3. RESPONSES: Please respond by the posting closing date and to the Contracting Officer Jayson Skow via e-mail at jayson.skow@us.af.mil. The Government request all interested parties to submit a brief statement of their capability to meet the above requirements that addresses,

1. Firm's name, CAGE code, unique entity ID, Government point of contact, and ID the source is qualified by the OEM
2. Business type (large or type of small) for the proposed or recommended NAICS Code
3. Are you a manufacturer for this requirement or next higher assembly or subpart(s)?
4. Have you repaired or manufactured same or similar parts to include to commercial customers? If so, please provide proof with points of contact.
5. Provide any anticipated teaming arrangements. Any responses involving teaming arrangements should delineate between the work that will be accomplished by the prime and the teaming partner(s).
6. Is there a different National Stock Number (NSN) or suitable part number?
7. Is there an existing contract vehicle that the USAF can repair or order the parts from? Is there a DLA contract or GSA Schedule for the parts?
8. What other acquisition strategy and contract type do you recommend and how will this best meet the USAF's requirements and deliver the best value?
9. Discuss any concerns you may have with our requirement.
10. Are there any long-lead items or parts that are volatile in the market or are difficult to procure?
