

QUESTIONS AND ANSWERS 24 April 2026**For****Solicitation Number: RFQ N6264926QH013
Tellabs GPON equipment maintenance service****Q1:** PWS paragraph 2.1

To ensure our pricing accurately reflects the anticipated level of effort, can the Government provide the total number of non-emergency technical support calls tracked during the following periods: June 1, 2025 through April 23, 2026 (or current date), and June 1, 2024 through May 31, 2025?

A1: Approximate number of non-emergency technical support calls June 1, 2025 through April 23, 2026 was (0). (Due to the previous support contract having expired on April 9, 2025) Approximate number of non-emergency technical support calls June 1, 2024 through May 31, 2025 was six (6).

Q2: PWS paragraph 2.1

To ensure our pricing accurately reflects the anticipated level of effort, can the Government provide the total number of emergency technical support calls tracked during the following periods: June 1, 2025 through April 23, 2026 (or current date), and June 1, 2024 through May 31, 2025?

A2: Approximate number of emergency technical support calls June 1, 2025 through April 23, 2026 was (0). (Due to the previous support contract having expired on April 9, 2025) Approximate number of emergency technical support calls June 1, 2024 through May 31, 2025 was two (2).

Q3: Is this strictly TAC support or is there an expectation of on-site support in Guam?

A3: There is no expectation of on-site support in Guam.

Q4: PWS para 2.4.6

Please clarify whether the Tellabs authorized vendor requirement must be held by the prime contractor, or if an offeror may rely on a subcontractor or teaming partner with the required authorization to meet this requirement.

A4: Camp Blaz only requires access to the Tellabs authorized vendor via the awarded contract. No concerns if the offeror relies on a subcontractor or teaming partner with the required authorization to meet this requirement.
