

WORK ITEM 1: 3010-01-486-8877 Shaft Coupling Element, Purchase

1. SCOPE

1.1 Intent. This specification sets forth the requirements for the preservation, packaging, packing, marking and bar coding of American Vulkan Corporation (AVC) Coupling Elements and Coupling Assemblies.

- NSN: 3010-01-486-8877, P/N: EG3321A005-ABS
- NSN: 3010-01-466-3015, P/N: EG1721R000
- NSN: 3010-01-119-9903, P/N: EZ-195S-1510
- ACN: 3010-01-F20-6128, P/N: 2X3011AR00
- NSN: 3010-01-493-7317, P/N: 1K57150017
- NSN: 3010-01-695-6700, P/N: 2910B10000
- NSN: 2010-01-695-6775, P/N: 391000000M
- NSN: 3010-01-695-7061, P/N: 391006000M

2.1 Document availability. The documents listed in this section are referenced in sections 3, 4 and 5 of this work item and drawings stated in this Work Item. To obtain the referenced documents see section 6.1.

2.2 Specification order of precedence. The Applicable Documents described are required to be adhered to in fulfilling the contract. In the event of a conflict between the text of this specification and the references cited herein, this work item shall take precedence. Nothing in this document, however, supersedes applicable laws and regulations unless a specific exemption has been obtained.

2.3 Departure from specification. Departure from this specification shall not be allowed unless approved by the Coast Guard Contracting Officer.

2.3.1 If Contractor the finds it necessary to suggest implementing change or depart from applicable specifications they shall request permission.

2.3.2 Request for change shall clearly describe the changes proposed, the reason for change, advantages of the proposed changes, price increase or decrease (if any) resulting from the change.

3. REQUIREMENTS

3.1 General. The Contractor shall furnish parts from the schedule of supplies and services as indicated on the delivery order. Coupling Elements shall be genuine AVC brand.

3.2 Warranty. The components are being purchased as system stock and will be placed into inventory and not for immediate installation. The Contractor shall provide a warranty for a period of one year (12) months, following up to one (1) year in storage. Storage commences upon receipt of the component at the designated Coast Guard facility. The warranty commences the date the component is installed on a Coast Guard Unit. The warranty shall cover all parts and workmanship defects.

4. QUALITY ASSURANCE

4.1 General. The Contractor shall provide and maintain an inspection system, which shall ensure each item offered to the Government for acceptance conforms to contract requirements. The inspection system shall be documented and meet the requirements of ASQ Q9001-2008.

5. PRESERVATION, PACKING, MARKING, AND SHIPPING

5.1 Preservation. All CLINs shall be preserved Per MIL-SPEC-2073-1E, Method 10, as well as in accordance with American Vulkan Corporation (AVC) standard factory preservation procedures.

5.2 Packing. Each Shaft Coupling Element shall be individually packaged in its own container in a manner to provide protection against physical damage during shipment and warehouse storage for a period of up to two years.

5.2.1 All CLINs weighing under 25 lbs. shall be packed in accordance with ASTM D5118 for a single or double wall corrugated fiberboard box.

5.2.2 All CLINs weighing between 25 and 150 lbs. shall be packed in accordance with ASTM D6880/D6880M for a wooden box.

5.2.3 All CLINs weighing over 150 lbs. shall be packed in accordance with ASTM D7478/D7478M for a skid-mounted wooden crate.

5.2.4 Each line item shall be packaged flat (Not Folded) with support backing sufficient to prevent bending, twisting or folding damage to gasket during packing or shipping.

5.2.5 Individually packed and marked items which are combined within shipping containers, shall be placed, secured and blocked in the container in such a manner as to ensure safe arrival at destination when shipped by common carrier.

5.3 Marking. All marking shall be in accordance with MIL-STD-129R. Each preserved, and packed Shaft Coupling Element shall be marked in the upper left-hand side of the two longest sides, (two opposite sides if square) of each container. The lettering shall be black painted stencil and permanently affixed to each container. The lettering shall be at least 1” high and be applied on a highly contrasting background.

5.3.1 This marking shall consist of the STOCK NUMBER, ITEM NAME, PART NUMBER, CONTRACT NUMBER, DELIVERY ORDER NUMBER, GROSS WEIGHT (in lbs.), CONDITION CODE ie. CONDITION A, UNIT OF ISSUE with QUANTITY (1) and the words U.S. COAST GUARD SFLC MATERIAL.

a. Marking layout (ready for issue) “A” condition Shaft Coupling Element.

NATIONAL STOCK NUMBER	3010-01-486-8877
ITEM NAME	ELEMENT, COUPLING, SHAFT
PART NUMBER	EG3321A005-ABS
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

b. Marking layout (ready for issue) “A” condition Shaft Coupling Element.

NATIONAL STOCK NUMBER	3010-01-466-3015
ITEM NAME	ELEMENT, COUPLING, SHAFT
PART NUMBER	EG1721R000
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

c. Marking layout (ready for issue) “A” condition Shaft Coupling Element.

NATIONAL STOCK NUMBER	3010-01-119-9903
ITEM NAME	COUPLING, SHAFT, FLEX
PART NUMBER	EZ-195S-1510
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

d. Marking layout (ready for issue) “A” condition Shaft Coupling Element.

NATIONAL STOCK NUMBER	3010-01-F20-6128
ITEM NAME	COUPLING, FLEXIBLE
PART NUMBER	2X3011AR00
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

e. Marking layout (ready for issue) “A” condition Shaft Coupling Element.

NATIONAL STOCK NUMBER	3010-01-493-7317
ITEM NAME	COUPLING, SHAFT, FLEXIBLE
PART NUMBER	1K57150017
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

f. Marking layout (ready for issue) “A” condition Shaft Coupling Element.

NATIONAL STOCK NUMBER	3010-01-695-6700
ITEM NAME	INSERT, FLEXIBLE COUPLING
PART NUMBER	2910B10000
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

g. Marking layout (ready for issue) “A” condition Shaft Coupling Element.

NATIONAL STOCK NUMBER	3010-01-695-6775
ITEM NAME	HOUSING, COUPLING
PART NUMBER	391000000M
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

h. Marking layout (ready for issue) “A” condition Coupling Half. Shaft.

NATIONAL STOCK NUMBER	3010-01-695-7061
ITEM NAME	COUPLING HALF, SHAFT
PART NUMBER	391006000M
CONTRACT NUMBER	(See Contract)
DELIVERY ORDER NUMBER	(See Contract)
SHIPPING WEIGHT (LBS)	As Determined by Contractor
CONDITION	CONDITION A
QUANTITY & UNIT OF ISSUE	1 – EA
OTHER DATA AS DIRECTED	U.S. COAST GUARD SFLC MATERIAL

5.4 Barcoding. Bar code labels shall be supplied on all CLIN's except for those that require data submissions only.

5.4.1 U.S. Coast Guard requires bar coding of the NSN, IAW ISO/IEC 16388-2007 Code 39 Symbolology.

5.4.2 Bar code label. Can be applied separately or as part of the marking required in 5.3

5.5 Shipping. The Contractor shall provide timely shipping information to the Contracting Officer and COR including the name of the shipping company, date shipment will leave the Contractor's facility, and expected arrival date and time for receipt at the government facility. No shipment shall arrive outside of government normal business hours as determined by the Contracting Officer.

5.5.1 Unless otherwise specified, the Contractor shall ship, and deliver the Shaft Coupling Element(s) to the following government address:

U.S. Coast Guard
Surface Forces Logistics Center
Receiving Room - Bldg. 88
2401 Hawkins Point Road
Baltimore, MD 21226

NOTE

Normal deliver hours at the warehouse are Monday through Friday 0730-1300. If delivery is needed to be made outside that delivery window, the Contractor shall notify the Contracting Officer.

5.7 Coast Guard acceptance. Acceptance will be made at destination by a Coast Guard representative. Acceptance will be contingent upon representative's verification of no damage in transit, correctness and completeness of order and Contractor's conformance to preservation, packing, and marking.
