges, including the minimum amount and frequency of such increases; and
- o A detailed description of the fringe benefit package, including all components (e.g., life insurance, health insurance, bonuses or incentives, and leave).
- o For purposes of this solicitation, the terms compensation package and fringe benefit package are used interchangeably. The Government will evaluate the proposed compensation and fringe benefits to determine whether they reflect a fair and reasonable value.

Subcontracts (if proposed)

The offeror shall provide a schedule identifying all proposed subcontractors and their total proposed costs. The offeror shall also provide a schedule of subcontractor hours by labor category, along with supporting schedules that apply proposed subcontractor rates to the corresponding hours, resulting in total costs that reconcile with the proposed subcontractor amounts. Additionally, the offeror shall identify the contract type (e.g., CPFF, T&M, FFP) proposed for each subcontractor.

Major Subcontractors

Any subcontractor or consultant proposing \$2 million or more in costs is considered a major subcontractor. Each major subcontractor shall submit its proposal directly to the Contracting Officer, under separate cover, at the same level of detail required of the prime offeror.

New Cost Centers

If new cost centers are proposed, the offeror shall provide historical data for existing cost centers performing similar work.

Facilities Capital Cost of Money (FCCM)

If FCCM is proposed, the offeror shall submit calculations using DD Form 1861 (or equivalent), including applicable cost of money base rates and the percentage allocation across land, buildings, and equipment. A copy of the most recent CASB-CMF shall also be provided.

Profit/Fee: Offeror shall identify proposed profit/fee rate(s) and application base(s) (e.g., 4.0% on burdened labor cost, 2.0% on burdened subcontract cost, 0.0% on burdened ODC). If applicable, offeror to describe the different rates of profit and fee for FFP and CPFF task orders, respectively. Offeror is invited to submit a completed DD Form 1547 'Record of the Weighted Guidelines Application' in support of the proposed fee rate(s).

Historical Rates. Offeror shall provide historical direct labor rates by labor category for the three most recent completed fiscal years. For each proposed indirect/service center/FCCM rate, offeror shall provide historical rates for the three most recent complete fiscal years, separately identifying projected vs actual rates as in the following example:

2025 2024 2023

Projected at start of year

Incurred at end of year

Submission of Cost or Pricing Data

It is anticipated that this procurement will be awarded based on adequate price competition; therefore, certified cost or pricing data (SF 1411) is not required at proposal submission. However, if the Contracting Officer later determines that adequate price competition does not exist, the offeror shall provide certified cost or pricing data upon request.

Additional Required Information

The following are additional information, if available; offerors must submit this additional information as an appendix /enclosure to the cost proposal. If the information is already provided elsewhere in the proposal, identify page and section number of the information's location:

Offeror shall provide the following additional information as an appendix/enclosure to the cost proposal. If the information is already provided elsewhere in the proposal, identify page and section number of the information's location:

- (S) DCAA office, Supervisory Auditor POC, phone number, email address, street address
- (S) DCMA office, ACO POC, phone number, email address, street address
- (S) DUNS number
- (S) CAGE Code
- (S) TAX ID
- (S) Fiscal Year (e.g., calendar year; year ending 31-July-20xx)
- (S) Brief description of company organization, parent organization if applicable, number of divisions, number of employees, annual revenues for the past three years, share of revenues provided by Govt vs Commercial, product lines, customers.
- (S) Date the accounting system was considered acceptable or approved by
- (S) DCAA/DCMA
- (S) Copy of letter from DCAA/DCMA regarding acceptability of accounting system
- (S) Date the billing system was considered acceptable or approved by
- (S) DCAA/DCMA
- (S) Copy of letter from DCAA/DCMA regarding acceptability of billing system
- (S) Date the purchasing system was considered acceptable or approved by
- (S) DCAA/DCMA
- (S) Copy of letter from DCAA/DCMA regarding acceptability of purchasing system
- (S) Date of the latest financial capability audit by DCAA/DCMA
- (S) Copy of letter/report from DCAA/DCMA regarding financial capability
- (S) Date of Disclosure Statement
- (S) Date of Disclosure Statement approval by ACO
- (S) Copy of latest Forward Pricing Rate Agreement or Forward Pricing Rate
- (S) Proposal
- (S) Copy of latest approved Billing Rate letter

(S) Offeror will provide discussion of its financial capability to perform the contract. The discussion will identify the results of any DCAA/DCMA financial capability reviews, ability to obtain financing, current financial status, etc.

(End of provision)
