

Questions and Answers

Solicitation: 12444526Q0032

Date: May 7, 2026

Re: Questions and Answers

1. Is this a new requirement? If not, please provide the name of the incumbent contractor, the contract number and the total awarded value.

A: This is a recurring requirement.

Incumbent Contractor: Always Busy Cleaning Wiltses

Contract Number: 12444521P0049

Performance Period: 09/01/2021 – 08/31/2026

Original Award Value: \$89,000.00 (Base + 4 Option Years)

Total Obligated Amount: The total contract value as modified through 05/07/2026 is approximately \$ 169,308.00. The difference between the original award and the current total value is due to administrative modifications and changes in scope/service requirements during the period of performance.

2. What is the population of staff in the office building?

A: 50 employees

3. Will the government provide all trash and recycling containers.

A: Containers are on site.

4. Does space within the building include material and equipment storage and office space for staff?

A: The office provides a walk in closet with a deep sink for equipment and storage of weekly supplies. This does not supply Office space for the contractor and staff.

5. What is the due date for the job-specific Safety Plan?

A: Due within ten days from date of award, although it can surely be included with your proposal.

6. Can the QCP be included as an addendum to the Technical Proposal.

A: Yes.

7. What is the Gender mix of bathrooms?

A: We have 3 sets of restrooms in the main building. Each set contains a men's restroom and a ladies restroom. The ladies restrooms all contain two stalls. The men's restroom contains a urinal and stall. The additional building has two restrooms. Ones for the ladies and one for the men. Each contains one stall and one shower.

8. Is a cover page recommended or preferred?

A: No cover page needed, but I'd like to see your UEI with your submission

10. Would you prefer all documents combined into one PDF or submitted as separate attachments?

A: Separate attachments are best

11. Are there any specific naming conventions or formatting preferences for the technical approach, pricing sheet, biobased products documentation, and experience questionnaire?

A: No specific naming requirement-just as long as I can deduce what the document is. Content is more important than what format it is in

Site Visit Clarification

12. We also wanted to confirm whether there is:

A mandatory site visit requirement, or

An opportunity to schedule an optional site visit/walkthrough prior to proposal submission.

A: Site visits are not mandatory. However, one can be scheduled by touching base with Marci Bauman at marci.bauman@usda.gov
