PROJECT: WRIGHT-PATTERSON AIR FORCE BASE
RENOVATE RESEARCH FACILITY FOR MS&A-F20145

CONTRACT: USACE LOUISVILLE DISTRICT P2 NUMBER 496691

SUBMITTAL: CERTIFIED FINAL SUBMITTAL

DATE: 16 JUN 2025

Basement level floor finishes at the Octonian rooms and Triton rooms will be black rubber flooring while the hallway, stairs and storage rooms will be sealed concrete. On the first floor, all areas except for the LAMARS Control Room, computer equipment rooms, certain MS&A Lab Spaces, and the two stairways, will be 16" high access flooring with carpet tiles as the wear surface. The LAMARS Control Room and MS&A Lab Spaces 064 and 065 will be solid vinyl tile and all computer equipment rooms will have static dissipative laminate floor adhered to the raised access flooring panel. On the second and third floors all areas except for the electrical rooms and restrooms will have a combination of carpet tile and solid vinyl tile floor finishes; the electrical rooms will have sealed concrete floors, and the restrooms and kitchenette will have epoxy floors with an epoxy base. All new walls and all walls that are existing to remain will be painted drywall with 4" rubber base, including the walls at the access flooring locations – the only exception being the base at the restroom and kitchenette walls. All the spaces on the basement level will have painted exposed to structure ceilings except for the corridors, Triton Room and the storage rooms which will have acoustical ceiling tile (ACT). All restrooms will have 9' high painted gypsum ceilings. Both stairways will have open to structure painted ceilings except for the third floor which will have a 2-HR fire rated suspended gypsum ceiling. All CER rooms, NOC rooms, and spaces within the Secure Area perimeters will have painted gypsum board ceilings. All remaining spaces in the high bay areas will have beveled tegular acoustical tile ceilings that are 9' high and all spaces in the existing deck area will have the same beveled tegular acoustical tile ceilings but the height will be 9'-4". The electrical room has an exposed ceiling. The triton area has a 12' acoustical tile ceiling.
