

Request for Quotation 1305M326Q0110
Isotope Analysis

Item	Question	Government Response
1	Is there any incumbent/recompete or this is a brand-new project? If yes, could you please provide us with their award number or even if the customer bought similar services in the past.	Yes. The previous award number was 1305M320DNRMJ0065.
2	The RFQ clause CAR 1352.216-75 indicates that the quote can't exceed the listed maximum contract amount. Can we submit the attached Pricing schedule as is and negotiate as necessary following your review of the Technical Proposal, should that prove successful? Otherwise, if we are to match the maximum contract amount, we would have to reduce the requested number of measurements as this is a rate-based exercise.	The Total Evaluated Price in the Pricing Schedule will be used for evaluation purposes only. The estimated quantities listed are not reflective of future Government requirements. Quoters should not adjust the estimated quantities and should only fill out the unit prices (cells highlighted in green) within the Pricing Sheet, ensuring the information is accurate and without errors. Regardless of the Total Evaluated Price, the resulting IDIQ shall not exceed the maximum contract amount listed under CAR 1352.216-75.
