

ESSCA II Final Request for Proposal (RFP) to Amendment 00001 Clause, Provision Change Matrix

The following matrix is provided to assist potential offerors in navigating FAR and NFS clause and provision updates resulting from the Revolutionary FAR Overhaul (RFO) and associated Procurement Class Deviations (PCD). This matrix is not an official Agency guidance document but is provided to assist in assessing impacts to the ESSCA II final request for proposal (RFP) which was released January 30, 2026. Interested parties are under no obligation to use or rely on the information provided in this matrix. The ESSCA II final 80MSFC26R0002 RFP, inclusive of any amendments that may be published, takes precedence over the information provided in this matrix.

Action Taken Key
None - unchanged in solicitation
Removed - deleted from solicitation
Updated - revised to newer version of clause or provision
New - added to solicitation

Guidance for use: The first column provides a list of clauses or provision titles and versions issued with the ESSCA II 80MSFC26R0002 final RFP on January 30, 2026, in order of appearance in the document. The second column provides the final RFP uniform contract format section. The third column provides the clause type (i.e. FAR, NFS, MSFC, or other). The fourth column describes the action taken between release of final RFP and release of Amendment 00001. A color key for these actions is provided at the beginning of this document. The fifth column provides the Amendment 00001 clause or provision title and version related to the final RFP version on the same row. Note: In order to provide traceability to the final RFP, not all Amendment 00001 clauses/provisions are provided in order of appearance of the Amendment 00001 document. The fifth column provides the Amendment 00001 uniform contract format section. The sixth column provides the clause/provision primary public location. The last column provides additional notes or references for interested party use/awareness.
