(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. (b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

Manufacturer's Name _____

Source's Name _____

Test Number _____ (to the extent known)

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source, product, or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

(IAW FAR 32.806(a)(1))

52.232-25 PROMPT PAYMENT (JAN 2017)
(IAW FAR 32.908(c))

Notwithstanding any other payment clause in this contract, the Government will make invoice payments under the terms and conditions specified in this clause. The Government considers payment as being made on the day a check is dated or the date of an electronic funds transfer (EFT). Definitions of pertinent terms are set forth in sections 2.101, 32.001, and 32.902 of the Federal Acquisition Regulation. All days referred to in this clause are calendar days, unless otherwise specified. (However, see paragraph (a)(4) of this clause concerning payments due on Saturdays, Sundays, and legal holidays.)

(a) *Invoice payments—*

(1) *Due date.*

(i) Except as indicated in paragraphs (a)(2) and (c) of this clause, the due date for making invoice payments by the designated payment office is the later of the following two events:

(A) The 30th day after the designated billing office receives a proper invoice from the Contractor (except as provided in paragraph (a)(1)(ii) of this clause).

(B) The 30th day after Government acceptance of supplies delivered or services performed. For a final invoice, when the payment amount is subject to contract settlement actions, acceptance is deemed to occur on the effective date of the contract settlement.

(ii) If the designated billing office fails to annotate the invoice with the actual date of receipt at the time of receipt, the invoice payment due date is the 30th day after the date of the Contractor's invoice, provided the designated billing office receives a proper invoice and there is no disagreement over quantity, quality, or Contractor compliance with contract requirements.

(2) *Certain food products and other payments.*

(i) Due dates on Contractor invoices for meat, meat food products, or fish; perishable agricultural commodities; and dairy products, edible fats or oils, and food products prepared from edible fats or oils are--

(A) For meat or meat food products, as defined in section 2(a)(3) of the Packers and Stockyard Act of 1921 (7 U.S.C. 182(3)), and as further defined in Pub. L. 98-181, including any edible fresh or frozen poultry meat, any perishable poultry meat food product, fresh eggs, and any perishable egg product, as close as possible to, but not later than, the 7th day after product delivery.

(B) For fresh or frozen fish, as defined in section 204(3) of the Fish and Seafood Promotion Act of 1986 (16 U.S.C. 4003(3)), as close as possible to, but not later than, the 7th day after product delivery.

(C) For perishable agricultural commodities, as defined in section 1(4) of the Perishable Agricultural Commodities Act of 1930 (7 U.S.C. 499a(4)), as close as possible to, but not later than, the 10th day after product delivery, unless another date is specified in the contract.

(D) For dairy products, as defined in section 111(e) of the Dairy Production Stabilization Act of 1983 (7 U.S.C. 4502(e)), edible fats or oils, and food products prepared from edible fats or oils, as close as possible to, but not later than, the 10th day after the date on which a proper invoice has been received. Liquid milk, cheese, certain processed cheese products, butter, yogurt, ice cream, mayonnaise, salad dressings, and other similar products, fall within this classification. Nothing in the Act limits this classification to refrigerated products. When questions arise regarding the proper classification of a specific product, prevailing industry practices will be followed in specifying a contract payment due date. The burden of proof that a classification of a specific product is, in fact, prevailing industry practice is upon the Contractor making the representation.

(ii) If the contract does not require submission of an invoice for payment (e.g., periodic lease payments), the due date will be as specified in the contract.

(3) *Contractor's invoice.* The Contractor shall prepare and submit invoices to the designated billing office specified in the contract. A proper invoice must include the items listed in paragraphs (a)(3)(i) through (a)(3)(x) of this clause. If the invoice does not comply with these requirements, the designated billing office will return it within 7 days after receipt (3 days for meat, meat food products, or fish; 5 days for perishable agricultural commodities, dairy products, edible fats or oils, and food products prepared from edible fats or oils), with the reasons why it is not a proper invoice. The Government will take into account untimely notification when computing any interest penalty owed the Contractor.

(i) Name and address of the Contractor.

(ii) Invoice date and invoice number. (The Contractor should date invoices as close as possible to the date of the mailing or transmission.)

(iii) Contract number or other authorization for supplies delivered or services performed (including order number and line item number).

(iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed.

(v) Shipping and payment terms (e.g., shipment number and date of shipment, discount for prompt payment terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading.

(vi) Name and address of Contractor official to whom payment is to be sent (must be the same as that in the contract or in a proper notice of assignment).

(vii) Name (where practicable), title, phone number, and mailing address of person to notify in the event of a defective invoice.

(viii) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.

(ix) Electronic funds transfer (EFT) banking information.

(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision (e.g., 52.232-38, Submission of Electronic Funds Transfer Information with Offer), contract clause (e.g., 52.232-33, Payment by Electronic Funds Transfer—System for Award Management, or 52.232-34, Payment by Electronic Funds Transfer--Other Than System for Award Management), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(x) Any other information or documentation required by the contract (e.g., evidence of shipment).

(4) *Interest penalty.* The designated payment office will pay an interest penalty automatically, without request from the Contractor, if payment is not made by the due date and the conditions listed in paragraphs (a)(4)(i) through (a)(4)(iii) of this clause are met, if applicable. However, when the due date falls on a Saturday, Sunday, or legal holiday, the designated payment office may make payment on the following working day without incurring a late payment interest penalty.

(i) The designated billing office received a proper invoice.

(ii) The Government processed a receiving report or other Government documentation authorizing payment, and there was no disagreement over quantity, quality, or Contractor compliance with any contract term or condition.

(iii) In the case of a final invoice for any balance of funds due the Contractor for supplies delivered or services performed, the amount was not subject to further contract settlement actions between the Government and the Contractor.

(5) *Computing penalty amount.* The Government will compute the interest penalty in accordance with the Office of Management and Budget prompt payment regulations at 5 CFR part 1315.

(i) For the sole purpose of computing an interest penalty that might be due the Contractor, Government acceptance is deemed to occur constructively on the 7TH day (unless otherwise specified in this contract) after the Contractor delivers the supplies or performs the services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or Contractor compliance with a contract provision. If actual acceptance occurs within the constructive acceptance period, the Government will base the determination of an interest penalty on the actual date of acceptance. The constructive acceptance requirement does not, however, compel Government officials to accept supplies or services, perform contract administration functions, or make payment prior to fulfilling their responsibilities.

(ii) The prompt payment regulations at 5 CFR 1315.10(c) do not require the Government to pay interest penalties if payment delays are due to disagreement between the Government and the Contractor over the payment amount or other issues involving contract compliance, or on amounts temporarily withheld or retained in accordance with the terms of the contract. The Government and the Contractor shall resolve claims involving disputes and any interest that may be payable in accordance with the clause at FAR 52.233-1, Disputes.

(6) *Discounts for prompt payment.* The designated payment office will pay an interest penalty automatically, without request from the Contractor, if the Government takes a discount for prompt payment improperly. The Government will calculate the interest penalty in accordance with the prompt payment regulations at 5 CFR part 1315.

(7) *Additional interest penalty.* (i) The designated payment office will pay a penalty amount, calculated in accordance with the prompt payment regulations at 5 CFR part 1315 in addition to the interest penalty amount only if--

(A) The Government owes an interest penalty of \$1 or more;

(B) The designated payment office does not pay the interest penalty within 10 days after the date the invoice amount is paid; and

(C) The Contractor makes a written demand to the designated payment office for additional penalty payment, in accordance with paragraph (a)(7)(ii) of this clause, postmarked not later than 40 days after the invoice amount is paid.

(ii)(A) The Contractor shall support written demands for additional penalty payments with the following data. The Government will not request any additional data. The Contractor shall--

(1) Specifically assert that late payment interest is due under a specific invoice, and request payment of all overdue late payment interest penalty and such additional

- penalty as may be required;
 - (2) Attach a copy of the invoice on which the unpaid late payment interest is due; and
 - (3) State that payment of the principal has been received, including the date of receipt.
- (B) If there is no postmark or the postmark is illegible--
- (1) The designated payment office that receives the demand will annotate it with the date of receipt, provided the demand is received on or before the 40th day after payment was made; or
 - (2) If the designated payment office fails to make the required annotation, the Government will determine the demand's validity based on the date the Contractor has placed on the demand, provided such date is no later than the 40th day after payment was made.
- (iii) The additional penalty does not apply to payments regulated by other Government regulations (e.g., payments under utility contracts subject to tariffs and regulation).

(b) *Contract financing payment.* If this contract provides for contract financing, the Government will make contract financing payments in accordance with the applicable contract financing clause.

(c) *Fast payment procedure due dates.* If this contract contains the clause at 52.213-1, Fast Payment Procedure, payments will be made within 15 days after the date of receipt of the invoice.

(d) *Overpayments.* If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

- (1) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the—

 - (ii) Affected contract number and delivery order number if applicable;
 - (iii) Affected line item or subline item, if applicable; and

NOTICE ON THE USE OF THE SUPPLIER PERFORMANCE RISK SYSTEM
(MAR 2023)
(IAW DFARS 204.7604)

(a) *Definitions.* As used in this provision—

Item risk means the probability that a product, based on intended use, will introduce performance risk resulting in safety issues, mission degradation, or monetary loss.

Price risk means a measure of whether a proposed price for a product or service is consistent with historical prices paid for that item or service.

Supplier risk means the probability that an award may subject the procurement to the risk of unsuccessful performance or to supply chain risk (see Defense Federal Acquisition Regulation Supplement 239.7301).

(b) The Supplier Performance Risk System (SPRS), available at <https://piee.eb.mil/>, will be used in the evaluation of the Quoter or Offeror's performance. SPRS retrieves item, price, quality, delivery, and contractor information on contracts from Government reporting systems in order to develop risk assessments.

(c) The Contracting Officer will consider SPRS risk assessments during the evaluation of quotations or offers received in response to this solicitation as follows:

- (1) Item risk will be considered to determine whether the procurement represents a high performance risk to the Government.
- (2) Price risk will be considered in determining if a proposed price is consistent with historical prices paid for a product or a service or otherwise creates a risk to the Government.
- (3) Supplier risk, including but not limited to quality and delivery, will be considered to assess the risk of unsuccessful performance and supply chain risk.

(d) SPRS risk assessments are generated daily. Quoters or Offerors are able to access their risk assessments by following the access instructions in the SPRS user's guide available at <https://www.sprs.csd.disa.mil/reference.htm>. Quoters and Offerors are granted access to SPRS for their own risk assessment classifications only. SPRS reporting procedures and risk assessment methodology are detailed in the SPRS user's guide. The method to challenge a rating generated by SPRS is also provided in the user's guide. SPRS evaluation criteria are available at https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf.

(e) The Contracting Officer may consider any other available and relevant information when evaluating a quotation or an offer.

SECTION M
EVALUATION FACTORS FOR AWARD USING
BEST VALUE PROCESS, PERFORMANCE PRICE TRADEOFF (PPT) SOURCE SELECTION PROCEDURES

A. Basis for Contract Award

This acquisition will utilize the Best Value Process, Performance price Tradeoff source selection procedures in accordance with Federal Acquisition Regulation (FAR) Part 15.101-1, as supplemented, to make an assessment for a best value award decision. Tradeoffs will be made only between price and past performance among those offerors who have been determined technically acceptable. Award will be made to the offeror who is deemed responsible in accordance with FAR Part 15.101, as supplemented, whose proposal conforms to the solicitation requirements and is judged, based on the evaluation factors, to represent the best value to the Government. The Government seeks to award to the offeror who gives the Defense Logistics Agency the greatest confidence that it will best meet the requirements affordably. This may result in an award to a higher

rated, higher priced offeror, where the decision is consistent with the evaluation factors and the Source Selection Authority (SSA) reasonably determined that the technical acceptable, superior past performance of the higher price offeror outweighs the cost difference. While the Government source selection evaluation team and the SSA will strive for maximum objectivity, the source selection process, by its nature, is subjective and, therefore, professional judgement is implicit throughout the entire process. The Government intends to award without discussions/reserves the right to award without discussions. Therefore, each initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if determined necessary by the Contracting Officer.

B. Number of Contracts to be Awarded

The Government intends to select one contractor for the program. However, the Government reserves the right to award no contract at all, depending on the quality of the proposals and prices submitted and the availability of funds.

C. Rejection of Unrealistic Offers

The Government may reject any proposal that is evaluated to be unrealistic in terms of program commitments, including contract terms and conditions, or unrealistically high or low in cost/price when compared to Government estimates, such that the proposal is deemed to reflect an inherent lack of competence or failure to comprehend the complexity and risks of the program.

D. Correction Potential of Proposals

The Government will consider, throughout the evaluation, the "correction potential" of any deficiency or proposal inadequacy. The judgment of such "correction potential" is within the sole discretion of the Government. If an aspect of an offeror's proposal not meeting the Government's requirements is not considered correctable, the offeror may be eliminated from the competitive range.

PRE-AWARD SURVEY

The Government may conduct a pre-award survey (PAS) as part of this source selection. Results of the PAS (if conducted) will be evaluated to determine each offeror's capability to meet the requirements of the solicitation.

PLANT VISITS

In the event discussions are necessary, plant visits may be conducted during the evaluation phase to develop knowledge for judging the potential for correction of the deficiencies.

SOLICITATION REQUIREMENTS, TERMS AND CONDITIONS

Offerors are required to meet all solicitation requirements; such as terms and conditions, representations and certifications, and technical requirements, in addition to those identified as factors, subfactors to be eligible for award. Any aspect of the proposal judged to be unacceptable would render the entire proposal unacceptable. Failure to comply with the terms and conditions of the solicitation may result in the offeror being removed from consideration for award. Any exceptions to the solicitation's terms and conditions must be fully explained and justified.

EVALUATION CRITERIA FOR AWARD

(IAW FAR 13.106-2(b), 14.201-5(c), and 15.204-5(c))

For the purposes of award, offers will be evaluated for acceptability of evaluation factors described below:

FACTOR 1: Technical

FACTOR 2: Cost/Price

FACTOR 3: Past Performance

a. Order of Importance

For this solicitation, technical acceptability is a prerequisite to the best value analysis and potential trade-off between Price and Past Performance. The Order of importance is used to explain how the other factors will be traded off on technically acceptable proposals.

For all technically acceptable proposals, Factor 2 (Cost/Price) will be evaluated on a basis approximately equal to Factor 3 (Past Performance). Tradeoffs may only be made between price and past performance among those offerors who have been determined technically acceptable.

b. Evaluation Methodology

All proposals will first be evaluated for technical acceptability. Second, price will be evaluated. Concurrent with the price evaluation, past performance will be evaluated. A decision will then be made as to which proposal provides the best value to the Government.

c. Technical Factor

(1) Technical proposals are not required. Technical acceptability will be determined based on the offerors compliance with the requirement as stated in Section B Schedule and/or any referenced specifications, engineering notes and all other attachments herein.

(2) The delivery schedule will be evaluated based on the dates established in Section B of the solicitation. It should be noted that the Government's required delivery is based on the Requirements' need date, and may not be attainable. Therefore, if a proposed delivery does not meet the Government's required delivery, the proposed delivery may be considered responsive.

Technical acceptability will be ascertained based on one of the ratings described below. Proposals will be evaluated for compliance with solicitation; receipt of a responsive proposal to deliver the supplies in accordance with the solicitation and all other attachments herein.

Acceptable – The proposal meets specified minimum requirements necessary for acceptable contract performance.

Unacceptable – The proposal fails to meet specified minimum requirements necessary for contract performance. Proposals with an unacceptable rating are not awardable.

d. Cost/Price Factor (IAW 5315.305(a)(1))

(1) The offeror's cost/price proposal will be evaluated for award purposes by multiplying the proposed unit price by the total quantity. The quantity utilized for evaluation will be based on the firm quantity incorporated in Schedule B.

(2) Unrealistically low proposed costs or prices, initially or subsequently, may be grounds for eliminating a proposal from competition either on the bases that the offeror does not understand the requirement or the offeror has made an unrealistic proposal.

(3) Offerors are cautioned against submitting an offer that contains unbalanced pricing. Unbalanced pricing may increase performance risk and could result in payment of unreasonably high prices. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly over or understated as indicated by the application of cost or price analysis techniques. The Government shall analyze offers to determine whether they are unbalanced with respect to separately priced line items or subline items. Offers that are determined to be unbalanced may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the government.

Proposals for Bid "A" (Contractor Test FAT-Required) will be evaluated as follows:

The offeror's total evaluated cost/price for Line Item 0001AC (Contractor FAT-Destructive Exhibit) and Line Item 0001AD (Contractor FAT – Non-Destructive Exhibits), and BEQ under Line Item 0001AE (Contractor FAT – First article required Production Units) are the price factors that will be used for this evaluation. The BEQ that will be used for evaluation will be determined by the Government Requirements group prior to award as currently stated on the solicitation. At that point, the quantity type will be changed from BEQ to Fixed Quantity (FQ). The offeror's proposed cost/price for Line Item 0001AC and Line Item 0001AD will be added together for purposes of evaluation and the offeror's proposed cost/price for the BEQ under Line Item 0001AE will be multiplied by the quantity. The estimated cost factor of \$2,500.00 for Contractor First Article Test/Inspection evaluation will then be added to this total. The cumulative price of these factors will be used in evaluation of proposals submitted under Bid "A" for a Firm Fixed Price/Fixed Quantity (FFP/FQ) award.

Proposals for Bid "B" (Contractor FAT- NOT Required) will be evaluated as follows:

The offeror's total evaluated cost/price for the BEQ under CLIN 0001AF (Contractor FAT – NOT Required) is the price factor that will be used in evaluation. The BEQ that will be used for evaluation will be determined by the Government Requirements group prior to award as stated within the solicitation. At that point, the quantity type will be changed from BEQ to Fixed Quantity. Evaluation of award will be based on the proposed unit price multiplied by the required quantity.

* The Government may accept BID "A" or BID "B" depending upon which alternative is most advantageous to the government, price and other factors considered.

(4) If incidental or miscellaneous expenses not related to specific CLIN structure accompany vendor proposals, these charges shall be added to the total CLIN cost/price to reach the final total cost/price proposed to the Government. In addition 'Price Analysis' shall be conducted in accordance with FAR 15.404-1, to determine 'Reasonableness' on all offers submitted by vendors.

*Unrealistically low costs/prices proposed either initially or subsequently may be grounds for elimination of an offer from the competition and shall be based upon the vendor not understanding requirements or because an unrealistic proposal was submitted.

e. Past Performance Factor

The Past Performance Evaluation is accomplished by reviewing aspects of an offeror's (1) relevant past performance and (2) recent past performance, focusing on and targeting performance, which is relevant to the technical requirement. In determining relevance, consideration will be given to the likeliness and similarity of the effort to include contract scope, contract type, and contract schedule. This information may include data on parts manufactured by other divisions, critical subcontractors, or teaming contractors, if such resources significantly influence the proposed requirement. The Government may consider relevant work as those performed for agencies of the federal, state, or local governments and commercial customers. Where relevant performance record indicates performance problems, the Government will consider the number and severity of the problems and the appropriateness and effectiveness of any corrective actions taken (not just planned or promised). The Government may review more recent contracts or performance evaluations to ensure corrective actions have been implemented and to evaluate their effectiveness.

The Government will evaluate the offeror's past performance by reviewing the offeror's record of supplying products that comply with contract requirements, including cost and schedule. Under the Past Performance factor, a Performance Confidence Assessment Rating represents the evaluation of an offeror's present and past work record to assess the Government's confidence in the offeror's probability of successfully performing as proposed.

The offeror is not required to provide Past Performance information. Past performance information will be determined primarily based on the offeror's "Supplier Risk Score" in the Supplier Performance Risk System (SPRS) at the time of the close of the solicitation period. Past performance may also be obtained through the contractor Performance Assessment Reporting System (CPARS), similarly systems of other Government departments and agencies (MOCAS, etc), questionnaires tailored to the circumstances of this acquisition, Defense Contract Management Agency (DCMA) channels, interviews with program managers and contracting officers, and other sources known to the Government, including commercial sources.

Each offeror will receive an integrated Performance Confidence Assessment rating, which is the rating for the Past Performance factor. Although the past performance evaluation focuses on performance that is recent and relevant to the technical requirement, the resulting Performance Confidence Assessment is made at the factor level and represents an overall evaluation of contractor performance. The Past Performance factor will receive one of the following performance confidence assessment ratings IAW the Department of Defense (DoD) Source Selection Procedures.

Rating	Description
SATISFACTORY CONFIDENCE	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
NEUTRAL CONFIDENCE	No recent/relevant performance record is available or the offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The offeror may not be evaluated favorably or unfavorably on the factor of past performance.
LIMITED CONFIDENCE	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
NO CONFIDENCE	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

Note: With regards to the best value award decision, all offerors receiving the same past performance rating will be considered equal for the Past Performance Factor.

Offerors without a record of relevant past performance or for whom information on past performance is not available will not be evaluated favorably or unfavorably on past performance and, as a result, will receive a "Neutral confidence" rating for the Past Performance factor. In the context of acceptability/unacceptability, a neutral rating shall be considered "acceptable."

Offerors with adverse past performance information to which they have not previously had an opportunity to respond will be given the opportunity to provide clarifications concerning the adverse information.

E. Discussions

It is the Government's intent to award without discussions, therefore, it is imperative that offeror's submit their best terms initially. However, if during the evaluation period, it is determined to be in the best interest of the Government to hold discussions, offeror responses to Evaluation Notices (ENs), and the Final Proposal Revisions (FPRs) will be considered in making the source selection decision.
