

STATEMENT OF WORK (SOW)

AMPHIBIOUS CONSTRUCTION BATTALION ONE

For the Procurement of Kalmar RTCH Tires

1.0 BACKGROUND & OBJECTIVE

The Department of the Navy, Amphibious Construction Battalion One (ACB-1) operates the Kalmar Rough Terrain Container Handler (RTCH) to conduct mission-critical logistical operations, including the lifting, stacking, and transportation of ISO shipping containers. The objective of this contract is to procure two (2) new 29.5-35 heavy-duty tires to restore the RTCH to a fully mission-capable status.

2.0 SCOPE

The contractor shall provide all resources, management, and freight transportation necessary to deliver two (2) brand new (not retreaded or refurbished) 29.5-35 (34-Ply) tires, delivered FOB Destination to the receiving address specified in Section 4.0.

3.0 SPECIFIC REQUIREMENTS

The contractor shall provide the following supplies:

- Item: Heavy-Duty Bias Ply OTR Tire
- Quantity: Two (2) Each
- Brand/Model: Titan ND LCM, Firestone Super Rock Grip, OR EQUAL
- Specifications: Size 29.5-35 (29.5x35), minimum 34-ply rating, E-3/L-3 tread pattern, bias ply construction, tubeless.

Note: If quoting an "or equal" product, the vendor must comply with the attached specification listed above.

4.0 DELIVERY REQUIREMENTS

4.1 Delivery Timeline: The contractor shall deliver the tires within 45 Days After Receipt of Order (ARO).

4.2 Shipping Terms: Delivery shall be FOB Destination. The contractor is responsible for all freight, shipping, and handling costs associated with delivering the oversized tires to the Government facility.

4.3 Delivery Location: AMPHIBIOUS CONSTRUCTION BATTALION ONE 2524 ENIWETOK ROAD - BUILDING 808 UNITED STATES SAN DIEGO CALIFORNIA 92155-5200

Receiving Officer / Supply Warehouse

Monday - Friday, 0730 - 1600

5.0 INSPECTION AND ACCEPTANCE

Inspection and acceptance of the supplies will be conducted at destination by the Government Point of Contact (POC) or designated Receiving Officer. The Government will inspect the tires upon delivery to verify they are brand new, free of structural defects/damage from transit, and strictly conform to the 34-Ply and Brand Name or Equal specifications outlined in the contract.

6.0 WARRANTY

The contractor shall provide the standard commercial Original Equipment Manufacturer (OEM) warranty for the tires. The warranty period shall commence upon final Government inspection and acceptance of the items at the destination.

7.0 BASE ACCESS AND SECURITY REQUIREMENTS

The contractor and any designated freight carriers must comply with all local base security policies for installation access. Delivery drivers must possess a valid driver's license, vehicle registration, and proof of insurance, and must be able to pass a standard background check to obtain a visitor/delivery pass at the Commercial Vehicle Inspection gate. The contractor is responsible for coordinating with the freight carrier to ensure these access requirements are met to avoid delivery delays.
