Background

The Indian Health Service (IHS) in the US Department of Health and Human Services is the principal federal health care provider and health advocate for Indian people, and its goal is to raise their health status to the highest possible level. IHS provides a comprehensive health service delivery system for approximately 2.3 million American Indians and Alaska Natives (AI/AN) who belong to 573 federally recognized Tribes in 37 states.

The Navajo Area Indian Health Service (NAIHS) is one of 12 regional administrative units of the Indian Health Service (IHS). The Northern Navajo Medical Center (NNMC) in Shiprock, NM is one of the NAIHS hospitals that provides inpatient, emergency, outpatient, public health, and other services.

The NNMC Administration’s acquisition team maintains a high volume of contract output. To ensure compliance and efficiency, there is a need for targeted on-site training specifically focusing on “Writing Performance Work Statements” (PWS) for Federal Government contracts.

Purpose and Objectives

The NNMC Administration is requesting that most acquisition support staff attend specialized PWS training for Federal Government contracts. The goal is to ensure they have a thorough, practical understanding of PWS development.

Training attendees will gain the ability to articulate the strategic importance of PWS in acquisition. They will learn to draft, analyze, and finalize comprehensive PWS documents – including problem statements and project visions, while mastering the development of clear requirements and understanding the direct impact of precise PWS language on project success.

We require on-site training to utilize in-house computer labs (23 stations). Due to the high number of attendees, we are scheduling five separate 3-day sessions to be scheduled over separate weeks.

Please read the attached Statement of Work (SOW) which details the requirement.
