Request for Information**Question 1** - Personnel Certifications vs. ITM Scope

NICET Level II qualifications are acceptable for routine inspection, testing, and maintenance activities.

Answer: (no changes needed)

Question 2 - State Licensing Requirements

Answer: NICET Level II certifications are all that is needed to perform contract requirements on base.

Question 3 - Repair Scope vs. Engineering / Modification Requirements

Answer: Yes. Repair work under the FFP portion is limited to direct, like-for-like component replacement only. Repairs involving system modification, engineering/design and programming changes are only performed under IDIQ with a provided SOW. IDIQ work is not typically used but the option is available if needed.

Question 4 -Site Visit Scheduling

Answer: A sight visit has not been scheduled. There is no scheduled site visit for this requirement currently. Security is very tight and specific documents will be required. FSC and Base Fire will be available to participate.
