☐	D. OTHER (Specify type of modification and authority)					
E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return <u>1</u> copies to the issuing office.						
14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.) a. The purpose of this modification is to provide answers to questions about the requirement. b. Please see Continuation Page and revised attached Statement of Work Draft. c. Due to the changes the response deadline will be extended See BLOCK 11.						
Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.						
15A. NAME AND TITLE OF SIGNER (Type or print)			16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Gary Christensen CONTRACTING OFFICER			
15B. CONTRACTOR/OFFEROR (Signature of person authorized to sign)		15C. DATE SIGNED	16B. UNITED STATES OF AMERICA (Signature of Contracting Officer)		16C. DATE SIGNED	

The purpose of this amendment is to update the Statement of Work (DRAFT) to address the concerns about the following sections:

Below are the clauses in the SOW that indicates that new supplies/equipment to be provided:

- Provide a turnkey solution
- Provide only Crestron brand name solution
- Not add/substitute components without prior approval...

QUESTION 1: Can you please clarify the scope of equipment needed?

VA ANSWER:

The turn-key portion is in reference to the equipment that is currently under a factory warranty. We want the vendor to initiate and handle any Remove and replace items that need to be sent back to the factory under the factory warranty

QUESTION 2: Is this an installation of new equipment for all rooms, or replacements only for failed equipment?

VA ANSWER:

. The current equipment is under the factory warranty until 2028.

QUESTION 3: If the later, what is the age of the equipment?

VA ANSWER:

No date of equipment age provided, the current equipment is under the factory warranty until 2028.

QUESTION 4: Is it overly restrictive to include VASHNS language. Specifically, Requirements 10, 11, and 12 of the draft SOW state that the awardee must:

Contractor technicians must be familiar with VASHNS Programming of currently installed Crestron, Extron, Blackmagic, Inogeni, Cisco, VADDIO, Samsung, NVX digital Matrix, Sony cameras, and QSC audio systems.

Vendor MUST show proof that they have the capability to configure and program currently installed equipment (listed above) that was customized for the VASHNS using the Q-SYS 9.6 (Or above) Designer Software.

VA ANSWER:

VA removed the "VASHNS current programming" and state that they must be able to use programming to download current programming and settings within the system. SEE HIGHLIGHTED SECTION IN ATTACHED STATEMENT OF WORK

Vendor MUST be familiar with the Auditorium and conference rooms layout within the facility and be familiar with the infrastructure rack mounted equipment, cabling installed, and

interconnectivity functions of the Digital Media A/V Systems in Auditorium, Rooms 1C143, 1C145, 1C147, 1C149, 1C150, and 1C151

QUESTION 5: Site Walkthrough: Will the VA schedule a formal site visit allowing prospective offerors to inspect the auditorium (1C166) and conference rooms 1C143, 1C145, 1C147, 1C149, 1C150, and 1C151? Direct observation of the installed systems is the only reliable basis for an accurate maintenance cost.

VA ANSWER:

Yes, we can do a walkthrough to examine the equipment and layout. Details will be included in the solicitation.

QUESTION 6: System Documentation: Will the VA provide prospective offerors with the current as-built drawings, equipment schedules, rack elevations, signal flow diagrams, and programming files (Crestron, Q-SYS, Extron, etc.)? These should have been submitted as Government-owned deliverables by the original contractor under any standard A/V installation contract. If they were not delivered, that is a procurement risk the Government should address before awarding a maintenance contract.

VA ANSWER:

We did not get a full set of as builds from the initial install. An employee mistakenly allowed the installation vendor to close out the contract before these were issued.

QUESTION 7:

System Credentials: Will system passwords and archived Code be made available to the awarded contractor? Without these, meaningful service, and programming support, which Requirements 11 and 12 explicitly demand is technically impossible without recreating the entire control code from scratch.

VA ANSWER:

Yes, to providing programming and systems coeds. They are currently loaded in the GFE laptop I have for these systems.

See attached document: AV SERVICE SUPPORT SOW v2 DRAFT.
