If any subcontractors or teaming partners/ joint ventures are proposed, the Offeror's quote shall clearly delineate the name of each entity involved and the specific services to be performed by each partner.

2.0 Submission Content & Instructions

To be considered responsive, Offerors shall provide the following information as part of their Quote submission:

The Government intends to award an FFP contract to the responsible Offeror submitting the lowest price, technically acceptable (LPTA) quote that satisfies all terms and conditions of the RFQ. The Government intends to evaluate responsive quotes to the RFQ using the LPTA process. Quotes that are not deemed responsive will not be

evaluated or considered for award. Responsive quotes shall be evaluated in order of total price (lowest price first) until a technically acceptable quote is determined. Responsive quotes will be evaluated on a Pass/Fail basis for acceptability only. A responsive quote shall be determined to be technically acceptable or unacceptable (pass or fail) based on the rating definitions in the table below. Due to the LPTA evaluation method, all responsive quotes may not be evaluated.

Award may be made based on initial submission without additional interactions. Offerors are therefore cautioned that each initial submission must contain the Offeror's most competitive terms. The Government does not intend to have discussions. No alternate submissions will be accepted. Alternate submissions will be deemed unresponsive, will not be evaluated, and will not be considered for award. No submission/quote preparation costs shall be reimbursed.
