Statement of Work**CULTURAL RESOURCE INVENTORY**

Angora, Blue Mountain, and Cathedral Fuels Treatment

White River Field Office

Moffat, Rio Blanco, and Garfield Counties

1 INTRODUCTION**1.A Background**

1.A.1 The Bureau of Land Management (BLM) is required, under Section 106 of the National Historic Preservation Act of 1966 (as amended) (NHPA) to take into account the effects of its actions on historic properties through a process of identification, evaluation, assessment of effects, and, if needed, mitigation. Prior to any ground-disturbing activity, the BLM conducts a Class III (intensive) cultural resource inventory per requirements provided in BLM's 8110 Manual for the purpose of identifying and evaluating cultural resources which may be affected by the proposed action. BLM cultural resource specialists can then use these evaluations, in combination with information gained through consultation with affected Tribes, the Colorado State Historic Preservation Officer (SHPO), and other consulting parties to determine whether mitigation treatments are required for any site.

1.A.2 Class III (intensive) cultural resource inventory is guided by the consultation process outlined in the State Protocol Agreement (Protocol) with the Colorado SHPO dated October 29, 2014. Inventory standards and guidelines are specified in the most current BLM Colorado Handbook of Guidelines and Procedures for Inventory, Evaluation, and Mitigation of Cultural Resources and associated Digital Data Specifications Guide, Colorado SHPO standards, District and field office standards and procedures (for BLM-LSFO adhere to the 2021 Procedures and Reporting Standards for Cultural Resource Consultants Conducting Projects Under a CRUP Permit for the Colorado Northwest District and Upper Colorado River District, Bureau of Land Management) and other supplemental guidance.

1.A.3 A cultural resource overview of the project area is being provided below with the intent of assisting prospective offerors with more specific inventory information about areas adjacent to the project area. It is frequently the case that a similar site density with similar site types can be expected in the project area if it is a similar landscape, however, this is not always true. Prospective bidders should not assume that this overview is anything more than an informed projection of what could possibly be present in the project area.

1.B Objectives

1.B.1 A Class III (intensive) field inventory of approximately 1,930 BLM acres of public land in Moffat, Rio Blanco, and Garfield Counties, Colorado is requested. The cultural resource inventory is required prior to

mechanical (mastication) vegetation reductions, cut and piling, and prescribed burning to locate, evaluate and adequately protect all sites from the effects of the undertaking. All newly-identified sites and isolated finds located will be recorded and mapped. Previously recorded sites will be re-located, evaluated, and re-recorded if their original recording is over 10 years old; for those identified within 10 years of the current inventory, complete OAHP Cultural Re-Visitation Forms addressing impacts or changes to the site, if any exist. Potentially eligible sites will be tested to determine site depth potential, integrity, and eligibility wherever possible. This will be done to reduce the number of “Needs Data” evaluations. If encountered, all cadastral survey monuments will be recorded with a GPS receiver and recorded as isolated finds.

Several small cultural resource inventories have been conducted within the current Area of Potential Effects (APE). The overlapping areas are negligible; therefore, the entire inventory area will be surveyed at the Class III level. From these previous inventories, three cultural resources were identified within the current APEs. These include a prehistoric open lithic site (5MF.6466), a prehistoric isolated find (5RB.9422), and County Road (5RB.9030). Site 5MF.6466 was previously evaluated as Needs Data and will need to be fully re-recorded and assessed for NRHP eligibility. No further work is required for the isolated find unless more cultural materials are found that upgrades the resource to a site. Prehistoric site density is expected to be low to moderate throughout the inventory areas.

Archival research suggests low to moderate densities of historic resources may be present within the current inventory area. County Road 87 (5RB.9030) cuts through the Angora APE. The road was recorded in 2023 and officially determined as not eligible; therefore, the site will not require field documentation. Only named historic routes and features plotted on historic USGS map and GLO plats within the APE will require documentation using BLM’s Linear Management Data and Segment forms.

The project areas are spread out across three counties. The Angora survey area is in Rio Blanco County and is roughly 13 miles northeast of Rangely, Colorado, and 1.4 miles north of Highway 64. The Blue Mountain survey area is in Moffat County and is roughly 24 miles north-northwest of Rangely, Colorado. The Cathedral

N. Aspen survey area is in Rio Blanco and Garfield Counties. The northernmost unit is roughly 37 miles west of Meeker, Colorado, whereas the southernmost survey area is roughly 40 miles southwest of Meeker, Colorado and 40 miles northwest of Rifle, Colorado. These units include pinyon, juniper, and sagebrush environments. The units can range from flat with some slopes and rolling terrain to rocky outcrops with steep slopes. Most of the area is accessible by 4WD vehicle and/or ATV/UTV. County roads access the area but can become impassable when wet.

1.B.2 The general activities involved in this effort include planning, fieldwork, analysis, report preparation, and artifact curation. Secondary objectives include the compiling of inventory data, technical editing and desk top publishing of documents, updating records, and providing GIS and GPS data to BLM field offices.

1.B.3 Objectives include providing information on the distribution and character of cultural resources in the project areas to better assess their significance and preservation requirements as well as determining the effects of the proposed undertaking on historic properties.

1.B.4 To protect site information from unauthorized disclosure, all site location and content information must be kept in strictest confidence. The contractor shall make the information available only to the Contracting

Officer’s Technical Representative (COR)/ Project Inspector (PI) and must take whatever internal measures are necessary to ensure that confidential material is protected. All site specific records, photographs, and maps generated in the course of this contract, including original field maps and notes, will be considered BLM property and will be turned over to the COR/PI upon completion of the project. The contractor’s Contract Manager will be responsible for ensuring that all excess site specific documents, maps, site forms,

etc., (i.e., those not submitted as deliverables, internal review drafts, etc.) are properly disposed of upon completion of the project. All BLM Permits for Archaeological Investigations (PAI) stipulations will be followed.

1.B.5 To allow BLM to meet a schedule for projects requiring cultural resource inventory, inventories and deliverables must be completed by the dates specified in the Award and SOW in order for project implementation to occur as scheduled.

1.C To accomplish these objectives

1.C.1 The Contractor must hold or be able to obtain a PAI issued from the Colorado State Office BLM to be permitted to work on BLM lands managed by LSFO and field work must be immediately supervised by personnel under that permit qualified to work in the project area. All PIA permit stipulations will be followed.

1.C.2 A pre-work meeting will be scheduled after award of the contract. The Contractor will be required to mobilize no more than two (2) weeks from the date of the pre-work meeting or as otherwise agreed upon.

1.C.3 The Contractor shall furnish all labor, supervision, transportation, services, facilities, materials, and supplies necessary for the performance of all aspects of the tasks described herein.

1.C.4 No contract modifications will be provided for unanticipated site density or logistical complexity not considered by the contractor in their bid.

2 PLACE OF PERFORMANCE

2.A The work is located on BLM-administered lands in Colorado, within the Northwest District, White River Field Office, as described in 1.B Objectives.

2.B The BLM reserves the right to pursue other means, outside of this contract, to accomplish the work described under this contract. These means include, but are not limited to: assistance agreements, interagency agreements, data sharing agreements, Challenge-Cost-Share projects, volunteer agreements, in-house work, or other contracts.

3 TASKS

3.A Task 1: Conduct Class III Cultural Resource Inventory

3.A.1 Pre-field Literature and Records Review

3.A.1.a The Contractor must review all existing sources of information on the cultural resources of the Area of Potential Effect (APE) including from the Colorado SHPO and BLM White River Field Office. The areas indicated on the attached maps are the APE where direct effects from the proposed undertaking will occur. The BLM will define the area of the inventory accurately and clearly. The records and literature review will include a minimum 1-mile radius around the direct APE. The search will determine if there are previously recorded cultural resources in the APE and will document the nature and extent of previous cultural resource inventory and research in the general area. An important outcome of this review is to develop a historic context to discuss the results of the contractor's survey report.

The records and literature review will include a minimum 1-mile radius around the direct APE. The search will determine if there are previously recorded cultural resources in the APE and will document the nature

and extent of previous cultural resource inventory and research in the general area. An important outcome of this review is to develop a historic context to discuss the results of the contractor's survey report.

3.A.1.b Cultural resource data, including site records and project reports for public land actions are available from the Colorado SHPO, Office of Archaeology and Historic Preservation Office (OAHP) in Denver. The OAHP site files are in the COMPASS database and survey records for much of the State have been computerized and are available. The backlog of survey and site records in COMPASS also requires that the cultural resource project and site files and GIS data located in BLM White River Field Office are reviewed.

3.A.1.c Failure to conduct a pre-field literature and records review may result in the rejection of the associated report and/or suspension or revocation of the Contractor's PAI. Review of all existing information held in the BLM Field Office(s) will be conducted at the field office.

3.B.1 Cultural Resource Inventory

3.B.1.a The contractor must follow the inventory standards and guidelines specified in the most current versions of the following documents:

BLM Colorado's "Handbook of Guidelines and Procedures for Inventory, Evaluation, and Mitigation of Cultural Resources"

"BLM-Colorado Digital Data Specifications Guide 2022"

"2021 Procedures and Reporting Standards for Cultural Resource Consultants Conducting Projects Under a CRUP Permit for the Colorado Northwest District and Grand Junction Field Office, Bureau of Land Management"

BLM Linear [Site] Management Data Form

BLM Linear [Site] Management Data Form Instructions

BLM Linear [Site] Segment Form

BLM Linear [Site] Component Form Instructions

Colorado state government document: Office of Archaeology and Historic Preservation's "Colorado Cultural Resource Survey Manual: Guidelines for Identification: History and Archaeology"

3.B1.b Shapefiles that define the survey area boundaries will be provided to the successful offeror by the COR. The Contractor must locate the boundaries of the defined inventory area prior to commencement of the survey. Use GPS units, corner markers, benchmarks, 7.5 minute topographic maps, aerial photographs (where available), roadways and other landscape features, if needed, to ensure ground control and confidence in the inventory area and in the location of cultural resources.

3.B.1.c A 100% pedestrian survey at transect intervals not exceeding 15-20 meters for block survey areas and 10-15 meters for linear survey areas will be conducted to identify and record all cultural resources. Actual ground examination should result in the identification and recording of all cultural resources observable on the surface and in exposed subsurface profiles.

3.B.1.d Each field crew must be supervised in the field by a qualified crew chief listed on the PAI. Crew

chiefs must be on-site at all times.

3.B.1.e The Contractor must notify the COR/PI by telephone and with written confirmation immediately upon the discovery of human remains, funerary objects, sacred objects, or objects of cultural patrimony (as defined in 43 CFR 10.2) and must immediately stop any activities connected with such discovery.

3.B.1.f The provenience of all surface diagnostic artifacts, artifact concentrations, tools and features must be shown on the site map. The BLM generally adheres to a no collection policy. Collection is only recommended if in the opinion of the field office Archaeologist, the artifact(s) are unique and vulnerable to unauthorized

collection or destruction, diagnostic (time-sensitive), and cannot be readily identified in the field. Under Section II(f) of the *Northwest District Standards and Procedures*, contractors are expected to plot obsidian materials on instrument/sketch maps and collect a representative sample of obsidian debitage or tools located during survey for sourcing by the contractor. **Obsidian artifacts are not to be curated**; once sourcing analysis is complete the contractor will mail the artifacts back to the BLM (specifically to the Archaeologist) along with the coordinates so they can be returned to the cultural resource. The contractor may return the artifacts themselves, but only if fieldwork is ongoing. It is not expected for the contractor to mobilize after fieldwork has been completed to return obsidian artifacts; this action can be done by the BLM.

Additionally, if ceramic artifacts are encountered in the field, the field office archaeologist should be contacted to discuss collection options. A catalog sheet, drawings of the artifact(s), and location of the collected artifacts (e.g. name and contact information of museum) will be included in the body of the report and attached to the appropriate site form(s). The location of collected artifacts shall be accurately plotted on site sketch maps.

Cultural resource materials removed from BLM-administered land, along with copies of the associated records, are curated as property of the United States in a university, museum, or other approved scientific or educational institution in the State of Colorado. Collected artifacts must be curated according to the standards of the facility designated as the curatorial repository. No paleontological resources may be collected under a cultural resource permit.

3.B.1.g Within two weeks of the completion of field work, the Contractor must provide the COR/PI corrected GIS shapefiles of the area surveyed and of all cultural resources identified and recorded during the inventory along with the Progress Report (task 3.D.2). The Contractor will provide the COR/PI with a list or table of UTM coordinates for all cultural resource sites identified and recorded during the inventory and recommendations of eligibility, when required. All shapefiles will be in **NAD 83 UTM Zone 12N** for submission through a secure electronic transfer (no email) or FTP site transfer to the PI.

3.B.1.h After the receipt of GIS shapefiles of the surveyed area and all cultural resources, the BLM will have two weeks to perform quality control field inspections, if warranted. Should the field inspections result in the discovery of inventory or site recording deficiencies, the contractor must address these deficiencies at no cost to the government. This includes, but is not limited to, additional field mobilizations.

3.B.1.i After the BLM conducts or waives the fieldwork inspection, the BLM will request the OAHF document number and Smithsonian numbers. The contractor is **not** to request these numbers.

3.B.1.j Flagging eligible sites is not required. After the draft report has been accepted, a GIS shapefile should be included with the final deliverables that contains "Avoidance Areas" unless directed otherwise. The avoidance areas will include all eligible sites documented within the inventory area with a 30 m buffer applied.

3.B.1.k Note: Task 3.A.1 & 3.B.1 must be completed within six weeks of the pre-work meeting or otherwise agreed upon date.

3.C Task 2: Recordation and Evaluation of Cultural Resources

3.C.1 The Contractor must record each cultural resource identified, including any previously recorded site, following the *Colorado BLM Digital Data Specifications Guide* and the use of Colorado state site forms. Reevaluations will be performed on all sites in the inventory area that have not been reevaluated in the last 10 years. Sites that have been recorded during the last 10 years will not need to be reevaluated unless reportable changes have occurred to the site. New management data and component forms will be filled out on previously recorded sites that have the older site form versions.

3.C.2 Sites partially within the inventory area will be fully recorded. [Note: Portions of extensive sites may be excluded from this requirement on a case-by-case basis in consultation with the appropriate BLM archaeologist.] Linear sites shall be recorded within project boundaries, on BLM linear site forms. Following BLM NW District policy, the entire linear site must be recovered and evaluated for eligibility if the recording is the first recording of the linear site.

3.C.3 To refine National Register eligibility recommendations, evaluative testing units (minor probing, troweling, or shovel testing) will be conducted at all sites where the Contractor is unable to determine site eligibility based on surface evidence. This evaluative testing during field recording should be used to determine the potential for subsurface cultural deposits and the site boundary, as needed. In no case should such evaluative testing exceed three (3) square meters of site surface. Test plots should also be shown on the site map. If subsurface cultural deposits are encountered during testing, photographs with a scale should be included with

the site's documentation. The level of testing should not be conducted in a manner that requires the retrieval of artifacts or impacts or destroys information that contributes to the site's eligibility. Criteria used to determine potentially eligible properties must be substantive, objective, and stated in the report.

3.C.4 Furnish a complete Colorado SHPO site and IF form for each cultural resource identified and revisited during inventory. The Colorado SHPO requires that prehistoric and historic sites be recorded on the Colorado Inventory Form and Management Data Form. In addition to this form, a Prehistoric Archaeological Component Form must also be completed for sites with a prehistoric component and a Historical Archaeological Component Form must be completed for sites with a historic component. The Rock Art Component Form is required for rock art sites. The Contractor must contact the Colorado SHPO to obtain the latest update of any form used prior to submitting any report. The Contractor shall use the latest updates of the form available at the time of report preparation.

If other types of sites are encountered during the survey, those sites will be recorded on standardized forms available from BLM, Colorado. Linear sites must be recorded on the BLM Linear Site Forms. If wickiups, culturally modified trees, and historic well pads are encountered, such sites are to be recorded on site forms specific to these types of sites. The forms are available at: <https://www.historycolorado.org/survey-inventory-forms>

3.C.5 There must be sufficient description on the forms for the COR/PI to derive an accurate eligibility assessment. The site description must include number and types of objects present, site dimensions, types of features, topographic location, etc. If any significant disturbances or impacts have occurred, these must be described and photographed. Each form must be legible and must include a formal site map and a USGS 7.5', 1:24,000 scale GIS produced topographic map showing the exact location of the site. Site boundaries must be depicted as accurately on both the site and topographic maps. The topographic map must be clearly labeled with the map name, site number, map scale, north arrow and land status. Site maps must include spatial relationships of features and artifacts to each other and other pertinent non-cultural data or topography (i.e., roads, trees, drainages, etc.). If tools or diagnostic artifacts are present, scaled artifact sketches or photographs must accompany the site form. Diagnostic artifacts, including obsidian, should also

be plotted on sketch or instrument maps.

3.D Task 3: Reporting and Deliverables

3.D.1 Upon completion of inventory, a progress report followed by a draft report, then a final report must be submitted to the COR/PI. At a minimum, the reports must follow the Colorado SHPO report guidelines.

3.D.2 A **progress report** must be supplied to the COR/PI within two weeks of completion of fieldwork. The report shall be typewritten in a brief, narrative or table format. The report shall include the Contract Number and project name including county at the top of the first page. It will include: (1) a description of each site and IF including site type, temporal or cultural affiliation, and the NRHP eligibility recommendation; (2) a copy of a

7.5' topographic map showing the project survey boundary and site and IF locations; and (3) corrected shapefiles containing resource boundaries (see Task 3.B.1.g). The BLM will have two weeks to conduct fieldwork inspections and either approve the task as complete or request that deficiencies noted during the inspection are corrected.

3.D.3 A digital copy of a **draft final report** meeting the most current BLM-Colorado Northwest District's "*Procedures and Reporting Standards for Cultural Resource Consultants*" and copies of the site and IF forms and corrected shapefiles of the surveyed areas, cultural resource sites, and IFs shall be submitted for review by the COR/PI within six weeks of completion of fieldwork. The draft shapefiles may be subject to minor editing based on the COR/PI review. The draft report shall be copy edited and completed with all photographs, maps, figures, tables, charts, and graphs necessary to adequately describe the findings. The COR/PI shall have six weeks to review the draft report and return comments or corrections which must be addressed in the final report.

3.D.3.a The draft final report and all required survey information and site and IF forms will meet the guidelines established by the Secretary of Interior's Standards and Guidelines for Archaeology and Historic Preservation, the most current *BLM Colorado Handbook of Guidelines and Procedures for Inventory, Evaluation, and Mitigation of Cultural Resources* and associated *Digital Data Specifications Guide*, Colorado SHPO standards, District and field office standards and procedures and other supplemental guidance.

3.D.3.b The draft final report will include evaluations of all sites, recommendations on National Register eligibility, and a discussion of site impacts. The evaluations should be made in the context of previous investigations and findings in the general area, and research questions for the region. All sites brought forward as "Need Data" will include a detailed discussion of how field testing was conducted and why field testing was inconclusive and specific recommendations for additional evaluative testing to determine eligibility. The recommendations for site management must take into account the current site condition based on disturbances observed while conducting the field work.

The contractor will submit digital copies of the draft report and site and isolated find forms through a secure electronic transfer or FTP site. The site and isolated find forms shall be saved as individual documents in PDF format.

3.D.3.c All sites must have at a minimum of two photographs showing the general site location with a horizon. Reevaluations of sites should also include the above photo specifications. Site overview photographs should also include coordinates from where the photograph was taken.

3.D.3.d Any artifacts collected during the survey will be fully described in the report.

3.D.4 The **final report** containing all changes and corrections identified from the draft report review shall be submitted within three weeks of receiving the BLM draft report comments. The Contractor shall submit one bound copy of the final report and one set of stapled final site and isolated find forms. Unless the contractor is using secure electronic file transfer or FTP, a thumb drive shall be submitted containing the following:

1. Final Report in PDF format.
2. Individual site and isolated find forms in PDF format.
3. Shapefiles of survey areas, sites, isolated finds, and if applicable, a shapefile of “avoidance areas.”

A request, in writing, for an extension due to unforeseen circumstances may be granted, but the request must be submitted to the COR/PI three (3) working days before the due date of the final report, and it must clearly state why the extension is needed.

3.D.4.a The shapefiles must be polygonal (no points or lines) of both the actual area inventoried, and the site and IF boundaries. All shapefiles will be in NAD 83 for submission on a thumb drive or placed into a FTP site for access by BLM.

3.D.4.b Site Confidentiality: To protect site information from unauthorized disclosure, all site location and content information must be kept in strictest confidence. The Contractor shall make the information available only to the COR/PI and must take whatever internal measures are necessary to ensure that confidential material is protected. All site specific records, photographs, and maps generated in the course of this contract, including original field maps and notes, will be considered BLM property and will be turned over to the COR/PI upon completion of the project. The Contractor will be responsible for ensuring that all excess site specific documents, maps, site forms, etc., (i.e., those not submitted as deliverables, internal review drafts, etc.) are properly disposed of upon completion of the project.

3.D.4.c All collected artifacts will be curated at the repository identified in the PAI within the stipulated time frame.

3.D.4.c The BLM retains ownership of, and all rights to, all artifacts collected, records, data, maps, drawings, photographs, samples, artifacts, GIS products, automated data bases, or other products. These items cannot be used by the Contractor without written permission from the BLM.

4 **COORDINATION**

4.A The Contractor must be highly flexible and able to adapt to rapidly changing circumstances. Close coordination with the CO and COR/PI will be necessary to meet BLM deadlines. If problems arise, they first shall be discussed with the COR/PI. The Contractor must be able to quickly "gear-up" to execute assigned tasks within short time frames.

4.B The Contractor shall be responsible for obtaining and coordinating access across private lands for the purpose of conducting work under this contract; contact information will be provided by BLM. The Contractor shall advise the COR/PI within one (1) working day of any access restriction which would significantly delay progress.

4.C Any contacts/communications with the news media or other public concerning work performed under this contract shall first be cleared through the COR/PI.

4.D Any problems which may delay the Contractor's work schedule must be reported immediately to the COR/PI.

4.E The Contractors project director and all field supervisors must have a valid BLM Colorado Permits for Archaeological Investigations (PAI) and have submitted a Fieldwork Authorization request prior to the initiation of fieldwork. A Fieldwork Authorization Request must be submitted to the White River Field Office at 220 East Market St, Meeker, CO, 81641.

4.F During the course of the project, reasonable precautions will be taken to avoid the disclosure of site locations to all but authorized personnel. ***Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$17.75 per hour) or 13658 (\$13.30 per hour). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 and 13658 are not currently being enforced as to contracts or contract-like instruments entered into with the federal government in connection with seasonal recreational services or seasonal recreational equipment rental for the general public on federal lands. The

minimum wage requirements for Executive Order 14026 also are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$5.36 per hour, up to 40 hours per week, or \$214.40 per week or \$929.07 per month

HEALTH & WELFARE EO 13706: \$4.93 per hour, up to 40 hours per week, or \$197.20 per week, or \$854.53 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor, 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder.

All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made

the response submitted by the contractor and subcontractors. If this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) ****

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the ""Service Contract Act Directory of Occupations"" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."

SECTION E - SOLICITATION PROVISIONS**E.1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE. FAR 52.252-1 (FEB 1998)**

52.204-7 System for Award Management (NOV 2024)**52.204-16 Commercial and Government Entity Code Reporting (AUG 2020)****E.2 52.212-1 INSTRUCTIONS TO OFFERORS-COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (SEP 2023)**

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

(1) Is set aside for small business and has a value above the simplified acquisition threshold;

(2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or

(3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

(3) The name, address, and telephone number of the offeror;

(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;

(5) Terms of any express warranty;

(6) Price and any discount terms;

(7) "Remit to" address, if different than mailing address;

(8) A completed copy of the representations and certifications at Federal Acquisition Regulation (FAR) [52.212-3](#) (see FAR [52.212-3](#)(b) for those representations and certifications that the offeror shall complete electronically);

(9) Acknowledgment of Solicitation Amendments;

(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR [subpart 4.10](#)), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(1) (i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101–29, and copies of Federal specifications, standards, and product descriptions can be downloaded from the ASSIST website at <https://assist.dla.mil>.

(ii) If the General Services Administration, Department of Agriculture, or Department of Veterans Affairs issued this solicitation, a copy of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained from the address in paragraph (i)(1)(i) of this provision.

(2) Most unclassified Defense specifications and standards may be downloaded from the ASSIST website at <https://assist.dla.mil>.

(3) Defense documents not available from the ASSIST website may be requested from the Defense Standardization Program Office by—

(i) Using the ASSIST feedback module (<https://assist.dla.mil/feedback>); or

(ii) Contacting the Defense Standardization Program Office by telephone at 571–767–6688 or email at assisthelp@dlamail.

(4) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) *Unique entity identifier*. (Applies to all offers that exceed the micro-purchase threshold, and offers at or below the micro-purchase threshold if the solicitation requires the Contractor to be registered in the System for Award Management (SAM).) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address. The Offeror also shall enter its Electronic Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see FAR [subpart 32.11](#)) for the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) [Reserved]

(l) *Debriefing*. If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(3) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR [part 25](#). For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals–

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at [9.104-5\(a\)\(2\)](#) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing,

and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).* [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at [22.1503\(b\)](#).]

(k) *Certificates regarding exemptions from the application of the Service Contract Labor Standards* (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

☐ (1) *Maintenance, calibration, or repair of certain equipment as described in FAR [22.1003-4\(c\)\(1\)](#).* The offeror ☐ does ☐ does not certify that-

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

E.9 DIAR 1452.215-71 USE AND DISCLOSURE OF PROPOSAL INFORMATION – DEPARTMENT OF THE INTERIOR (APR 1984)

(a) Definitions. For the purposes of this provision and the Freedom of Information Act (5 U.S.C. 552), the following terms shall have the meaning set forth below:

(1) "Trade Secret" means an unpatented, secret, commercially valuable plan, appliance, formula, or process, which is used for making, preparing, compounding, treating or processing articles or materials which are trade commodities.

(2) "Confidential commercial or financial information" means any business information (other than trade secrets) which is exempt from the mandatory disclosure requirement of the Freedom of Information Act, 5 U.S.C. 552. Exemptions from mandatory disclosure which may be applicable to business information contained in proposals include exemption (4), which covers "commercial and financial information obtained from a person and privileged or confidential," and exemption (9), which covers "geological and geophysical information, including maps, concerning wells."

(b) If the offeror, or its subcontractor(s), believes that the proposal contains trade secrets or confidential commercial or financial information exempt from disclosure under the Freedom of Information Act, (5 U.S.C. 552), the cover page of each copy of the proposal shall be marked with the following legend:

"The information specifically identified on pages _____ of this proposal constitutes trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act. The offeror requests that this information not be disclosed to the public, except as may be required by law. The offeror also requests that this information not be used in whole or part by the government for any purpose other than to evaluate the proposal, except that if a contract is awarded to the offeror as a result of or in connection with the submission of the proposal, the Government shall have the right to use the information to the extent provided in the contract."

(c) The offeror shall also specifically identify trade secret information and confidential commercial and financial information on the pages of the proposal on which it appears and shall mark each such page with the following legend:

"This page contains trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act and which is subject to the legend contained on the cover page of this proposal."

(d) Information in a proposal identified by an offeror as trade secret information or confidential commercial and financial information shall be used by the Government only for the purpose of evaluating the proposal, except that (i) if a contract is awarded to the offeror as a result of or in connection with submission of the proposal, the Government shall have the right to use the information as provided in the contract, and (ii) if the same information is obtained from another source without restriction it may be used without restriction.

(e) If a request under the Freedom of Information Act seeks access to information in a proposal identified as trade secret information or confidential commercial and financial information, full consideration will be given to the offeror's view that the information constitutes trade secrets or confidential commercial or financial information. The offeror will also be promptly notified of the request and given an opportunity to provide additional evidence and argument in support of its position, unless administratively unfeasible to do so. If it is determined that information claimed by the offeror to be trade secret information or confidential commercial or financial information is not exempt from disclosure under the Freedom of Information Act, the offeror will be notified of this determination prior to disclosure of the information.

(f) The Government assumes no liability for the disclosure or use of information contained in a proposal if not marked in accordance with paragraphs (b) and (c) of this provision. If a request under the Freedom of Information Act is made for information in a proposal not marked in accordance with paragraphs (b) and (c) of this provision, the offeror concerned shall be promptly notified of the request and given an opportunity to provide its position to the Government. However, failure of an offeror to mark information contained in a proposal as trade secret information or confidential commercial or financial information will be treated by the Government as evidence that the information is not exempt from disclosure under the Freedom of Information Act, absent a showing that the failure to mark was due to unusual or extenuating circumstances, such as a showing that the offeror had intended to mark, but that markings were omitted from the offeror's proposal due to clerical error.

(End of provision)
