

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
NASA SHARED SERVICES CENTER

RECOMMENDATION AND DETERMINATION TO SOLICIT FROM ONE SOURCE
OR BRAND NAME

PICK ONE

Sole Source:

☒ I recommend that NASA, NASA Shared Services Center negotiate with Armag Corporation only for a prefabricated HD 1.3 cured propellant test facility, meeting all ATF Type 2, explosion resistant electrical/HVAC, grounding, and intrinsic safety requirements defined by MSFC ER62. The total estimated cost of this effort is [REDACTED] and the estimated period of performance or lead-time for delivery is 08/20/2027.

OR

Brand Name Justification:

☐ I recommend that NASA, NASA Shared Services Center negotiate with only with vendors who can provide the subject brand name from Manufacture Name for Enter Supply or Service to be procured. The total estimated cost of this effort is Enter Dollar amount and the estimated period of performance or lead-time for delivery is Date.

This recommendation is for the acquisition of supplies or services determined to be reasonably available from only one source/only one manufacture. Competition is impractical for the following reasons (please answer the questions below):

1. **What are the reasons for soliciting only the suggested source/suggested brand name?** Please provide the unique characteristics of the items or services along with the supporting rationale and the market research performed to substantiate your reason for the suggested source/brand name. Armag Corporation shall provide a 30' x 15' x 10' intrinsically safety compliant prefabricated laboratory, built to ATF Type 2 magazine specifications featuring integrated explosion-resistant electrical distribution, HVAC, lighting, grounding bus, ESD flooring, lightning protection, non-sparking work surfaces, eye wash, and oven penetrations. Armag Corporation was identified as the only vendor providing turn-key, OEM integrated explosive operations laboratories with full electrical, HVAC, grounding, and safety critical systems. Other federal organizations performing similar work with energetics (FBI TEDAC, NCETR) have independently validated Armag Corporation as the only known capable supplier. Competing vendors were found to provide only storage magazines, not fully outfitted explosives laboratories. The attached Market Research Report (Market Research Report_Armag 2.0.docx) contains a detailed description of potential competitors (Tread Corporation and K.L Security Enterprises, Inc), including the additional cost to retrofit storage magazines with explosion-resistant features.

2. **What is the impact to the government if another vendor/brand is used?** Include any dollar, schedule, or compatibility impacts if possible. Competing vendors were found to provide only storage magazines, not fully outfitted explosives laboratories. [REDACTED]

[REDACTED] his would also require a separate contract mechanism to have a third party install the required safety features which could incur unknown cost, schedule, and compatibility impacts. [REDACTED]

ADDITIONAL COMMENTS: [REDACTED]
