2025 Fees - Pay online

Make your payments online via e-check, VISA or MasterCard through the Minnesota Pollution Control Agency web page at www.pca.state.mn.us/pay-online. Click on the "Online Services" icon on the MPCA home page, there you will find the "Make a Payment" icon and you'll be directed to an online payment page.

Things to Know About Your Water Quality Fees

1. Permit fees represent your activity for the calendar year 2024. Even if you did not construct or expand your facility per your current permit and/or you terminated your permit, you actively held the permit for some portion of time in 2024 and are required to pay the annual fee.
2. The water quality fee rule is under Minnesota Rules, chapter 7002 and may be found on the internet at <http://www.revisor.leg.state.mn.us/arule/7002/>.
3. Permit fees are defined in the above-referenced rules. **For Feedlot**, you will either be billed \$1,230.00 for an individual permit or \$345.00 for a general permit. All other water permit fees are based on a combination of permit type, facility design flow, discharge type and other major and non-major criteria. These fees are charged **annually** and separate from permit application fees. Payment of your annual fee does not guarantee permit coverage or automatically renew your permit.
4. You will be charged an annual permit fee once your permit is issued. The time between permit application and permit issuance is not a billable time period. The annual permit fee is charged each spring for having a permit and is separate from the permit application fee charged each time you request a new, modified, or reissued permit.
5. Payment is due 30 days from the date of this invoice. A late fee of 10% of the amount due will be added to the original amount if the fee is not paid within 60 days. At 30-day intervals thereafter, an additional 10% of the original amount due will be assessed.
6. If you feel your annual fee amount is in error, you must provide **WRITTEN NOTICE** of the error along with the assessed fee. If the Minnesota Pollution Control Agency finds that the assessed fee was in error, the overpayment shall be refunded. (Minnesota Rules part 7002.0280, Notification of Error)
NOTE: Overpayments of \$25.00 or less will not be refunded 120 days after date of invoice.
7. If you are paying by check, please enclose the invoice stub and make checks payable to:
MPCA, PO Box 64893, St. Paul, MN 55164-0893.

Upon request, this form can be made available in alternative formats for people with disabilities
Printed on recycled paper containing at least 20 percent fibers from paper recycled by consumers.

Billing Name and Address Changes

NOTE: These changes will not be accepted over the phone

8. If you have billing or contact changes, please contact your MPCA program representative to inquire about the correct process and forms that may be required.

The addressee on the front of your invoice is identified in our database as the billing contact and all invoices and fee-related correspondence will be mailed to them. Facility location changes may require a permit modification and should be discussed with the staff permit writer.

*For Feedlot and ISW permits, you must complete an administrative modification in e-services if your billing contact has changed. Email submittals and paper forms will not be processed for Feedlot and ISW permits.

Water Quality Permit Fees

Major/Non	Fee Type	Design Flow	Annual Fee
General	Industrial Storm Water General Permit	N/A	\$400.00
General	All Other Generals	N/A	\$345.00
