52.212-2 Evaluation—Commercial Products and Commercial Services (Aug 2025) (DEVIATION 25-21) (effective November 28, 2025)

Is not applicable to this requirement. In lieu of this provision, proposals will be evaluated in accordance with FAR Subpart 13.106, based on the evaluation factors listed below. Proposals will be evaluated utilizing the Lowest Price Technically Acceptable (LPTA) process to achieve best value to the Government.

- **Factor 1** – Technical Acceptability
- **Factor 2** – Past Performance
- **Factor 3** – Price

1. Factor 1: Technical Acceptability

- a. Submission Requirements: Technical Acceptability will be evaluated to determine an overall rating of “acceptable” or “unacceptable”. Technical Acceptability will be evaluated on the ability of the offeror to provide new manufactured commercial items approved by an Original Equipment Manufacturer(s) (OEMs) or an OEM authorized distributor.

CLAUSES, PROVISIONS, AND TERMS AND CONDITIONS
70Z03826QB0000013

- b. Newly manufactured commercial items will only be procured from sources able to provide a Certificate of Conformance (CoC) per FAR 52.246-15 and traceability to the OEM. 14 CFR Part 21 outlines certification procedures. Traceability means a clear, complete, documented, and auditable paper trail, which traces each step from an OEM to its current location. Alternate parts will be authorized if they are an approved alternate under the North Atlantic Treaty Organization (NATO) catalog system, which improves interoperability between NATO and commercial cataloging systems. Alternate parts must satisfy all form, fit, and function requirement of the parts and conform to the approved configuration of the United States Coast Guard MH-65 aircraft.
- c. Performance required: The parts must operate effectively with various components, eliminating safety of flight risks. If parts are listed as flight critical, they must meet OEM standards.
- d. Essential Physical Characteristics: The parts must be manufactured to the OEM specifications for form, fit, and function. There are sixty-three (63) different OEMs for this requirement. Some items have multiple manufacturers and acceptable part numbers.

Evaluation criteria are below:

Technical Acceptability Ratings	Descriptions
Acceptable	Based on the offeror's proposal, the Government has a high expectation that the offeror will meet the requirements identified.
Unacceptable	Based on the offeror's proposal, the Government has low or no expectation that the offeror will be able to meet the requirements identified.

2. Factor 2: Past Performance

- a. Submission Requirement: Past Performance will be evaluated to assess the confidence in the offeror's ability to fulfill the solicitation requirements. The evaluation will consider the offeror's demonstrated record of relevant performance in performing the required services and will consider areas of quality, meeting delivery schedules, compliance with contractual requirements, and customer satisfaction. Relevant is defined as the ability to provide the spare parts as identified in the solicitation. If an offeror has no relevant past performance history, the offeror must affirmatively state that it possesses no relevant past performance history. If an offeror doesn't not have a record of relevant past performance or past performance information is either unavailable or so sparse that no meaningful rating can be reasonably assigned, the offeror will receive a Neutral rating.
- b. The Government intends to use information available from past contracts/purchase orders with the USCG, delivery information found in the USCG's Asset Maintenance Management System (AMMIS), and any information found using sources such as Federal Government sources, Contractor Performance Assessment Reporting System (CPARS)

CLAUSES, PROVISIONS, AND TERMS AND CONDITIONS
70Z03826QB0000013

Evaluation criteria are below:

Past Performance Ratings	Descriptions
Acceptable	Based on the offeror's past performance record, the Government has a high expectation that the offeror will successfully perform the requirements identified.
Unacceptable	Based on the offeror's past performance record, the Government has a low or no expectation that the offeror will successfully perform the requirements identified.
Neutral	Offeror does not have a past performance record.

3. Factor 3: Price

- a. Submission Requirements: It is requested that the offeror provides Attachment 1 titled Schedule – 70Z03826QB0000013 with their proposal. The preferred FOB point for shipments under this requirement is FOB Destination. Proposals submitting FOB Origin terms should include all applicable customs, duties, taxes, and shipping charges. Any proposal providing FOB Origin terms that does not provide this information may be removed from consideration for award.

Prices will be evaluated to determine fair and reasonableness. The Government will evaluate prices for each contract period of performance including escalation rates between contract periods. The Government may determine that a proposal is unacceptable if the option period prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option.

It is DHS policy that pricing for competitive acquisitions should be based on adequate price competition. However, in the event only one responsible Offeror is obtained as a result of this solicitation, the Offeror may be required to submit Data Other than Certified Cost or Pricing Data (FAR 15.403-3) to support price negotiations.

- b. Offerors will be required to submit a completed Schedule attached to the solicitation as an Excel spreadsheet. Failure to submit the price proposal using the Excel spreadsheet may result in the proposal being removed from award consideration.

In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(2) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

However, the Government will consider the certification in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) This provision does not require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a). The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

CLAUSES, PROVISIONS, AND TERMS AND CONDITIONS
70Z03826QB0000013

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If the Government later determines that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)
