

Question 1:

Has this requirement been awarded previously? If so, would BLM be willing to share prior deliverables to help inform our technical approach?

Answer 1:

BLM Alaska has not previously awarded this requirement, and therefore no prior deliverables are available for distribution.

Question 2:

Is any field work required or expected under this contract, or is the scope limited to a desktop literature review effort?

Answer 2:

Field work is neither required nor expected under this contract. However, the scope is not strictly limited to a desktop review; the contractor should use their best professional judgment to develop deliverables that fully meet the intent of the Statement of Work.

Question 3:

Are there specific databases, agency repositories, or literature sources BLM expects to be included in the search beyond the AIM program materials referenced in the SOW?

Answer 3:

BLM does not have specific requirements regarding literature sources. The materials referenced in the SOW are provided solely as context and a starting point. Contractors are encouraged to use all relevant scientific and technical sources necessary to meet the objectives.

Question 4:

Is there a preferred report format or template to ensure compliance with BLM reporting standards and Section 508 accessibility requirements?

Answer 4:

BLM will provide report formatting guidance upon award. Contractors should plan to follow standard federal accessibility requirements and ensure all deliverables meet BLM reporting standards.

Question 5:

What is the anticipated BLM comment turnaround period following submission of the draft report? We want to ensure the review cycle is realistically scoped within the October 2, 2026 delivery date.

Answer 5:

BLM anticipates providing comments on draft deliverables within 10 business days.

Question 6:

Approximately how many BLM staff are expected to attend the final presentation, and does BLM have a preferred virtual platform?

Answer 6:

Attendance may vary, and no minimum or maximum number of participants has been established. BLM commonly uses Microsoft Teams and Zoom for virtual presentations.

Question 7:

Have there been any other meetings, or is there an incumbent to beat?

Answer 7:

There have been no external meetings related to this requirement. Internal discussions have been limited to development of the Statement of Work. There is no incumbent contractor.

Question 8:

I don't suppose there could be an extension of the timeline considered, but I thought I would ask.

Answer 8:

An extension to the period of performance timeline cannot be accommodated.

Question 9:

Does BLM have an estimated cost or budget for the services requested?

Answer 9:

Yes, the BLM has an estimate and a budget.
