

MATERIAL ORDERING DATA

IDN: **N4523A 6083-8326**

ICN: 380E959650 KO: s04 KOI: 001

Paragraph 4.1 Ordering Data

Standard Specification for Nickel-Chromium-Molybdenum-Columbium Alloy (UNS N06625) and Nickel-Chromium-Molybdenum-Silicon Alloy (UNS N06219)* Plate, Sheet, and Strip, ASTM B-443, dtd 8-10-2000 (Reapproved 2009)

4.1.2 UNS number: N06625

4.1.3 Condition:

UNS N06625 (If neither grade of N06625 is specified, Grade 1 will be supplied)

☒ Grade 1 (Annealed)

☐ Grade 2 (Solution Annealed)

UNS N06219

☐ Solution annealed only

4.1.4 Finish:

Plate:

☐ Hot-rolled ☒ annealed or ☐ solution annealed, and descaled.

☐ Cold-rolled ☐ annealed or ☐ solution annealed, and descaled.

Sheet:

☐ Hot-rolled ☐ annealed or ☐ solution annealed, and descaled.

☐ Cold-rolled ☐ annealed or ☐ solution annealed ☐ descaled or ☐ bright annealed.

Strip:

☐ Cold-rolled ☐ annealed or ☐ solution annealed ☐ descaled or ☐ bright annealed.

4.1.5 Dimensions: Thickness .500" Width 36" Length 48"

4.1.6 Quantity: 1EA

4.1.7 Optional Requirements:

Sheet furnished in: ☐ coil or ☐ cut straight lengths or ☐ random straight lengths

Strip furnished in: ☐ coil or ☐ cut straight lengths or ☐ random straight lengths

Plate cut to (see 7.2.1 and 7.3.2):

4.1.8 Certification is required

If required, manufacturer's certification shall be furnished stating that the material was manufactured, tested, and inspected in accordance with this specification, and that test results on representative samples meet specification requirements.

☒ Test results shall be furnished.

4.1.9 Samples for Product (Check) Analysis are required - (see 5.2)

4.1.10 Purchaser Inspection: Purchaser does not wish to witness ☐ tests or ☐ inspection of material at place of manufacture.

Additional Data Requirements: PLATE, NICKEL ALLOY

.500" THK 36" X 48"

INCONEL 625, ASTM B443, ALLOY N06625, GRADE 1, ANNEALED HOT ROLLED
