

Performance Work Statement
April 24th, 2026
70-Ton Crane Rental
Kirtland AFB, 58 MXS

BACKGROUND: The 58th Maintenance Squadron in the United States Air Force is based out of Kirtland AFB, NM. They are responsible for producing mission-ready special operations forces and personnel recovery aircraft for student aircrew flight training. They perform a full range of flight line maintenance to include on-equipment repair, inspection, service, launch and recovery supporting the Annual Flying Hour Programs for 41 aircraft covering 6 mission specialized aircraft types consisting of the CV-22, AC/HC/MC-130J, HH-60W, and UH-01.

PURPOSE: The purpose of this Performance Work Statement (PWS) is to provide a minimum of a 70-ton crane truck rental with operator on July 24th, 2026.

SCOPE/LOCATION OF TASK/PLACE OF PERFORMANCE (POP): We require crane services with operator for one (1) day on July 24th, 2026. We require a minimum of 70-tons lifting capacity/crane for our operation. The contractor services will include lifting a CV-22 (Ground Instructional Training Aircraft) GITA Aircraft. The place of performance will be at Kirtland AFB, NM.

DESCRIPTION OF SERVICES: The contractor shall provide all equipment, necessary materials, certified crane operator and rigger to lift the structure. This shall include lifting slings and shackles. More information can be provided on existing lifting eyes, if requested. This lift will require one (1) 70-ton crane truck with operator for one day on July 24th, 2026. The operator will be required to work from 1000 – 1400 local Albuquerque time on July 24th, 2026. The contractor has the option to stage/park on site in a designated safe area before the lift. Travel time to and from Kirtland AFB is not included in this PWS.

REQUIREMENTS: The contractor is required to provide a certified crane operator, shackles, rigger, and cranes capable of lifting two structures according to the following requirements: • Lift Weight: Approximately 38,000 lbs. • Lift Distance: Approximately 45 ft from CG of lift object • Lift Height: Approximately 4' off current resting or ground position • Lift type: minimum of 4 existing lifting points on the steel structures (Vendor provides lifting slings, shackles, and rigger) Testing & Quality Control: The 58th Maintenance Squadron reserves the right to perform inspections and tests to ensure work completed and in compliance with contract specifications. Safety Requirement: All contractors will conform to Government safety regulations while working on site.

PERIOD OF PERFORMANCE: The contractor shall provide crane services during the day of July 24th, 2026. Crane services will only be required for one (1) day in total. Due to the unpredictability of field work, primarily due to adverse weather conditions, the 58th Maintenance Squadron is requesting flexibility for the exact days and confirmation schedule with contractor prior to the date services are needed.

PERFORMANCE REQUIREMENTS SUMMARY: The Surveillance Matrix below is the list of performance objectives and standards that must be performed by the contractor. This matrix details the method of surveillance the COR will use to validate and inspect these performance elements. Inspection of each element will be documented in the COR file. Performance objectives define the desired outcomes. Performance Standards define the level of service required under the contract to successfully meet the performance objective. The monitoring method defines how, when, and what will be assessed in

measuring performance. The Government performs surveillance, using this QASP, to determine the quality of the contractor's performance as it relates to the performance element standards. The PRS should be used to form the foundation of the COR's inspection checklist.

Performance Objective	Performance Standards	AQL	Monitoring Frequency	Method of Surveillance
Coordinating Crane Service	Crane service is scheduled for July 24 th , 2026, or rescheduled if requested by the 58 th Maintenance Squadron	100%	Random	Failure to deliver will result in invoices not being approved
Testing & Quality control	Documentation on all components are in specification with industry standards	100%	Random	Failure to deliver will result in invoices not being approved
Lift	Lifting of CV-22 is completed	100%	Random	Failure to deliver will result in invoices not being approved
Equipment	Contractor brings all equipment, necessary materials, and rigging equipment needed to lift the CV-22	100%	Random	Failure to deliver will result in invoices not being approved
Timely Submission of Proper Invoice	Contractor submits invoice within 30 days	100%	Random	Failure to deliver will result in invoices not being approved

Ombudsman

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman does not affect the authority of the program manager, contracting officer, or source selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of protests or formal contract disputes. The ombudsman may refer the interested party to another official who can resolve the concern.

(b) Before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution. Consulting an ombudsman does not alter or postpone the timelines for any other processes (e.g., agency level bid protests, GAO bid protests, requests for debriefings, employee-employer actions, contests of OMB Circular A-76 competition performance decisions).

(c) If resolution cannot be made by the contracting officer, the interested party may contact the ombudsman, for AFGSC (Air Force Global Strike Command) acquisitions please contact the Director of Contracts, Air Force Installation Contracting Center, Operating Location - Global Strike (AFICC/KG OL-GSC) via the following e-mail workflow address: ig.afica_kg.workflow@us.af.mil. Concerns, issues, disagreements, and recommendations that cannot be resolved at the Center/MAJCOM/DRU/SMC ombudsman level, may be brought by the interested party for further consideration to the Air Force ombudsman, Associate Deputy Assistant Secretary (ADAS) (Contracting), SAF/AQC, 1060 Air Force Pentagon, Washington DC 20330-1060, phone number (571) 256-2395, facsimile number (571) 256-2431.

(d) The ombudsman has no authority to render a decision that binds the agency.

(e) Do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer.

Elimination of Use of Class I Ozone Depleting Substances (ODS)

(a) Contractors shall not:

(1) Provide any service or product with any specification, standard, drawing, or other document that requires the use of a Class I ODS in the test, operation, or maintenance of any system, subsystem, item, component, or process; or

(2) Provide any specification, standard, drawing, or other document that establishes a test, operation, or maintenance requirement that can only be met by use of a Class I ODS as part of this contract/order.

(b) For the purposes of Department of the Air Force policy, the following products that are pure (i.e., they meet the relevant product specification identified in [AFI 32-7086](#)) are Class I ODSs:

(1) Halons: 1011, 1202, 1211, 1301, and 2402;

(2) Chlorofluorocarbons (CFCs): CFC-11, CFC-12, CFC-13, CFC-111, CFC-112, CFC-113, CFC-114, CFC-115, CFC-211, CFC-212, CFC-213, CFC-214, CFC-215, CFC-216, and CFC-217, and the blends R-500, R-501, R-502, and R-503; and

(3) Carbon Tetrachloride, Methyl Chloroform, and Methyl Bromide.

Health and Safety on Government Installations

(a) In performing work under this contract on a Government installation, the contractor shall:

(1) Take all reasonable steps and precautions to prevent accidents and preserve the health and safety of contractor and Government personnel performing or in any way coming in contact with the performance of this contract; and

(2) Take such additional immediate precautions as the contracting officer may reasonably require for health and safety purposes.

(b) The contracting officer may, by written order, direct Department of the Air Force Occupational Safety and Health (AFOSH) Standards and/or health/safety standards as may be required in the performance of this contract and any adjustments resulting from such direction will be in accordance with the Changes clause of this contract.

(c) Any violation of these health and safety rules and requirements, unless promptly corrected as directed by the contracting officer, shall be grounds for termination of this contract in accordance with the Default clause of this contract.
