NOTICE TO PROSPECTIVE BIDDERS

RE: WA FLAP JEFFER 134309(2),
Two Trout Creek Culvert Replacement
Solicitation No. 69056725B000014

The attached preliminary plans are being furnished to aid prospective Bidders in identifying the location and type of work for this project. The project will be advertised during a period when viewing of the project may not be possible due to winter conditions. Therefore, prospective Offerors are encouraged to view the project as conditions permit. Check the Jefferson County website ([Public Works | Jefferson County, WA](#)) for current road conditions. No Federal Highway Administration personnel will be available for show-me tours.

Project Location and Type of Work – the construction project is on Oil City Road near Milepost 0.5. The primary objective is to improve aquatic organism passage (AOP) by replacing the existing undersized corrugated metal culvert with a new AOP- structure.

Scope of Work:

- Removal of the existing culvert.
- Installation of a new AOP culvert to enhance fish passage.
- Reconstruction of the roadway over the culvert.
- Installation of new guardrails for safety.
- Placement of in-stream logs to improve fish habitat.

This project supports ecological restoration efforts while enhancing transportation infrastructure and safety.

Technical Questions – All technical questions must be submitted by email wfl.plans-spec@dot.gov .

General Questions - Contact our office at wfl.contracts@dot.gov or at 360-619-7520.

Solicitation documents - Documents will be available during the winter of 2025. Please monitor the SAM site (www.sam.gov) for actual date of solicitation release. To receive automatic notification through SAM, you must be logged in and select the “Follow” feature. For more information go to [How do I follow items on SAM.gov?](#).

Thank you for your interest in this project.
